RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1921-22.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 3RD JANUARY 1923.

RESOLUTION—No. 27Marine.

READ—

The Administration Report of the Commissioners for the Port of Calcutta for the year 1921-22.

General features of the Administration.—The improvement of trade which was a feature of the previous year was not maintained in the year under review, and there was a considerable decrease in the volume of traffic passing through the Port. There was consequently a marked absence of congestion, and the Commissioners were able to handle all traffic throughout the year without serious delays. The following statistics show the trade of the Port during the past seven years :—

	1914-15.	1915-16.	1916-17.	1917-18.	1918-19.	1919-20.	1920-21.	1921-22.
I. Net Tonnage of the Port ...	3,714,344	3,967,798	3,804,680	3,091,011	2,292,462	2,941,846	4,017,514	3,446,021
II. Jetties, Imports	917,978	788,431	686,010	633,693	574,833	713,746	684,990	622,411
III. Docks, Imports	700,133	570,997	444,310	363,383	482,403	658,006	413,357	697,361
IV. Docks, General Exports ...	920,659	1,054,985	1,185,159	995,113	1,097,562	1,146,479	1,183,712	974,783
V. Docks, Coal	2,633,805	1,610,645	1,994,528	1,014,993	1,333,385	2,264,976	3,046,400	1,667,222

Income.—The trade depression affected the income for the year which was Rs. 2,19,17,042. as compared with Rs. 2,66,08,032 in 1920-21, in spite of an increase in the river dues and a revision of the railway terminal charges. There was a decrease of Rs. 28 lakhs in the rents realised from goods remaining at the jetties, owing to the fact that importers took prompt delivery of their goods. There was a heavy drop in the exports of coal.

Expenditure.—The total expenditure amounted to Rs. 2,40,39,556 compared with Rs. 2,51,61,205 in 1920-21, giving a deficit on the year's working of Rs. 21.22,514.

Jetties.—The tonnage handled at the jetties was 622,411 tons as against 684,990 tons in 1920-21. The principal commodities in which the imports fell short of the figures realised last year were iron, steel and motor cars.

Docks.—The total number of vessels which entered the docks was 838 against 1,133 in the previous year. The tonnage of the dock traffic was 697,361 imports and 2,662,005 tons exports as against 413,357 and 4,180,119. The increase in imports was due to the large quantity of sugar landed at the docks, amounting to 352,839 tons, the largest quantity ever handled by the Commissioners in a year.

Navigable Channels.—The channels between the Sandheads and the Port were maintained in a navigable condition with the help of dredging. The new dredger *Gunga* was put into commission on the 19th December 1921 and promises to be an effective dredging machine.

Capital works.—The chief capital works in progress during the year were :—

(1) King George's Docks.

(2) Garden Reach Riverside Berths. Shed No. 2 was practically completed during the year and was used for storage purposes.

(3) Reconstruction of No. 3 Calcutta Jetty.

(4) New 80 feet Entrance, Kidderpore Docks. Work was started in November 1921.

(5) The erection of 65 new wagons, the parts of which were received during the preceding financial year, was completed.

Capital Account.—The year opened with a debit balance on capital account of Rs. 1,84,218.

During the year two debenture loans were issued, one for Rs. 175 lakhs at 6½ per cent. repayable in 60 years, and the other for £1,000,000 at 7 per cent. repayable in 30 years, with an option of repayment in each case after ten years.

The total expenditure on capital account during the year amounted to Rs. 1,98,68,452.

General.—Mr. C. D. M. Hindley, the first wholetime salaried Chairman of the Trust, took up his duties on the 3rd November 1921, Mr. S. C. Stuart-Williams temporarily holding charge as Chairman from the 1st May to 2nd November 1921. Mr. Stuart-Williams was appointed the first Deputy Chairman of the Trust.

Mr. D. H. Lees, I.C.S., was Chairman during April 1921.

The Governor in Council desires to thank these gentlemen for their successful administration of the Trust.

By order of the Governor in Council,

G. H. W. DAVIES,

Deputy Secretary to the Government of Bengal.

DRAFT RULES.

I. Application of the Rules.

1. These rules shall apply both to the erection and the re-erection of any building which is not a hut.

II. Stability of structure.

2. (*1*) No building shall be erected or re-erected on a site which has been filled up with, or used for depositing, rubbish or such other material as is likely to render the site unstable or incapable of drainage until at least 5 years have elapsed since it was so filled up or used and unless the Chairman has certified that the soil of such site is firm and solid and that the stability of any building constructed thereon will not be endangered.

(*2*) No building shall be erected or re-erected on a site within 30 feet of a tank unless the owner places, or satisfies the Chairman that he will place, the house-drains, privy or cess-pool in such a position as to prevent their draining into the tank.

III. Buildings generally.

3. External and party walls of all buildings must be constructed of good bricks, stone or other hard and incombustible material properly bonded and solidly put together by soorkee and lime mortar or some other suitable material.

4. Every external and party wall of a building must have a damp proof course at the level of the ground floor. Such damp proof course may consist of (*1*) sheet-lead, (*2*) asphalt, (*3*) slate laid in cement mortar, (*4*) artificial stone or cement concrete one inch thick, (*5*) two courses of bricks dipped in hot coal-tar and embedded in cement mortar, or some other material impervious to moisture.

5. Except with the sanction of the Commissioners the foundation of a building must rest on solid ground.

6. The spread of foundation must be such that the pressure on the soil caused by the total weight of the walls, floors and roofs taking into account the load on the floors and roofs, terraced roof (if any), shall not be greater than 1 ton on each square foot.

7. The levels (*i.e.*, the depth) of the foundation must be such as the Commissioners consider satisfactory. The minimum depth of foundation must not be less than 4 feet on the road side and 3 feet in the interior.

8. The plinth of building should be at least 2 feet higher than the centre of the nearest street.

9. Every external and party wall must be constructed so as to rest upon proper footings having regular offsets.

10. All external and party walls should be properly bonded.

11. The floor of every masonry building must be constructed to bear a safe load of 1·25 cwt. per square foot, including live load.

12. There should be stone or iron and steel bed plates underneath each end.

13. The height of a building measured from the plinth shall not be more than twice the breadth of the road including side drains (if any) on which it stands, or in case where there is an open space in front of the building, the height shall not exceed twice the width of the road *plus* the width of the open space, or in case where one or more of its storeys are set back, the height may be increased so that it shall not be more than twice the sum of the width of the road and the set-back taken together:

Provided that in no case shall a building exceeding fifty feet in height be erected without the special permission of the Chairman.

IV. Buildings used or likely to be used for dwelling purposes.

14. No room other than a bath room or privy shall be placed over a privy in a building, which is to be used for dwelling purposes.

17. If the site on which a building is to be erected or re-erected is of such a nature that it is in the opinion of the Chairman impracticable to provide an open space in the rear of the building of the dimensions prescribed the Chairman may relax the provisions of rule 16:

Provided that—

(*a*) Such open space shall be left as the Chairman may consider practicable, having regard to all the circumstances of the case, and

(*b*) not more than two-thirds of the total area of the site shall be occupied by the buildings.

18. If either side of a building which is meant for a dwelling house is not attached to the adjacent building, and if such side does not abut on a public square or street, not less than six feet in width, there must be between the buildings an open space extending along the entire length of such side and belonging exclusively to the said building.

The minimum distance across such space from every part of the building to the boundary line of the land or building immediately opposite such part shall be—

19. Every open space must be open to the sky, throughout its entire area, and must be kept accessible for the purposes of cleansing, and no structure shall be erected within or above so as to project over the same, nor shall such open space be taken into account in determining the area of any open space required under these rules for any other building:

Provided that a privy or a receptacle for ashes may be erected in any such open space, if such space is not less than 10 feet in width, and provided the wall of the privy to be so constructed is not within 4 feet from the nearest wall of a building.

Distraint and sale of movable property of defaulter.

15. Immediately after the fifteenth day from the date on which the instalment payable becomes due the Commissioners shall prepare a list of the persons who may have failed to pay their respective instalment of the cess for such quarter, showing the amount due from each of such defaulters, and the list shall be published in a conspicuous place within the municipality.

16. If any of the defaulters do not, within fifteen days of the publication of the list under rule 15, pay the sum due, or show to the Commissioners sufficient cause for not paying the same, the Chairman or, if so directed by him, the Vice-Chairman, shall direct the municipal bailiff or peon or any other person authorised in writing by the Chairman or the Vice-Chairman to levy by the distraint and sale of a sufficient portion of the movable property of the defaulter, except ploughs, plough-cattle, tools or implements of agriculture or trade, wherever found, or of any movable property belonging to any other person, subject to the same exceptions which may be found within the holding in respect of which such defaulter is liable to such tax or rate :

Provided that if the default is committed in respect of the cess on a holding which is a place of business, and the movable property distrained is shown to the satisfaction of the Commissioners to have been left there for repairs or safe custody in the ordinary course of business, it shall be released ;

Provided also that, if the said property or any part thereof belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same ;

Provided that when the movable property distrained is shown to the satisfaction of the Commissioners to have been left in the holding for repairs or safe custody in the ordinary course of business, it shall be released.

17. Distress shall be made by actual seizure of movable property, and the person charged with the execution of the distraint and sale shall be responsible for the due custody thereof.

18. Such person shall give not less than ten days' previous notice of the sale and of the time and place thereof by beat of drum :

Provided that if the property distrained is of a perishable nature, it may be sold at once with the consent of the defaulter, or without such consent at any time after the expiry of six hours from the seizure.

19. The person charged with the execution of distraint and sale may, under the special order of the Chairman or the Vice-Chairman, between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any movable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance :

Provided that he shall not enter or break open the door of any room appropriated for the zenana, or residence of women, which by the usage of the country is considered private, except after three hours' notice and opportunity given for the retirement of the women.

20. If the sum due be not paid before the time fixed for the sale, the movable property seized shall be sold by auction at the time and place specified in the most public manner possible, and the proceeds shall be applied in the discharge of the sum due.

21. No property shall be sold to any Municipal Commissioner or to any officer or servant of the Commissioners.

22. The surplus sale-proceeds shall be returned to the defaulter, or, in his absence, credited to the municipal fund, to be paid thereafter on demand to any person who establishes his right to the satisfaction of the Commissioners.

23. The Commissioners shall cause a regular account to be kept of all distresses levied and sales made for the recovery of the education cess.

24. If no sufficient movable property belonging to a defaulter, or being upon the premises in respect of which he is assessed or rated, can be found within the municipality, the Magistrate may, on the application of the Commissioners, issue his warrant to any officer of his court for the distress and sale of any movable property or effects belonging to the defaulter within any other part of the jurisdiction of the Magistrate, or for the distress and sale of any movable property belonging to the defaulter within the jurisdiction of any other Magistrate exercising jurisdiction within the territories administered by the Governor of Bengal, and such other Magistrate shall endorse the warrant so issued and cause it to be executed, and the amount, if levied, to be remitted to the Magistrate issuing the warrant, who shall remit the same to the Commissioners.

25. No distress or sale made under these rules shall be deemed unlawful, nor shall any party making the same be deemed a trespasser, on account of any error, defect or want of form in the bill, notice, warrant of distress, inventory or other proceeding relating thereto.

26. Instead of proceeding by distress and sale, or in case of failure to realize thereby the whole or any part of any tax, the Commissioners may sue the person liable to pay the same in any court of competent jurisdiction.

27. The Commissioners may order to be struck off the books the amount of any cess which may appear to them to be irrecoverable.

28. No instalment of the education cess shall be recovered by distress after the expiration of one year from the day on which the same shall have become due.

Secretary to the Government of Bengal.

Detonators and their friction tubes shall be stored separately. All explosives which vessels are by this rule permitted to keep on board in port shall be stored in all cases in separate, detached and completely enclosed magazines for each description of signals. The magazines should be kept in a house on deck and stowed or ranged as far apart as possible, so that in the event of fire they can be removed or thrown over-board.

2. All inward-bound vessels carrying explosives, in excess of the quantity prescribed by rule 1, are prohibited from proceeding above Budge-Budge.

3. Before entering the limits of the port, the Master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive in excess of the quantity prescribed by rule 1.

4. Masters of vessels having on board explosives belonging to the following classes, as laid down in the Indian Explosives Rules, 1914, shall make their own arrangements for the discharge of the explosives :—

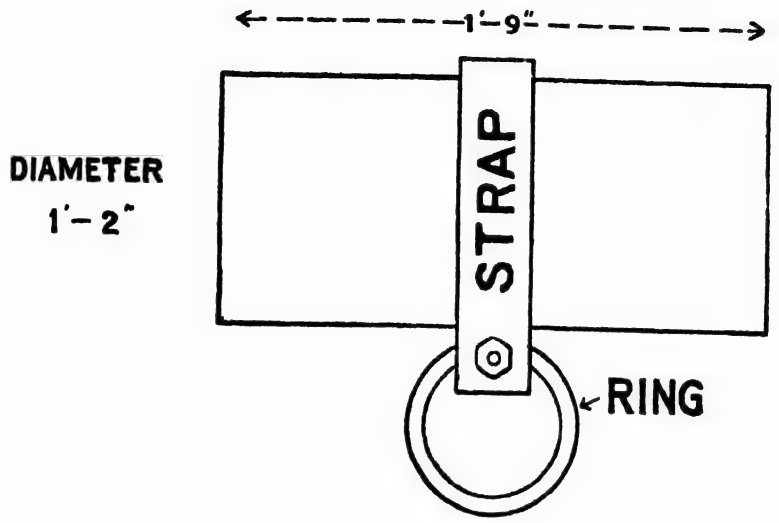
The rope shall be attached to such part of the boat, barge or lighter as is most clear of spars, gear or other obstruction, the position to be approved by the licensing authority.

7. The buoy shall be a drum painted in red, 1'-9" in length and 1'-2" in diameter, properly strapped with an iron band in the middle having a ring attached for securing the rope and shall be approximately of the shape of the diagram set forth below, viz.—



[*Note.—The size of this buoy has been so chosen as to permit of an ordinary 10-gallon oil drum being utilised for the purpose if fitted.*]

Explosives that may be landed at Moyapore.

8. Explosives of classes 1, 6 and 7, that is to say, gunpowder, ammunition and fireworks as specified in the rules issued under the Government of India, Commerce and Industry Department, notification No. 4013-33, dated the 6th June 1914, (hereinafter referred to as the Indian Explosives Rules, 1914), if the quantity thereof is in excess of that prescribed in rule 1, shall be landed and deposited in the magazine at Moyapore.

9. Explosives of classes 2 and 3, division 2 (as specified in the Indian Explosives Rules, 1914) such as small-arms and nitro-compounds may be landed and deposited in the magazine at Moyapore provided that such explosives are by their nature and composition suitable for use only in the loading of safety sporting cartridges and are not intended for or suitable for blasting purposes.

10. Explosives of classes 1, 3 and 6 (detonators only, as specified in the Indian Explosives Rules, 1914) intended for despatch up-country may, as an alternative, be discharged at Moyapore and transported under Police guard from Moyapore to the Uluberia railway station and there loaded into Bengal Nagpur Railway wagons for despatch to a magazine declared suitable by the Government of Bengal under rule 24 of the Indian Explosives Rules, 1914, subject to the following restrictions, viz. :—

(*i*) The transport shall be covered by a pass to be granted by the District Magistrate of the 24-Parganas.

(*ii*) The loading and transport by boats shall be done during the day light.

(*iii*) No storage shall be allowed on shore or in boats except that, when unavoidable, storage in boats may be allowed for a period not exceeding 36 hours.

(*iv*) No boat with explosives shall be moored at Uluberia railway station inside the railway boundary.

11. For the convenience of vessels having ship's gunpowder, ammunition and fireworks on board, a properly constructed powder-boat shall always be in attendance off the magazine for landing and shipping such explosives. No charge will be made for the use of the boat for landing these ship's explosives, but the responsibility of the magazine-keeper in respect of the ship's explosives shall not commence until they are landed on the bank, and shall cease as soon as they are shipped on board the boat. Every precaution shall be taken to insure the safety of the explosives while in the boat, but the landing and shipping shall be at the risk of the vessel.

12. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine powder-boat; but, should passing vessels require the use of the boat to put out or take in ship's explosives, such vessels shall be accommodated before the boat is used to discharge explosives brought as cargo. The landing of trade explosives, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

13. Masters of vessels requiring the use of the magazine powder-boats shall hoist a flag at the fore-topmost head on coming in sight of the magazine, as a signal to the keeper to have the boat and coolies in attendance.

14. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ships' explosives previously to their being landed; if not so marked, they shall not be received by the magazine powder-boat.

15. The magazine-keeper shall give to the Master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such Master for the re-delivery of such packages.

16. A clerk shall always be in attendance in the magazine powder-boat, and shall receive from the Master the declaration specified inrule 3.

17. If any vessel shall be prevented, by stress of weather or by being in distress, from landing or depositing any explosives which are in excess of the quantity prescribed by rule 1, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghat, and the Master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

18. Masters of outward-bound vessels, who may require ships' explosives for their outward voyage, shall not take such explosives on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding that prescribed in rule 1.

19. Masters of vessels, who have deposited ships' explosives at the magazine, shall inform the Harbour Master of the date on which the vessel will pass the magazine outward-bound, and, on receipt of this information, orders shall be forwarded to the magazine-keeper to place the said explosives in the magazine powder-boat, and to send it off at such time as will avoid any detention of the outward-bound vessel. Before taking the explosives on board, the receipt granted by the magazine-keeper shall be given up.

Explosives that may be landed at Diamond Harbour.

20. Explosives of classes 2 and 3, as laid down in the Indian Explosives Rules, 1914, other than those mentioned in rule 9, shall not be brought into or pass through the port except under the supervision of the police and subject to such restrictions as may, from time to time, be imposed by the Commissioner of Police and the Port Commissioners, in addition to the restrictions laid down in the Indian Explosives Rules, 1914. Such explosives may be landed at Diamond Harbour and conveyed thence by rail to the magazine declared suitable by the Government of Bengal under rule 24 of the said rules: provided that they are taken direct from the vessel to wagons, or that arrangements are made for their safe custody after discharge from the vessel if there are no wagons ready to receive them.

21. Boats containing explosives of the classes specified in rule 20 may anchor at Diamond Harbour if it is intended to land the explosives at that place, but shall, in no case, anchor within port limits, or be made fast at any part of the river-bank or alongside any vessel, stage, jetty or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.

Explosive that may be landed at Prinsep's Ghat.

22. Such boats as are approved for this purpose by the Boat Surveyor to the Port Commissioners shall be permitted to take on board at the Moyapore Magazine and bring as far as Prinsep's Ghat, under cover of licenses to be granted by the Commissioner of Police in such form as may be prescribed by the Local Government, 500 lbs. of trade gunpowder which is the property of dealers and consignees. For each boat the dealers shall supply an armed guard (pensioned sepoy), whom the Commissioner of Police, Calcutta, will select.

23. Delivery of trade gunpowder into boats at the Moyapore Magazine for conveyance to Calcutta shall only be made upon orders issued by the Port Commissioners.

24. No boat conveying gunpowder in accordance with the provisions of rules 22 and 23 shall be allowed to proceed above Prinsep's Ghat. No powder shall be landed at any ghat, other than at Prinsep's Ghat, except with the special permission of the Port Commissioners.

25. The provisions of rules 22, 23 and 24 shall apply to Chinese crackers, provided that dealers in Chinese crackers shall not be required to employ an armed guard or to maintain a boat exclusively for the purpose of carrying Chinese crackers. The boats that are used for this purpose must be approved by the Boat Surveyor to the Port Commissioners.

Explosives that may be landed at the docks or jetties.

26. Explosives specified in the first division, class 6, of the Indian Explosives Rules, 1914, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps which have been brought as part of a general cargo, and placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' by-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The

term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles, or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

27. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when it is necessary to use artificial lights, and no explosives shall be landed, received into, or delivered from the magazine when it is necessary to use artificial lights.

28. No smoking and no fire or light of any description, except the red lamp between sunset and sunrise, shall be permitted on board of any boat which has explosives on board.

29. Whoever contravenes any of the provisions of rule 2, 3, 4. 5, 6, 7, 17, 18, 21, 22, 24, 27 or 28 shall be punished with fine which may extend to the amount mentioned in the proviso to section 5 (*3*) of the Indian Explosives Act, 1884 (IV of 1884).

REVISION OF PAY OF OFFICERS OF THE REGISTRATION DEPARTMENT.

GOVERNMENT OF BENGAL.

EDUCATION DEPARTMENT.

Miscellaneous—Registration.

CALCUTTA, THE 2ND JANUARY 1923.

RESOLUTION—No. 44Mis.

Minister in charge : The Hon'ble Mr. P. C. Mitter, C.I.E.

THE maximum and minimum pay of Sub-Registrars has remained practically unchanged since 1905 when payment by salaries was introduced in place of the commission system in the Registration Department. In the

meantime the cost of living has increased, and it is agreed that the scales of pay of the officers of the Registration Department require revision.

The Government of Bengal (Ministry of Education) are now pleased to issue the following orders :—

(*a*) The Registrar and Sub-Registrar of Calcutta will be placed on the scales of pay Rs. 450—25—500 and Rs. 300—20—400, respectively.

(*b*) There will be two Inspectors of Registration offices who will be placed on the scale of Rs. 350—20—450. Their chief function will be to assist the Inspector-General of Registration in inspecting Registration offices.

(*c*) Sub-Registrars will be placed on the scale of Rs. 80—6—140 (efficiency bar)—6—200 (efficiency bar)—10—250. Probationers will each get Rs. 60 per mensem and will be required to pass their departmental examination before being confirmed as Sub-Registrars. They will remain for one year on the above pay or until they pass the examination, whichever period is longer.

(*d*) Sub-Registrars in charge of Sadar offices in 25 districts of Bengal (excluding Calcutta, Chittagong Hill Tracts and Darjeeling), who correspond roughly to the present "District Sub-Registrars," which designation is now abolished, will get their time-scale pay *plus* incremental special pay of Rs. 75—5—100 which will count towards leave and pension. One of their most important functions will be to inspect Sub-Registry offices in their districts, but they will also be in charge of the Sadar Registration offices. In respect of routine office duties, they will, where necessary, be assisted by a Joint Sub-Registrar at Sadar. They will be vested with the powers and duties of the Registrar to whom they are subordinate, and will ordinarily do all original registration work under section 30(*1*) of the Indian Registration Act. They will also hear all appeals under section 72 and all applications under section 73 of the Act.

(*e*) At present there is only one Inspector of Muhammadan Marriage Registration offices. The post of another Inspector of Muhammadan Marriage Registration offices is now sanctioned. These Inspectors of Muhammadan Marriage Registration offices will be included in the cadre of Sub-Registrars.

(*f*) The revision of pay which includes a measure of re-organisation will take effect from the 1st December 1922. The existing leave and casualty reserves have been amalgamated in the ordinary cadre, and subsequent orders will be issued fixing the strength of the cadre.

3. Officers will be brought on to the new time-scale in accordance with the following principles :—

(1) Officers who are brought on the time-scale will be permitted to count all continuous temporary, probationary, acting or substantive *pro tempore* service in a corresponding post followed by confirmation as if it were service on the new time-scale, and to draw pay at the point which they would have reached on this hypothesis, provided that a deduction of one year shall be made from the total service thus calculated, but no such deduction shall be made in the case of Sub-Registrars who began service not less than one year before the introduction of salary system on 1st October 1905, as they have already lost the whole period of their service under the commission system. Officers who are entitled to the incremental special pay referred to in clause (*d*) of paragraph 2 will be placed in this incremental scale in accordance with the number of years of service as permanent District Sub-Registrars.

(*ii*) An officer who originally entered on any of the appointments which are now put on a time-scale at a pay higher than the lowest of those appointments will draw an initial pay not less than that of the officer next below him in the present grade who entered on the lowest pay.

(*iii*) An officer whose promotion has been accelerated for good work will draw on the time-scale the same initial pay as the officer next below him.

(*iv*) An officer who has been degraded or punished by having his promotion permanently retarded will draw the same pay as the officer next above him.

(*v*) Subject to the proviso that no officer will draw less than the minimum of the new scale or more than the maximum, the initial pay must not exceed the substantive, provisionally substantive, or substantive *pro tempore* pay drawn on the 1st of December 1922 by more than—

(1) Forty per cent. in the case of those drawing pay of not more Rs. 100 on that date,

(2) Thirty per cent. in the case of those drawing pay from Rs. 101 to Rs. 200 on that date,

(3) Twenty per cent. in the case of those drawing pay more than Rs. 200 on that date,

with necessary adjustments at points where percentages change, to avoid anomaly of treatment.

(*vi*) When the pay of an officer determined with reference to the percentage limitation does not coincide with a point in the new time-scale the officer shall enter the time-scale at the point next below and shall receive a personal allowance, to be absorbed in his next increment, equal to the difference between the point at which he enters the time-scale and the amount admissible to him under clause (*v*) of this paragraph.

(*vii*) Where an officer is already on a progressive or time-scale pay, the date of his increment in the new time-scale will be the same as in the old scale. In all other cases the incremental period will be reckoned from 1st December 1922.

As the Government of Bengal make appointments in the Registration Department, they alone are competent to enable the holders of these appointments to pass beyond the efficiency bar. The Inspector-General of Registration, Bengal, has therefore been requested to submit for the approval of Government the nominal roll of the existing officers of the Registration Department in the following form, with a statement of the reasons for his not allowing to pass the efficiency bar those officers whom he does not consider fit for doing so :—

Serial No.	Name of officer.	Date of appointment in the Registration Department.	Pay on the new scale on 1st December 1922.	Remarks.

ORDER.—Ordered that the resolution be communicated (1) to the Finance Department of this Government for information and communication to the Accountant-General, Bengal; (2) to the Inspector-General of Registration, Bengal, for information and necessary action.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

By order of the Government of Bengal,

(Ministry of Education),

J. N. ROY,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE COMMITTEE APPOINTED TO ADVISE ON THE EXTENSION OF THE BOUNDARIES OF CALCUTTA.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 12TH JANUARY 1923.

RESOLUTION—No. 76M.

Minister in charge : The Hon'ble Sir S. N. Banerji, Kt.

WHEN the Calcutta Municipal Bill was introduced in the Legislative Council, the Minister for Local Self-Government referred to the fact that proposals for the amalgamation with Calcutta of some of the suburban areas (Cossipore-Chitpur, Maniktola and Garden Reach Municipalities) had been made by the Corporation of Calcutta. He had invited the Chairman and Vice-Chairman of these municipalities to a conference held in March 1922, and had ascertained from them that they and their constituencies were entirely opposed to these alterations in boundaries. He had assured them that "Government would not favour these changes, if they went wholly and decisively against the wishes of the people concerned", and he informed the Legislative Council that in view of the opposition which was offered, he had decided not to adopt the proposals made by the Corporation, save in respect of a small area within the Tollygunge Municipality. When the Bill was subsequently referred to a Select Committee, it appeared that several of the members were strongly in favour of the extension of the city boundaries in the interests of the health of Calcutta. The Minister for Local Self-Government, as President of the Committee, thereupon decided that it was desirable for Government to appoint a small committee to advise on the inclusion of certain areas within Calcutta, with the view that their enquiries might be of considerable help to the Select Committee and might assist Government in determining whether the decision set out in the Minister's speech in the Legislative Council required in the light of further information to be modified.

2. A Committee consisting of Mr. S. R. Das, Advocate-General, Dr. S. C. Banerji, President of the Improvement Trust Tribunal, and Mr. J. A. Woodhead, I.C.S., Land Acquisition Collector (Secretary), was appointed by resolution No. 4601 L S.-G., dated the 29th August 1922. The Committee's report was submitted on the 4th January 1923. They held 13 sittings and took every possible step to obtain the views of the local bodies, associations and persons likely to be affected by the proposed alterations of the city boundaries. Fourty-seven witnesses were examined.

3. The report deals first with the proposal to include the new Dock Extension area within Calcutta. The Committee are of opinion that the loss of revenue at present enjoyed by the Garden Reach and South Suburban municipalities from the new Dock Extension area would seriously cripple the finances of these two local bodies, and that the amalgamation of the Dock Extension area with Calcutta so far as it lies within the Garden Reach Municipality should not be effected unless the whole of that municipality were incorporated in Calcutta. Similarly they are of opinion that the South Suburban Municipality should continue to administer that portion of the Dock Extension area which lies within their boundaries.

4. As regards the Ballygunge Pumping Station and the High Level Outfall Sewer, the Committee are of opinion that this small area which lies within the Tollygunge Municipality should be amalgamated with Calcutta on the Corporation refunding to the latter municipality a sum of Rs. 2,632 expended on local drainage within this area. It is to be observed that the Committee are of opinion that the Tollygunge Municipality's claim to a recurring compensation for the net loss of income (Rs. 3,000) derived from this area should not be admitted.

5. As regards the Cossipore-Chitpur Municipality, the Committee observe that the weight of public opinion is opposed to amalgamation, that the municipality is efficiently managed, and that its financial position is one of considerable and growing strength.

In these circumstances they do not recommend that Cossipore-Chitpur should at present be amalgamated with Calcutta.

6. The case of Maniktola in their opinion stands on a different footing. Its municipal services are admittedly unsatisfactory, and the Commissioners also state their inability to carry out the costly drainage and other improvement schemes which are essential, if this important area is to enjoy the ordinary amenities of a large modern town.

The Committee were informed that the improvement of Maniktola would involve a capital expenditure of not less than 30 lakhs of rupees on which the loan charges would amount roughly to 2½ lakhs per annum, while it was estimated that an additional recurring expenditure of rupees one lakh per annum would be required to bring the municipal services to a proper standard. The Committee came to the view that local opinion almost unanimously favours amalgamation, if some guarantee can be given for the execution of the necessary improvements within a reasonable period. In view of these facts, the Committee have recommended that Maniktola should be amalgamated with Calcutta on condition that a statutory obligation is placed upon the Calcutta Corporation to spend on an average three lakhs of rupees per annum, over and above the amount realized as revenue from the absorbed area, until such time as Government are satisfied that all its more urgent improvements have been carried out.

7. The report of the Committee has been laid before the Select Committee and it is for them to decide what recommendations they will make in this regard to the Legislative Council.

The Minister has directed that the report of the Committee should be published so that the public, and particularly the municipal boards and residents of the areas affected, may have an opportunity of studying the important issues raised.

He desires in conclusion to record his warm appreciation of the services rendered by the members of the Committee and to thank Mr. Woodhead for the manner in which he has discharged the onerous duties of Secretary in addition to his ordinary work.

By order of the Government of Bengal

(Ministry of Local Self-Government).

S. W. GOODE,
Secretary to the Government of Bengal.

Report of the Committee appointed to advise on the extension of the boundaries of Calcutta.

I. **Constitution.**—The Committee was appointed by resolution No. 4601L.S.-G., of the Government of Bengal, dated the 29th August 1922.

II. **Terms of Reference.**—The terms of reference were to advise on the inclusion of the following areas within the boundaries of the Calcutta Corporation :—

(*a*) the new Dock Extension area,
(*b*) the Ballygunge Pumping Station and the High Level Outfall Sewer up to a certain point,
(*c*) Maniktola, and
(*d*) Cossipore-Chitpore.

III. **Meetings held and witnesses examined.**—The Committee held thirteen sittings. Advertisements were published in the local papers requesting persons interested in the proposed extensions of the city boundaries to favour the Committee with their views. Written opinions were obtained from all the local bodies affected by the proposed extensions and from private individuals and associations. The Committee also examined 47 witnesses.

IV. **The New Dock Extension Area.**—The new Dock Extension area is the area acquired by the Port Commissioners for the construction of the King George's Dock and the works in connection therewith. The Port Commissioners intend constructing a road within the outer boundary of this area, and the Calcutta Corporation has proposed that the Calcutta municipal limit should be at a distance of 200 feet beyond this boundary line. This area falls within the jurisdiction of—

(*a*) the Garden Reach Municipality,
(*b*) the District Board of the 24-Parganas, and
(*c*) the South Suburban Municipality.

It will be convenient to consider the three divisions of this area separately.

King George's Dock falls very largely within the Garden Reach Municipality. The Port Commissioners favour the inclusion of this area within the city of Calcutta for the following reasons. First, the Port Commissioners desire that King George's Dock and the surrounding area should be provided with a high standard of municipal administration, and above all that a system of underground drainage and an adequate water-supply should be installed. Secondly, they apprehend that the Garden Reach Municipality will not be able to provide municipal services of this high standard, and they maintain that they are fortified in this view by the fact that, in spite of the large sum at present paid to the Garden Reach Municipality as taxes by the Port Commissioners, the municipality has failed to supply those municipal services which the Port Commissioners as ratepayers can reasonably expect, and in particular has failed to cleanse the existing service privies or to provide a water supply to the Dock area. In consequence of this failure the Port Commissioners have been compelled to spend a consi derable sum on the installation of septic tanks and the sinking of tube wells. Thirdly, they expect that amalgamation with Calcutta will ensure the provision of an underground sewage system and an adequate water supply within a reasonable period. Fourthly, the existing boundary line and that retained in schedule I of the Draft Municipal Bill of 1921 will become, after the closing of the existing Shahapur, Goragachha and Taratola roads, an imaginary line cutting through sheds and railway yards and running at one place through the water of King George's Dock. Such an imaginary boundary will inevitably lead to difficulty in assessment and municipal administration.

The Commissioners of the Garden Reach Municipality oppose the proposed amalgamation on the ground that the loss of this area will mean municipal bankruptcy for their municipality. They point out that the income realized from the Port Commissioners' area is Rs. 79,000 a year and the expenditure on that area Rs. 12,000 a year, that the budget of 1922-23 showed a balance of receipts over expenditure of Rs. 40,000 and that the loss of the

income from the Dock area will turn this surplus into a deficit of Rs. 27,000 a year. A drainage scheme costing 7 lakhs is under preparation and an experimental tube well has been sunk with the object of supplementing the water supply received from the Calcutta Corporation. The loss of the income from the Dock area will inevitably necessitate the abandonment of these schemes, and the return of the municipality from a condition of progress to one of stagnation.

Local opinion and the opinion of the District Magistrate of the 24-Parganas support the views expressed by the Commissioners of the Garden Reach Municipality. Both the Chairman of the municipality and the District Magistrate of the 24-Parganas in the course of their oral evidence before us stated that it would be preferable to amalgamate the whole of the Garden Reach Municipality with Calcutta than to cripple the former by the severance of the Dock area.

Criticism has been and probably will be directed against the fact that the Garden Reach Municipality spends such a small portion of the income derived from the New Dock area on the municipal services of that area. It is beyond our province to say whether the expenditure incurred on the New Dock area bears the correct proportion to the receipts from that area, but in this connection we wish to draw attention to two points. First, the receipts by the Calcutta Corporation from the Dock area at present included within the city boundaries exceeds by a very considerable amount the municipal expenditure on that area and we see no reason to presume that if the New Dock area be amalgamated with Calcutta the expenditure by the Calcutta Corporation on the New Dock area will in any way approach the receipts from that area. Secondly, it is impossible to divide any municipality into water-tight compartments and demand that the expenditure and receipts of each of these compartments shall exactly balance. The richer areas must always contribute towards the cost of the municipal services in the poorer areas.

We agree with the Port Commissioners that the maintenance of a high standard of municipal administration in the New Dock area is of the greatest importance, and we are of opinion that the Port Commissioners are probably correct in concluding that the Calcutta Corporation will be able to provide and maintain a more efficient service than the Garden Reach Municipality. At the same time it must be remembered that the completion of King George's Dock will be accompanied by an increase in the population—in all probability due to an influx of the poorer classes—and in an intensification in the industrial character of the Garden Reach municipal area, and that the maintenance of an efficient municipal administration in the urban area adjoining the docks will be almost as essential as the improvement of the municipal services within the New Dock area. In considering therefore the advisability of amalgamating the New Dock area with the Calcutta Municipality we must not only consider the beneficial effect on the area severed but also the effect on the remaining portion of the Garden Reach Municipality. It would be useless recommending proposals for the improvement of the administration of one area if those proposals must necessarily bring in their train a great deterioration in the standard of municipal administration in an adjoining urban area. We are satisfied that the loss of the revenue derived from the New Dock area will result in the crippling of the finances of the Garden Reach Municipality, will render it difficult for that body to maintain the present services in a state of efficiency, and will postpone indefinitely all schemes for the improvement of the municipal services particularly those relating to drainage and water supply. The amalgamation of this portion only is also open to the serious objection that it will transfer an area which under any municipal administration will yield a surplus of receipts over expenditure from a relatively poor municipality to a richer body, and that the surplus will be diverted thereby to improving an area which is capable of financing its own schemes of improvements without this additional revenue. We have given the case our very careful consideration and have come to the conclusion that we cannot recommend the amalgamation with Calcutta of that portion of the New Dock area which falls within the Garden Reach Municipality. We express no opinion as to whether at the present time the whole of the Garden Reach Municipality should be amalgamated with Calcutta, but if there is any question of the amalgamation of the new Dock Extension area we are of opinion that this should not be done unless the Government is prepared to extend the

boundaries of Calautta so as to include the whole of the Garden Reach Municipality.

The case for the amalgamation of that portion of the New Dock area which falls within the South Suburban Municipality is practically the same as that relating to the area falling within the Garden Reach Municipality. Out of the total revenue of Rs. 63,000, Rs. 16,000 is realized from property belonging to the Port Commissioners and the expenditure on the services rendered to the Port Commissioners is much less than the receipts. As in the case of the Garden Reach Municipality the severance of the Port Commissioners' area would seriously interfere with the stability of the finances of the municipality and would very adversely affect the efficiency of the municipal administration. The fact that this portion of the Port Commissioners' land will in all probability be chiefly occupied by a large marshalling yard not requiring such a high standard of municipal service renders the amalgamation of this area with Calcutta less urgent. We accordingly do not recommend the amalgamation of this portion of the New Dock area with Calcutta.

The remaining portion of the New Dock area lies within the jurisdiction of the District Board of the 24-Parganas. As we have negatived the proposals to amalgamate the areas falling within the two municipalities, we cannot recommend the amalgamation of this area at the present time.

The difficulty in assessment and administration which will arise owing to the boundary between the Calcutta Municipality on the one hand and the Garden Reach Municipality, the South Suburban Municipality, and the District Board on the other becoming in a few years an imaginary line is one with which it is at present difficult to deal, because the exact lay out of the New Dock area has not yet been decided upon. This difficulty and other similar difficulties as to the boundaries of Calcutta, we think, may be avoided by the insertion in the Calcutta Municipal Bill of a clause authorising Government to appoint a Committee to advise on any change of boundaries which may appear necessary, and on a consideration of that report to amend by notification the definition of Calcutta as contained in schedule I of the Act.

V. **The Ballygunge Pumping Station and the High Level Outfall Sewer.**—The small area of the Tollygunge Municipality which it is proposed should be amalgamated with Calcutta, we think, may be conveniently included within the Calcutta Municipality. The Chairman of the Tollygunge Municipality gave evidence before us and he stated that he had no objection to the area being included within the Calcutta Muuicipality if the Tollygunge Municipality was compensated for the loss of income incurred by the severance. According to the Chairman this net loss of income is about Rs. 3,000 a year. It also appears that the Tollygunge Municipality has recently paid the Calcutta Corporation the sum of Rs. 2,632 for the cost of connecting the drain from this area with the Pumping Station. On amalgamation the Tollygunge Municipality will be entitled to the refund of this latter amount of Rs. 2,632, but we are of opinion that the claim to compensation for the net loss of revenue should not be admitted.

VI. **The Cossipore-Chitpur and the Maniktola Municipalities.**—The Calcutta Corporation has suggested the amalgamation of these two municipal areas with Calcutta. The reasons given by the Calcutta Corporation may be summarized as follows. First, Maniktola and Cosssipore-Chitpur are integral parts of Calcutta: the population of Calcutta is overflowing into these areas and the residents of these areas are in close and daily contact with the city. Secondly, the standard of municipal administration in these areas is low, and the absence of a proper system of drains and sewers and an adequate water supply is productive of conditions which at any time may turn a serious menace to the health of Calcutta.

Thirdly, these areas are developing rapidly but owing to the low standard of municipal administration this development is uncontrolled. The continuance of this lack of control will produce the evils prevalent in Calcutta of a century ago and will necessitate very heavy expenditure in the future, whereas if the Calcutta Corporation is able to control development through its stronger executive and the greater powers it possesses under the Calcutta Municipal Act, these evils and the consequent heavy expenditure, which will be necessary to remove them, will be avoided. Fourthly, the financial resources of the two suburban municipalities and their powers under the Bengal Municipal Act are too limited to allow of these muni-

cipalities introducing and maintaining a high standard of municipal administration. Fifthly, the longer the amalgamation is postponed, the more expensive it will be to carry out the comprehensive schemes of improvement which will be necessary. Sixthly, the Calcutta Corporation is in a position to carry out the necessary improvements in these two municipalities.

VII. **Maniktola.**—In Maniktola local opinion is sharply divided. The Municipal Commissioners and a considerable body of ratepayers are opposed to amalgamation. This section of the ratepayers admits that the standard of administration in the municipality is low, that radical improvements in drainage, roads, water supply, and the disposal of sewage are urgently required, and that at present there is no possibility of the municipality being able to carry out these improvements. They however oppose amalgamation because they believe that while amalgamation will bring increased burdens in the shape of heavier taxation, the Calcutta Corporation in its present financial position will find it impossible to carry out the necessary improvements within a reasonable time. In support of the latter contention they point to the slow progress made by the Calcutta Corporation in carrying out improvements in the area added in the year 1889.

Another large section of the ratepayers is in favour of amalgamation because they expect that amalgamation will bring about an immediate improvement in the general standard of administration and that the Calcutta Corporation will carry out gradually the expensive schemes of improvement which are so urgently required. A third section of the ratepayers is in favour of amalgamation even if the Calcutta Corporation for financial reasons should find it impossible to carry out in the near future expensive schemes of improvement. This section appears to be so dissatisfied with the present municipal administration and the apparent impossibility of obtaining improvements even in the general administration from the existing governing body that they would welcome amalgamation, because it would introduce an administrative body which would do its best standard of the municipal services. Local opposition to the amalgamation is therefore based not on the ground that the municipality is able to manage its own affairs in an efficient manner but on the fear that their condition after will be no better than before amalgamation in spite of what they consider as one inevitable result of amalgamation an increase in taxes. The persons opposing amalgamation including the Chairman, Vice-Chairman and the Municipal Commissioners admit that if the provision of an adequate drainage system and an improvement in the water supply can be guaranteed within a reasonable time, they would favour amalgamation.

The geographical position of Maniktola with reference to Calcutta renders it particularly suited to receive the population which is being driven gradually to reside further away from the centre of the city owing to the gradual conversion of the central residential areas to business purposes combined with the improvements being effected by the Calcutta Improvement Trust. This is well illustrated by the increase in its population. The figures from the last three census are as follows:—

1891.	1901.	1911.	1921.
40,000	48,000	56,000	67,000

With improved sanitary conditions this increase very probably will be still more marked in an area which is growing so rapidly, and we are of opinion that the present municipal body is not in a position to direct development along sound lines.

The present sanitary condition of the municipality owing to the absence of any system of drainage and inadequate arrangements for the disposal of sewage is highly unsatisfactory, and if the population continues to increase at the present rate, as we anticipate it will, conditions will certainly become worse and will be likely to become a menace to the health of Calcutta. Extensive and expensive improvement schemes are required very urgently and the present municipal body admits its inability to carry out these schemes.

Mr. Atkins, the Chief Engineer of the Calcutta Improvement Trust, has prepared a rough scheme for the drainage of the Maniktola area. He is of opinion that the best method is to discharge the greater part of the storm water and sewage from the municipal area into the present Calcutta

storm water and sewage canal and to pump the balance into the Calcutta pumping station which it is proposed to erect south of the present sewage canal. He further pointed out that he considered it essential that the drainage system of Maniktola should be linked up with the Calcutta system before Calcutta embarked upon any large scheme consequent on the difficulties now being experienced with the Bidyadhari. The scheme which is now being considered by Calcutta for the improvment of the outfall for its sewage and storm water does not provide for the drainage of Maniktola being discharged into the Calcutta drains. If the silting up of the Bidyadhari should take place while Maniktola is a separate municipality, Maniktola would be faced with either prevailing upon the Calcutta Corporation to allow it to discharge its sewage and storm water into the Calcutta sewers or being compelled to discharge its sewage and storm water through some other outfall by a much longer and more expensive route. He considered the drainage of Maniktola to be connected so closely with the drainage of Calcutta that on this ground alone amalgamation was not only justified but essential.

As regards Maniktola the following three facts appear to be clearly established. First, the intimate connection which exists between Calcutta and Maniktola. Secondly, the unsatisfactory character of the municipal services provided at present in Maniktola, and the admission by the existing municipal body that they cannot effect any radical improvement in those services. Thirdly, local opinion practically unanimously favours amalgamation with Calcutta if some guarantee can be given that the Calcutta Corporation will carry out the necessary improvements in a reasonable time.

The rate at which taxes are leived in Maniktola is high and in the case of holdings of a low annual value the rate is considerably higher than the rate at present levied in Calcutta. The following table gives the rates at which the taxes are levied on holdings with a latrine, a water connection and within 300 feet of a light (gas) post:—

Annual valuation	Rates.
Rs.	
100	28·2 per cent.
200	25· ,,
300	23·5 ,,
400	22·75 ,,
500	22·3 ,,
800	22· ,,
1,200	21·33 ,,
1,500	20·7 ,,
3,000	19·5 ,,
5,000	19·5 ,,
10,000	19·5 ,,

Out of 8,832 holdings in the municipality, 7,828 are assessed at an annual valuation of Rs. 200 and under. The Calcutta Corporation in the written note which they submitted to us stated that they expected an increase of revenue of 80 per cent. directly if the reassessment by the Calcutta Corporation had been carried out. The Chairman of the Calcutta Corporation, however, in the course of his oral evidence was not of this opinion. He thought that the immediate increase in revenue which would be derived from Cossipore-Chitpur and Maniktola after amalgamation would be 1½ lakhs. This is equivalent to about a 20 per cent. increase on the present revenue. It is extremely difficult and almost impossible to estimate the increase in revenue which the Calcutta Corporation may reasonably expect to get from the Maniktola area on a reassessment. We presume that this reassessment would take place immediately on amalgamation. We doubt, however, whether the increase will be very great. Two factors we believe will render a large increase unlikely. First, the high rate at which the taxes are at present levied on certain holdings, and, secondly, the very large number of holdings the annual valuation of which is under Rs. 200. For the efficient administration of the present municipal services in the Maniktola Municipality the Calcutta Corporation in their note estimated an increased recurring expenditure exclusive of any capital expenditure of about 1 lakh of rupees a year. The capital expenditure required to carry out the drainage scheme,

to give an improved water supply, for the construction of new and the improvement of old roads will not be less than 30 lakhs. The loan charges on a sum of 30 lakhs will be about Rs. 2,50,000 a year. Within a short time therefore of amalgamation an increased expenditure of 3½ lakhs a year would be required if the improvement of Maniktola is to be taken in hand seriously. The Chairman of the Calcutta Corporation stated before us that the Calcutta Corporation would be able to spend 3 lakhs a year from its own revenue on improvements in the suburban municipalities of Maniktola and Cossipore-Chitpur and he specified the headings under which he expected to make savings whereby the allocation of a sum of 3 lakhs for this purpose would be possible. The financial position of the Calcutta Corporation owing to the heavy expenditure entailed by the new water supply scheme is not of the brightest, but in spite of a certain degree of financial stringency we are of opinion that the Calcutta Corporation will experience no insuperable difficulty in allotting 3 lakhs of rupees a year for the improvement of Maniktola. An increase of ¼ per cent. in the rate of Calcutta would yield this sum of 3 lakhs. The improvement of Maniktola is so urgent and the possibility of the improvements being financed out of the income realised from the Maniktola area so remote that we consider the Calcutta Corporation should be prepared to devote the sum of 3 lakhs from its own resources for the improvement of Maniktola. In this connection we would point out that the allocation of 3 lakhs of rupees a year for the improvement of the area added in the year 1889 has proved to be inadequate.

We accordingly recommend that Maniktola be amalgamated with Calcutta, but we would make the amalgamation subject to a statutory obligation being placed upon the Calcutta Corporation to spend an average of three lakhs of rupees a year over and above the amount realised as revenue from Maniktola until such time as the Government is satisfied that the more urgent improvements have been carried out. We consider the imposition of this statutory obligation of the greatest importance and an integral part of our proposals. Without this statutory obligation we are not prepared to recommend the amalgamation. We place great stress upon this statutory obligation for two reasons. First, rightly or wrongly, the opposition to amalgamation is based very largely on the alleged failure of the Calcutta Corporation to supply within the area added in 1889 municipal services of a reasonably high standard within a reasonable time. Witness after witness has reiterated this and has raised strong objection to the Calcutta Corporation realising heavier taxes than are realised in the majority of the suburban municipalities and giving in the added area services of a standard very little higher than those supplied by suburban municipalities. If this statutory obligation be accepted this objection will largely disappear and increased taxation will be willingly paid because the taxpayers will be assured of improvements being taken in hand immediately. Secondly, after amalgamation the Maniktola area will be represented by a small number of Commissioners on the Calcutta Municipal body. It is feared that the influence exercised by those members may be inadequate to prevail upon the other Commissioners of the Calcutta Corporation to devote large sums for the improvement of the most recently added area while improvements are still required in areas added over 30 years ago.

VIII. **Cossipore-Chitpur.**—In Cossipore-Chitpur the weight of local opinion is opposed to amalgamation. The Magistrate of the 24-Parganas also does not favour amalgamation. The municipality is efficiently managed and its financial position is one of considerable strength. An underground drainage scheme for the more densely populated portion is under preparation and it does not seem improbable that the municipality with its rapidly growing income will be able to carry out this scheme within the next few years. In view of the present financial position of the Calcutta Corporation and the burden which will be thrown on that body by the amalgamation of Maniktola, we doubt whether the Calcutta Corporation would find it possible to carry out any expensive scheme of improvement in the Cossipore-Chitpur area within the next few years. We accordingly do not recommend the amalgamation of Cossipore-Chitpur at the present time.

Our proposals are therefore as follows :—

1. We do not recommend the amalgamation of the new Dock Extension area and the Cossipore-Chitpur Municipality with Calcutta.

2. We recommend the amalgamation of the Ballyganj pumping station, the high level outfall sewer, and the Maniktola Municipality with Calcutta.

The former subject to the payment of the sum of Rs. 2,532 to the Tollygunge Municipality by the Calcutta Corporation and the latter subject to the statutory obligation, which we have proposed, being placed upon the Calcutta Corporation.

S. R. DAS. *
S. C BANERJEE,
J. A. WOODHEAD,

CALCUTTA, *the 4th January 1923.*

I agree in the conclusion embodied in the re-commendations contained in our report, but as the reasons which have led me to those conclusions are somewhat different from the reasons given in the report and as the matter is in my humble opinion of some importance I have taken the liberty to record my reasons briefly in a separate note.

In my opinion the proposals for the further extension of Calcutta by the inclusion therein wholesale or in part of the neighbouring suburban municipalities is open to the fundamental objection, that it is calculated to defeat one of the primary objects of all institutions of local self-government, firstly, by creating a single centralized authority for the administration of a local area which would be too large for purposes of local self-government and, secondly, by virtually depriving the people of the suburban area concerned of the right which they at present enjoy of administering thier own local affairs.

The principle underlying the creation of institutions for local self-government is that matters which directly relate to the health, safety and convenience of persons residing within a defined area should be administered by the chosen representatives of persons belonging to the locality concerned. The object of these institutions is that all such persons should take a personal interest and have a voice in the administration of matters which directly and in the first instance concern their well-being These institutions have always been regarded as training grounds for the acquisition of those qualities which go to make a nation fit for self-government in its higher stages. They are the steps which lead to those higher and more enlarged forms of self-government which, leaving aside matters of purely local interest, are more properly concerned with things which affect the nation as a whole or larger section of the nation. In a country like India which is, and must for some time to come be, on the way to that complete self-government for the attainment of which she is striving, the importance of these institutions of local self-government lies not so much in the immediate good which they may do to the local areas under their charge but in their educative effect on the people in teaching them the lessons of self-government. They are the stepping stones to the realisation of a higher civic life but to fulfil that purpose they must retain their local character so that the people may through their chosen representatives take an effective part in the details of the administration of their local affairs. To lose sight of the fundamental distinction between institutions of local self-government and institutions representing higher and more centralized stages of self-government would be prejudicial to the cause of the steady progress of the nation towards the highest forms of self-government in much the same way as the intellectual progress of a nation would be jeopardised if in the matters of its educational institutions the distinction between primary schools and institutions for the imparting of higher education were lost sight of.

It is therefore essential that the unit of area to be taken for an institution of local self-government in this country should not be so large that the residents of one part of it cannot be reasonably expected to take a personal interest in the welfare of another part. The consequence of having too large an area for a municipality may easily be imagined. In such a municipality Commissioners taking personal interest in different parts would not be all of the same ability so that the parts represented by the abler Commissioners would be better attended to than other parts, and among these other parts again those which are represented by Commissioners who attach themselves to the ablest among them would have better chances of getting some crumbs than the others. So that, in the

*Please see my notes.

absence of a very strong and just controlling authority at the top, there would be grave inequalities in the attention which different parts of the municipality will receive. The improvements effected by the Calcutta Corporation in what is generally referred to as the "added area" may not unfittingly be referred to in this connection. Nothing is more calculated than a state of things of that kind to undermine the faith of people in self-government and nothing can be more prejudicial to the cause of self-government in a country where the people are taking the first steps in it.

It is undoubtedly necessary that with regard to matters which affect the mutual welfare of several neighbouring municipalities there should be co-operation and that there should be an authority to regulate and, if need be, to enforce such co-operation. This can easily be provided for without bringing about the total extinction of the small municipalities for the benefit of their more powerful neighbour.

Judged by the considerations which I have stated above it must, I think, be admitted that the area covered by the Calcutta municipality as it exists at present is already too large for a single municipality. A resident of Baghbazar cannot reasonably be expected to take that amount of personal interest in the welfare of places like Dhakuria or Chetla or Kidderpore which is necessary to constitute the bond to hold together an institution of local self-government It may be said that some special considerations apply to the case of a city which aspires to the position of the second or third city in the Empire and naturally the instance of London with its vast area is referred to. We find, however, that what is called the administrative County of London is really a federation of twenty-nine municipal corporations, namely, the city of London and twenty-eight metropolitan boroughs which manage their own local affairs with the London County Council as the central authority to deal with all matters which require uniformity of action throughout the whole of London. That is the scheme on which the municipal administration of a large metropolis is carried on in a self-governing county where what I have referred to as the educative effect of these municipal institutions is certainly not a matter of such vital importance as here. Having regard to the circumstances of this country and to the fact that the area included within Calcutta is already too large to be administered by a single authority it would be undesirable except for very special reasons to make any further increase in its area without introducing into its administration some measure of decentralization on similar lines.

Then again, with the scheme of administration set out in the Bill the effect of the proposed extension of the limits of Calcutta will be virtually to deprive the inhabitants of the several areas proposed to be included of the privilege which they now enjoy of administering their own local affairs. It is not difficult to imagine that in the administration of the amalgamated area questions of vital importance to the areas proposed to be added to Calcutta may arise upon which they and the whole of present Calcutta would be ranged on opposite sides. I may refer to one instance which arises on the written note of the Chairman of the Corporation of Calcutta and upon the note submitted to the Trust by Mr. Bompas and referred to in the note of Mr. S. N. Mallik and also on the evidence given by Mr. I. J. Cohen, namely, the removal of all trades and factories from present Calcutta into these areas. On questions like those the people of the areas concerned will have absolutely no chance. Furthermore, the scheme of the Bill is that different branches of the administration would be placed in the hands of standing committees and as it is not likely that the representatives from these areas would have a place on each of those committees the result would be that in the branches of the administration entrusted to committees on which they are not represented they will have no effective voice. Now, the taking away or a material impairing of an existing right is in itself an evil and it is all the more an evil in a case like the present when the right which is in danger of being affected is one which, in the interests of the country, should be fostered. If the people whose rights are sought to be so affected or a majority of them object to the extension it cannot be justified unless a clear case is made out that it is necessary either to avert a greater evil which threatens them or to secure for them a benefit which would compensate them for the loss or the impairment of their right.

These considerations, on which I venture to attach great importance, have led me to the conclusion that, that in the absence of very special circumstances, it would be undesirable to allow any further extension of the

limits of Calcutta unless the Municipal Government of Calcutta is remodelled by the introduction into it of an adequate measure of decentralization on lines similar to what were suggested by Mr. Greer in the year 1905 in the Bengal Council in a speech which is referred to in the sixth paragraph of the report of the Special Committee of the Corporation on the provisions of the Bill relating to the constitution and government of the Calcutta Municipality, dated the 1st October 1918. Such more or less fanciful considerations as the securing of natural, as distinguished from artificial, boundaries and the desire to include whatever may be a geographical elongation of Calcutta or even such considerations as the desirability of including within Calcutta all neighbouring places which are connected with the city by interests of trade or business should not be taken as adequate reasons to justify any extension of Calcutta. I would venture to go further and hold that even more considerations of efficiency of administration or of administrative convenience should not be allowed to prevail in deciding the question in issue. If the administration of any municipality is found to be inefficient the proper action to take would be, not to put an end to its individual existence by merging it into another municipality which may be supposed to be more efficiently administered, but to take such steps as would make it more efficient.

I am therefore in entire agreement with my colleagues that no case has been made out for the acceptance of the proposal for amalgamation so far as it relates to Cossipore-Chitpur or to the Dock area, and it is only because I am satisfied on the evidence before us that Maniktola is in urgent need of improvement which it will not be in a position to carry out within any reasonable limit of time and that bulk of local opinion there is in favour of its amalgamation with Calcutta provided that it is guaranteed that it lead to the requisite improvements being made within a reasonable time, that I have agreed to the conditional recommendation contained in our report regarding the inclusion of the Maniktola Municipality within the limits of Calcutta.

REVISION OF PAY OF MINISTERIAL OFFICERS IN THE EDUCATIONAL SERVICES BELOW THE BENGAL EDUCATIONAL SERVICE.

GOVERNMENT OF BENGAL.

EDUCATION DEPARTMENT.

Education Branch.

CALCUTTA, THE 13TH JANUARY 1923.

RESOLUTION—No. 119 Edn.

Minister in charge : The Hon'ble Mr. P. C. Mitter, C.I.E.

READ—

The report of the Committee appointed to consider the question of the reorganization of the Educational Services below the Bengal Educational Service.

The Committee recommended the introduction of time-scale pay in place of the present graded system, and, for the purpose of working out proposals, with this end in view they divided the officers concerned into four categories according to the nature of their work:—

I.—Teaching.

II.—Inspecting.

III.—Ministerial.

IV.—Miscellaneous.

The cases of the officers in the first two categories have been dealt with in Resolution No. 464 Edn., dated the 3rd March 1922. The present resolution deals with the revision of the pay of ministerial officers comprising category III. A separate resolution will issue covering the officers included in category IV.

2. The Government of Bengal (Ministry of Education) have not been able to adopt in their entirety the principles laid down in the Committee's report and have after full consideration of the recommendations made by the Committee, decided to apply to ministerial establishments serving in offices subordinate to the Director of Public Instruction, Bengal, the standard scales sanctioned on the recommendations of the McAlpin Committee in respect of the pay of ministerial officers serving under the local Government.

3. The new rates of pay shown in the statements appended to this resolution will take effect from 1st September 1921, and the *ad interim* allowances will cease from that date. The allowances granted to clerks in certain offices who perform the duties of shorthand typists will continue until further orders.

4. The following general principles are to be observed in bringing officers on to the new scales:—

(*a*) An officer will draw the pay at a stage of the new scale applicable to him next above the stage that is nearest to one and one-third times his present pay, or if two stages are equidistant next above the higher stage, subject to the condition that no officer shall draw less than the minimum or more than the maximum of the scale in which he is placed. Nor shall he draw less than his present pay *plus ad interim* allowance. If his present pay *plus ad interim* allowance exceeds the maximum of the scale in which he is placed he will draw that maximum and a personal allowance equal to the difference.

Present pay for this purpose is defined as the rate of substantive pay drawn for 31st August 1921, or in the case of officers on long leave or on deputation on the 1st September 1921 the substantive pay of their posts on 31st August 1921. The sum of the pay and allowances of an officer actually drawn under the old rates for the period from 1st September 1921 to the end of January 1923 will be adjusted against the amount admissible under the revised scales but when the former exceeds the latter no recoveries of amounts drawn correctly under the rates previously in force will be made. Example:—

An officer going into the scale of Rs. 40—40—45—2—65—2—85—

if his present pay is Rs. 25 (*ad interim* allowance Rs. 7½) will draw Rs. 55;

if his present pay is Rs. 30 (*ad interim* allowance Rs. 9) will draw Rs. 45;

if his present pay is Rs. 40 (*ad interim* allowance Rs. 12) will draw Rs 55;

if his present pay is Rs. 100 (*ad interim* allowance Rs. 20) will draw Rs. 85, *plus* a personal allowance of Rs. 35.

(*b*) The pay of an officer appointed on or after 1st September 1921 will be regulated according to the principles indicated below—

(*i*) if his present pay *plus ad interim* allowance is less than the minimum of the scale in which he is placed he will draw that minimum;

(*ii*) if his present pay *plus ad interim* allowance exceeds the minimum of the new scale he will start in that scale at a point equal to that sum, or, if there be no such point at the next higher point in the scale.

(*c*) Individual cases not covered by the above rules should be referred specifically for the orders of Government.

5. Increments in the revised scales will be earned by the service in those scales in accordance with the sanctioned terms.

6. Holders of temporary posts have not been included in the scheme of revision sanctioned in this resolution. They will continue on their present terms.

7. The following allowances are sanctioned with effect from 1st September 1921:—

(*a*) A town allowance of 10 per cent. of pay to ministerial officers (other than typists and stenographers) serving in Calcutta, Alipore Sadar and Howrah Sadar in the offices of a Divisional Inspector of Schools (including the office of the Inspector of European Schools, Bengal), Inspectress of Schools, Presidency and Burdwan Divisions, Assistant Inspectress of Schools, Assistant Inspector of Schools for Muhammadan Education, District Inspector and Subdivisional Inspector of Schools, and in the offices attached to high and training schools.

(*b*) A hill allowance to all ministerial officers serving at the following stations:—

(1) Darjeeling, Kalimpong, and Kurseong—25 per cent.

(2) Siliguri—20 per cent. in the case of officers on Rs. 50 and less and 10 per cent. subject to a minimum of Rs. 10 in the case of those drawing more.

(3) Chittagong Hill Tracts—30 per cent. subject to a maximum of Rs. 20 per mensem.

(4) Alipur Duars—40 per cent.

8. 'In terms of Resolution No. 464 Edn., dated the 3rd March 1922, the 14 Assistant Inspectors of Schools (excluding the Special Assistant Inspectors of Schools for Muhammadan Education) have been placed in charge of districts with the designation of District Inspectors. The 14 clerks previously attached to the establishments of those Assistant Inspectors are now placed under District Inspectors and will be distributed according to the requirements of the various districts and subdivisions. The Director of Public Instruction, Bengal, is empowered to make such distributions.

9. Arrangements are being made with the Accountant-General, Bengal, to enable officers to draw their pay under the new scales as soon as possible.

ORDER—Ordered that the resolution be communicated—(1) to the Finance Department of this Government for information and communication to the Accountant-General, Bengal; (2) to the Director of Public Instruction, Bengal, for information and necessary action.

Ordered also that the resolution and the appendix be published in the *Calcutta Gazette* for general information.

By order of the Government of Bengal,

(Ministry of Education),

J. N. ROY,

Secretary to the Government of Bengal.

REVISION OF PAY OF OFFICERS IN THE MISCELLANEOUS BRANCH OF THE EDUCATIONAL SERVICES BELOW THE BENGAL EDUCATIONAL SERVICE.

GOVERNMENT OF BENGAL.

EDUCATION DEPARTMENT.

Education Branch.

CALCUTTA, THE 13TH JANUARY 1923.

RESOLUTION—No. 122 Edn.

Minister in charge : The Hon'ble Mr. P. C. Mitter, C.I.E.

READ—

The report of the Committee appointed to consider the question of the reorganization of the Educational Services below the Bengal Educational Service.

The Committee recommended the introduction of time-scale pay in place of the present graded system, and, for the purpose of working out proposals, with this end in view they divided the officers concerned into four categories according to the nature of their work:—

I.—Teaching.

II.—Inspecting.

III.—Ministerial.

IV.—Miscellaneous.

The cases of the officers in the first three categories have been dealt with in Resolutions No. 464 Edn., dated 3rd March 1922, and No. 119 Edn., dated the 13th January 1923. The present resolution deals with the revision of the pay of officers included in the fourth and last category namely, the miscellaneous group. In consideration of the fact that the work of certain officers included by the Committee in categroy IV—Miscellaneous is approximately similar to the work of ministerial officers, the Government of Bengal (Ministry of Education) found it desirable to transfer them to category III—Ministerial.

2. Having regard to the work generally performed by the officers covered by this resolution, the Government of Bengal (Ministry of Education) do not consider it necessary to fix the new scales of pay for these officers on the same general principles as have been followed in fixing the pay of the officers included in the first three categories. They are of opinion that the pay of these officers should be regulated according to the market value and the new scales have been drawn up on this basis.

3. The revised rates of pay shown in the statements appended to this resolution will take effect from 1st September 1921.

4. The following general principles should be observed in bringing officers on to the new scales:—

(*a*) Subject to the proviso that no officer will get less than the minimum or more than the maximum of the new scale in which he is placed, an officer is allowed to start in the new scale at a stage next above his present pay.

Present pay for this purpose is defined as the rates of substantive pay drawn from 31st August 1921 or in the case of officers on long leave or deputation on 1st September 1921 the substantive pay of their posts on 31st August 1921. The sum of the pay and allowances of an officer actually drawn under the old rates

for the period from the 1st September 1921 to the end of January 1923 will be adjusted against the amount admissible under the revised rates but when the former exceeds the latter no recoveries of amount drawn correctly under the rates previously in force will be made.

(*b*) Individual cases not covered by the above rules should be referred specially for the orders of Government.

5. Increments in the revised scales will be earned by the service in those scales in accordance with the sanctioned terms.

6. Holders of temporary posts have been excluded from the scheme of revision sanctioned in this resolution. They will continue to serve on their present terms.

7. Arrangements are being made with the Accountant-General, Bengal, to enable officers to draw their pay under the new scales as soon as possible.

ORDER.—Ordered that the resolution be communicated—(1) to the Finance Department of this Government for information and communication to the Accountant-General, Bengal; (2) to the Director of Public Instruction, Bengal, for information and necessary action.

Ordered also that the resolution and the appendix be published in the *Calcutta Gazette* for general information.

By order of the Government of Bengal,

(Ministry of Education),

J. N. ROY,

Secretary to the Government of Bengal.

Report of the Committee appointed to advise on the extension of the boundaries of Calcutta, with Dr. Banerjee's opinion in regard thereto.

2. For their consideration of the Bill the Select Committee have held 49 meetings. The late Rai Radha Charan Pal, Bahadur, one of the members of the Committee, attended 41 of these meetings, the last meeting which he attended being on the 8th December, the day before his death. We wish to record our sincere regret at his untimely death, and we note our high appreciation of the invaluable assistance which his long experience and thorough grasp of municipal administration enabled him to give in the course of our consideration of the Bill.

3. On the recommendation of the Select Committee a Committee was appointed by the Local Government to advise in regard to the proposed inclusion of the following areas in Calcutta for the purposes of the proposed Act, namely:—

(*a*) the new Dock Extension area vested in the Commissioners of the Port of Calcutta for the construction of King George's Dock, and lying—

(*i*) partly within the jurisdiction of the Garden Reach municipality,

(*ii*) partly within the jurisdiction of the District Board of the 24-Parganas, and

(*iii*) partly within the jurisdiction of the South Suburban municipality;

(*b*) the Ballygunge Pumping Station and the High Level Outfall Sewer in the Tollygunge municipality;

(*c*) the Maniktala municipality; and

(*d*) the Cossipore-Chitpore municipality.

The recommendations of the Committee so appointed were as follows:—

(1) they did not recommend the amalgamation of the new Dock Extension area and the Cossipore-Chitpore municipality with Calcutta;

(2) they recommended the amalgamation of the Ballygunge Pumping Station, the High Level Outfall Sewer and the Maniktala municipality with Calcutta; the former subject to the payment of the sum of Rs. 2,632 to the Tollygunge municipality by the Calcutta Corporation, being a refund for sewer connections paid by that municipality, and the latter subject to a certain statutory obligation being placed upon the Calcutta Corporation.

The proposals made by the Corporation of Calcutta in regard to these recommendations were considered by the Select Committee. The Corporation proposed that the first recommendation be not accepted, and that the new Dock Extension area and the Cossipore Chitpore municipality be included in Calcutta subject to certain conditions. The Corporation were in favour of the second recommendation, with a modified statutory obligation as regards Maniktala.

The Select Committee by a majority agreed to include in Calcutta for the purposes of the proposed Act the Maniktala municipality, the new Dock Extension area and that portion of the Tollygunge municipality which comprises the Ballygunge Pumping Station and the High Level Outfall Sewer, but the majority of the Select Committee decided that the Cossipore-Chitpore municipality should not be so included.

The majority of the Select Committee further decided that the condition for including Maniktala should be that a statutory liability should be imposed on the Corporation of Calcutta to spend not less than one lakh of rupees annually over and above the income derived from Maniktala on original works of improvement for a period of ten years commencing after the expiration of three years from the date on which the amalgamation takes effect.

It was also agreed by the majority of the Select Committee that for the purposes of the inclusion of the new Dock Extension area a statutory liability should be imposed on the Corporation to pay for ten years to the Garden Reach and the South Suburban Municipalities Rs. 25,500 and Rs. 8,000, respectively, being equivalent to half the net loss of those municipalities by reason of their inclusion within Calcutta.

The majority of the Select Committee also agreed that the Corporation should pay to the Tollygunge Municipality Rs. 2,632 as compensation for expenditure incurred by them on local drainage within the area of the Ballygunge Pumping Station and the High Level Outfall Sewer.

In connection with the expansion of Calcutta recommended by the Select Committee, it should be noted that in paragraph XIII of the Statement of Objects and Reasons of the Bill as introduced in Council it is stated that the inclusion within Calcutta of another small plot of land now lying within the Tollygunge Municipality, is subject to the condition that the Corporation should pay to that municipality compensation equivalent to the amount of revenue for ten years now derived from this area. This matter of compensation is not provided for in the Bill, and it was apparently intended that there should be some amicable arrangement in regard to it between the Corporation and the Tollygunge Municipality.

The Select Committee consider that the obligation to pay this compensation should not be imposed on the Corporation. The area in question is a most insanitary area and is to be included in Calcutta for the purpose of reclamation, and they do not therefore consider that the Tollygunge municipality should be entitled to any compensation for being relieved of an insantary unimproved area which could only have been a burden to their finances.

The Select Committee also agreed that power should be taken under the new Act to extend the new boundaries of Calcutta still further at some subsequent date by notification, after giving the local authorities concerned full opportunity of representing their views. They were also of opinion that the notification should not be issued until it is approved by the Bengal Legislative Council.

4. The changes made by the Select Committee in the different portions of the Bill are as follows :—

Clause 1 and Clause 3 (a 1).—In the proviso to sub-clause (*3*) a necessary reference has been made to the "area added to Calcutta", and this area has been defined in sub-clause (*a 1*) of clause 3.

Clause 2.—The new sub-clause (*1a*) provides for the repeal of the Bengal Municipal Act, 1884 and the Bengal Food Adulteration Act, 1919 in the area added to Calcutta. Sub-clause (*2a*) deals with the rules, by-laws, etc., which are to apply to the area added to Calcutta.

Clause 3 (*1*) has been entirely recast and made more comprehensive.

Clause 3 (*2*).—The references to clauses 42 to 58 have been omitted from clause 3 (*2*) in consequence of the deletion of those clauses from the Bill.

Clause 3 (*3*).—The words "and includes any books subsidiary thereto" have been added at the end of clause 3 (*3*) to make the clause more comprehensive.

Clause 3 (*4*).—A proposal to specify the number of shops or warehouses which should form a bazar—one member suggested twelve and another twenty-five—was negatived by the Committee, who agreed that the matter should be left to the discretion of the Corporation. The clause was amended accordingly.

Clause 3 (*6*).—In clause 3 (*6*) we have substituted the word "ten" for the word "eight" as being desirable.

A proposal to exclude any wall or structure erected for the purpose of preventing the acquisition of an easement over one's land or building from the purview of this sub-clause, was rejected by the Committee.

Clause 3 (8).—We have altered the definition of a "building of the warehouse class" so as to make it apply to the use of a substantial part of a building as a warehouse, etc. In case of any difficulty in deciding what a substantial part of a building is to be in this respect, it is to be decided by the Corporation under our proposed general provision new clause 328A. We have also amplified clause 3 (*8*) to make it applicable to huts used as warehouses.

Clause 3 (9).—The definition of ***bustee*** has been amplified and follows consequential alterations made in clauses 332 and 332A.

Clause 3 (10).—A necessary addition has been made in view of the provisions of clause 533A, which empowers the Local Government to include further areas in Calcutta subject to certain safeguards.

Clause 3 (11).—The modifications made in this sub-clause are purely consequential.

Clause 3 (12).—We have inserted the word "ordinarily" after the words "which is" so as to exclude a motor-lorry, as a motor-lorry should not be held to be a carriage on the ground that it is occasionally used for the conveyance of human beings. We have also excluded a "perambulator" from the definition.

Clause 3 (13).—We have included a wheel-barrow in the definition of a cart.

Clause 3 (14).—This sub-clause was dependent on clause 47, which has been omitted. It has, accordingly, also been omitted.

Clause 3 (19).—We have exempted from the definition of a "dairy" a shop or place from which milk is sold or supplied in hermetically closed and unopened articles in the original condition in which it is received.

Clause 3 (21).—The definition of "dangerous disease" has been modified by specifying small-pox and diphtheria and by omitting the specific mention in it of tuberculosis, influenza and enteric fever, while retaining the existing provision for the reservation of power by the Local Government to notify from time to time any disease as dangerous.

Clause 3 (22).—We have inserted the words "but not for domestic consumption" as making the intention more clear.

Clause 3 (45).—We have substituted the word "includes" for the word "means", and the word "also" for the word "includes" as making the definition more comprehensive.

Clause 3 (46).—We have included kitchen or stable refuse in the definition of "offensive matter", as being necessary.

Clause 3 (47).—We have omitted the words "rent-paying" before the word "tenant" in the last line of this sub-clause as being unnecessary.

Clause (47a).—We have inserted a necessary definition of the word "package".

Clause 3 (50).—The main changes made by the Committee are—

(*1*) the exclusion of a pathway from the definition,

(*2*) the inclusion of a square, and

(*3*) the exclusion of passages made in certain circumstances.

Clause 5.—The Select Committee decided that the total number of Councillors and Aldermen as provided for in this clause is sufficiently large, and that it is not desirable to add to this number by reason of the inclusion in Calcutta of Maniktala.

Clause 6.—Provision has been made for vesting in the Corporation the immovable property in the area added to Calcutta and also the movable property and rates, etc., of the Maniktala Municipality.

Clause 6A contains a necessary provision for the transfer of the liabilities of the Maniktala Municipality to the Corporation.

Clause 7.—The Committee, by a majority, held that the institutional representation as provided in the Bill should be retained.

The number of Councillors to be elected by various institutions was also approved.

On the question of communal representation, the Committee considered that there should not be communal electorates, but two Muhammadan members dissented from this view.

A motion to reduce the number of seats reserved for Muhammadans to nine was defeated by a large majority, and a motion to increase the number was similarly defeated.

The Committee finally accepted clause 7 and Schedule III as they stood in the Bill as introduced.

Clause 8.—This clause has been amplified so as to make the intention more clear.

The Committee rejected a proposal to lay down positive qualifications for Aldermen.

Clause 8A.—This clause was originally clause 70. It has been transferred here as being more appropriate.

Clause 9.—This clause has been reproduced in clause 467A with certain additions and alterations, which are referred to in that clause.

Clause 10.—This clause has been altered by the substitution of the "Corporation" for the "Mayor" throughout as the Committee considered that the report should be the report of the Corporation. It was also decided that the reports of the various departments should be appended to the report as provided in the present law.

Clause 11.—In sub-clause (*1*), the words "general or special order in writing" have been replaced by the words "a resolution passed at a special meeting" as being more appropriate.

In sub-clause (*3*), it has been laid down that in delegating his powers to any municipal officer, the Executive Officer must do so under a general or special order in writing.

Two members of the Committee objected to the Executive Officer being given final powers as in the proviso to clause 11 (*4*) in any matters at all, but the majority of the Committee were strongly in favour of retaining the wording of the proviso as it stands in regard to this matter.

The Committee also rejected a proposal to change the name of the Executive Officer to Chief Executive Officer.

Clause 17A.—This clause has been inserted as the Committee were of opinion that powers should be given to the Local Government to interfere in cases where the Corporation were acting contrary to law.

Clause 18.—This clause has been recast entirely. The main changes that have been made are as follows:—

Sub-clause (*1*) (*a*).—The franchise dealt with in this sub-clause has been reduced from Rs. 24 to Rs. 12.

Sub-clause (*1*) (*b*).—Persons paying Rs. 25 or more rent will be included in the electoral roll. The drafting follows section 11 of Bombay Act III of 1888 as regards half-yearly assessment.

In *clause* 18 (*1*) (*c*), a separate qualification is prescribed for the owner of a hut in a *bustee*.

Sub-clause (*2*).—A direct vote has been given to any company, body corporate, etc.

The majority of the Committee adopted the suggestion that a representative of a joint-family should have only one vote as such representative in each constituency, with an additional vote in his individual capacity.

Clause 18A.—This new clause provides for elections in the area added to Calcutta, before the second general election.

Clause 19.—The Committee, by a majority agreed that the restriction contained in sub-clause (*1*) (*a*) of this clause disqualifying females from election as a Councillor or an Alderman be done away with. The sub-clause has, accordingly, been omitted.

The Committee also decided to omit sub-clause (*1*) (*b*) of this clause on the ground that it was invidious to single out lawyers in the way suggested in the sub-clause.

The Committee were of opinion that sub-clause (*1*)(*h*) of clause 19 should apply to the President of the Tribunal of the Board of Trustees for the Improvement of Calcutta and to an Assessor to that Tribunal.

The reference in sub-clause (*3*) to the inquiry by Commissioners, and the other references in this clause in regard to the Commissioners have been omitted as being consequential to the omission of clauses 43 to 49.

The words, brackets and figure "sub-section (*2*)" have been added to the proviso, as the Government might desire to remove the disqualification imposed in sub-clause (*2*) in cases where moral turpitude is not an element of the offence.

Clause 20 (2) has been omitted, as being unnecessary owing to the verbal alterations made in sub-clause (*1*) of this clause.

Clause 21.—Sub-clause (*1*) (*a*) of clause 21 has been omitted as it was decided by a large majority to give the franchise to women. One member, though not opposed to female franchise, thought it would be best to have a separate electorate for women.

A new sub-clause (*1a*) has been added under which a company, body corporate, firm, joint family or other association of individuals will be represented on the electoral roll by one of its members and not in the name of the company, body corporate, firm or joint family.

In connection with clause 21 (*1*), the question of imposing a colonial disability was considered by the Committee. It was finally decided that no action could be taken in this matter without a reference to the Government of India, and the Local Government has been asked to make the necessary reference.

Clause 22.—Provision has been made in clause 22 (*2*) for keeping the electoral rolls up-to-date by the substitution of the words "preparation, revision and regular maintenance" for the words "preparation and revision".

Clause 24.—The majority of the Committee agreed to the existing provision in the Bill recognising the principle of the appointment of an election agent.

Clause 26.—The majority of the Committee were opposed to a proposal that votes be given openly and not by ballot. They also by a large majority rejected a proposal to amend sub-clause (*2*) of this clause so as to allow *purdanashin* ladies to give votes by proxy.

The majority were also opposed to the adoption of the system of the single transferable vote in elections to the Corporation as being entirely unsuitable to the present conditions of education.

The majority of the Committee, three members only dissenting, rejected a proposal that the system of plural voting be allowed, subject to certain conditions.

A slight alteration was made in clause 26 (*7*) to allow of the lot, in the case of an equality of votes, being drawn not only in the presence of the returning officer but also in the presence of the candidates.

Clause 28.—Sub-clause (*3*) has been altered so as to give power to the Executive Officer, in the case of any person who is elected for more than one constituency failing to choose for which constituency he will serve, to declare the constituency for which such person will serve.

Clause 30.—An alteration has been made in sub-clause (*2*) of this clause regarding the time within which a new election agent may be appointed in the event of the revocation of the appointment of the previous election agent on his death. The change brings the sub-clause more into conformity with the provisions of clause 31, and makes the intention more clear.

Clause 31.—An alteration has been made in clause 31 (*2*) to make it clear that only those payments will be taken into account which are incurred by persons authorised to act on the candidate's behalf.

Clause 34A.—We have inserted this clause so as to provide for the taking of the oath of allegiance by the Councillors and Aldermen before taking their seats, on the lines of the Madras Bill, IV of 1921. It has also been provided that if any Councillor or Alderman fails to take the oath within three months his seat shall be declared vacant.

Similar provisions have been inserted to cover the cases of Councillors holding office at the commencement of the Act.

An explanation has been added at the end of the clause to safeguard persons endeavouring to change the constitution by constitutional means.

Clause 36.—We have made certain changes in this clause in regard to the procedure to be adopted in the case of a Councillor or Alderman wishing to resign his seat on the Corporation. The Councillor or Alderman will notify his resignation to the Mayor, who will place the resignation before the Corporation, and the seat of the member so resigning will become vacant on the acceptance of the resignation by the Corporation.

Clause 37.—We have inserted a new sub-clause (*aa*) giving power to the Local Government to declare the seat of a Councillor or Alderman vacant if he violates his oath of allegiance.

A small change has been made in sub-clause (*b*) to make the intention more clear.

Sub-clause (*c*) has been recast by us so as to exclude any person who is retained in a professional capacity by the Corporation from being elected or nominated as a Commissioner or Alderman.

Clause 39.—The modifications made in this clause are consequential.

Clause 41.—We have entirely recast this clause. It now provides —

(*1*) that a general election shall take place triennially on a date to be fixed by the Local Government, ordinarily in the month of March;

(*2*) that the elections shall be so fixed as to take place simultaneously in all the constituencies; and

(*3*) that the Local Government, if they think fit, may call on the electorates to select Councillors at any time within three months prior to the date on which the term of office of the old Councillors and Aldermen would ordinarily expire.

The Committee rejected a proposal to provide that if a candidate stands for more than one constituency, he should make a deposit

Clauses 42 to 59.—The Committee were legally advised that it was doubtful whether clauses 42 to 59 are *intra vires* on the ground that they would affect the jurisdiction of the High Court. The majority of the Committee were of opinion that the jurisdiction of the High Court should not be interferred with, and the Committee have, therefore, deleted clauses 42 to 59.

The new clause, which has been inserted as clause 42, provides for the hearing of disputes as to the validity of an election by a Judge of the High Court, as in existing law—section 56 of the Calcutta Municipal Act, 1899.

Clause 60.—Certain consequential alterations have been made in clause 60, as a result of the omission of clauses 43 to 59.

Clause 61.—The Chief Accountant and the Secretary have been added to the list of officers in this clause whose appointments are to be made by the Corporation.

The majority of the Committee rejected a proposal to omit the proviso to sub-clause (*1*) requiring these appointments to be subject to the approval of the Local Government.

Clause 62.—We have suggested a small but necessary change in this clause to allow of the Executive Officer making a statement or explanation at a meeting of the Corporation, with the consent of the Mayor or person presiding, instead of with the consent of a majority of the members present.

Clause 63.—We have inserted a new sub-clause (*1a*) requiring any person who is an applicant for a post in the Corporation to notify before his appointment his relationship or connection by marriage with the Mayor or any Alderman or Councillor or any statutory officer of the Corporation.

Clause 65.—The Committee rejected a proposal that this clause be deleted. They also rejected a proposal to make the payment of the officer's pension and leave-allowances by the Corporation optional. They, however, agreed to amend the clause so as to provide that the payment of the contribution for these charges should be made out of the officer's salary.

Clause 66.—The word "bonuses" has been inserted in clause 66 (*b*) as a consequential amendment following a change made in clause 67 (*1*) (*a*). We have made a slight amendment to clause 66 (*d*) to provide for rules being made in regard to the grant of supplementary contributions out of the Municipal Fund.

We have also added a sub-clause (*e*) so as to deal, by rules, with the establishment and maintenance of co-operative societies for the menials of the Corporation.

In the first proviso to clause 66, we have substituted the Local Government as the sanctioning authority instead of Government of India.

We have inserted a second proviso extending the benefits of the provident fund and gratuities to the officers and employees who were formerly in the Plague Department of the Local Government and who are at present in the employ of the Corporation, in respect of the period of their services in that Department.

Clause 67.—We have inserted the words "allowances, bonuses" in clause 67 (*1*) (*a*) as further items of expenditure which the Corporation may provide for their officers and servants.

Sub-clause (*2*) has been redrafted to make the intention more clear.

Clause 68.—We have made it clear in this clause that the Deputy Mayor can only call a meeting in the absence of the Mayor.

We have increased the number of Aldermen and Councillors who are to make the requisition from seven to ten.

Clause 70.—This clause has been transferred and reproduced in clause 8A in the chapter relating to the constitution of the Corporation, as being more appropriate.

Clause 73.— The change made in sub-clause (*1*) is merely consequential.

Clause 74.—We have increased the number requisite to form a quorum from 18 to 20, and for an adjourned meeting from 10 to 15, as being desirable.

Clause 75.—We have substituted the words "conclusive evidence" for the words "sufficient evidence" as being legally more correct.

Clause 79.—We have made certain necessary verbal alterations in sub-clause (*2*) (*c*).

Clause 80.—The only change made is in regard to sub-clause (*5*). The Committee agreed to the retention of this sub-clause in its altered form. The alterations provide that a contract may be entered into for a sum not exceeding Rs. 5,000, without calling for tenders, if a resolution is passed to that effect by two-thirds of the Councillors and Aldermen voting.

Clause 81.—We have modified this clause so as to provide that the Corporation shall take a sufficient security for the carrying out of every contract into which they enter.

Clause 82.—We have altered this clause so as to provide that Standing Committees shall be appointed every year. We have also provided that no Councillor or Alderman can be a member at the same time of more than two Standing Committees and the District Standing Committee, referred to in the proposed new clause 82A.

In sub-clause (*4*), we have added a provision under which the Corporation, in addition to the power to dissolve a Standing Committee, or alter its constitution, may also withdraw from any Standing Committee any of its functions, powers or duties.

We have also provided in sub-clause (*5*) that no Councillor or Alderman shall, at the same time, be the Deputy Chairman of more than one Standing Committee. In the old Bill this restriction only applied to Chairmen.

We have taken power in sub-clause (*8*) by which the proceedings of every Standing Committee shall be subject to revision by the Corporation. In sub-clause (*9*), power has been taken under which the Corporation may make rules for regulating the conduct of business at meetings of sub-committees appointed by Standing Committees, in addition to the power they already had of making rules of conduct for Standing Committees.

Clauses 82A and 82B.—Provision has been made in clause 82 A for the appointment of District Standing Committees, and in clause 82B for the creation of sub-committees of Standing Committees and District Standing Committees.

Clause 83.—We have inserted a new sub-clause (*1a*) to provide for co-opting by the Corporation of persons outside the ranks of Councillors and Aldermen as members of Special Committees. These co-opted members will have the right to vote at meetings of the Special Committee, and for the period for which they have been co-opted will be deemed to be members of the Special Committee for all purposes.

Clause 84.—We have made a small alteration in this clause to make the intention more clear.

Clause 88.—The Committee rejected a suggestion that this clause should provide that there should be a separate account for each fund as in the case of Bombay, as the Committee considered this unnecessary on the ground that it could easily be arranged for by an executive order.

Clauses 89, 90 and 97.—Subject to provision being made for the sanction of the Local Government regarding the desirability of moneys remaining in any particular bank, the Committee have inserted provisions in clauses 89, 90 and 97 providing for the transfer of the balances, cash and investments of the several funds to the Municipal Fund, and for all moneys now lying in deposit with Banks, other than the Imperial Bank of India, to continue with those banks.

Clause 91.—The majority of the Committee rejected a proposal that in the case of large cheques, *i.e.*, over Rs. 25,000, the Mayor should sign.

The Committee have made a change in sub-clause (*1*) (*c*) providing that persons appointed by the Executive Officer to sign cheques on behalf of the Corporation in the case of illness of the officers mentioned in sub-clause (*1*) shall be approved by the Corporation.

The Committee have altered sub-clause (*2*) to permit of salaries up to three hundred rupees being paid in cash.

Clause 95.—We have inserted a provision here whereby all emergent expenditure on special measures undertaken on the outbreak of dangerous or infectious diseases under clause 440 shall be forthwith reported to the Corporation.

Clause 96A.—We have provided in this clause for the payment by the Corporation of certain sums as compensation to the Tollygunge, Garden Reach and South Suburban municipalities, in the case of the two last mentioned municipalities the payments contemplated being annual payments for ten years from the commencement of the Act.

Clause 96B.—The intention of this clause is that special payments be made by the Corporation, beginning from the third year after the commencement of the Act, for improvements of the area which formed the Maniktala municipality.

Clause 97.—We have modified this clause so as to provide that in the case of the opening of current accounts with banks, other than the Imperial Bank of India, no cheques may be drawn against any such current account except in favour of the Imperial Bank of India.

The Committee rejected a proposal to widen the scope of this clause so as to allow deposits in Banks in England, as in the Bombay Act of 1888.

Clause 99.—We have inserted a provision in this clause similar to section 124 (*2*) of the present Act, to prevent the Corporation from changing in the course of a year the rates fixed under this clause for that year except in certain circumstances.

The Committee rejected a proposal to provide for a minimum closing balance of 10 lakhs instead of 6 lakhs as at present provided in clauses 99 (*2*) (*c*) and 100 (*1*) proviso (*ii*).

Clause 101.—We have taken power in clause 101 (*2*) in addition to the expedients mentioned therein, to increase the rates if the income of the municipal fund during the year is found insufficient to cover expenditure.

We have also added a proviso that no increase of the rates shall be made and no additional taxation shall be imposed unless two-thirds of the members of the Corporation present at a meeting have voted in favour of it.

Two members of the Committee strongly demurred to this proposal on the ground that it would not be wise to provide that it is incumbent on the Corporation to perform a duty, but that they need not perform it unless a two-thirds majority agree that it should be done.

Clause 102.—We have made a change in clause 102 (*1*) so as to enable the Corporation to borrow money otherwise than by means of debentures.

Clause 103A.—We have inserted a new clause 103A on the lines of Burma Act VI of 1922, empowering the Corporation, instead of borrowing money from the public, to take credit from any bank on such terms as may be sanctioned by the Local Government.

Clause 104.—The Committee rejected a suggestion to substitute double the annual rateable value for ten *per cent* on that value, as they thought that it would be dangerous to modify this clause in this way, as the rate had been accepted on the advice of the Corporation's experts.

Clause 110.—The Committee accepted a suggestion that in order that payments to the sinking fund may be spread over the year, the payment of contribution to the sinking fund be determined by the date of the loan as prescribed in the existing Act and be not rigidly fixed as in the Bill, and that accordingly the words "for six months" be substituted for the words "on the first day of January and the first day of July in each year" in clause 110 (*1*).

The majority of the Committee were in favour of a proposal that it might be left to the Local Government to fix the rate of growth of the sinking fund in respect of loans up to Rs. 25 lakhs, but could not endorse the recommendation as, under the Devolution Act, 1920, the sanction of the Government of India is necessary in such cases.

Clause 112.—The Committee accepted a suggestion to insert the words "six monthly" before the word "payments" in clause 112 (*2*) (*i*) as being desirable.

Clause 117.—The Committee rejected a proposal to omit the proviso at the end of sub-clause (*1*) of this clause.

Clause 121.—The Committee made certain changes in this clause which deals with the annual examination of sinking funds. The main change is the insertion of a new clause (*1a*), relating to the calculation of the amount which should be at the credit of a sinking fund.

Clause 126.—The Committee rejected a proposal to omit the word "material" in sub-clause (*a*).

Clause 127.—We have recast this clause, which deals with defects or irregularities pointed out by the auditors. We have provided that it will be the duty of the Corporation to report to the Local Government the action taken by them on such defects or irregularities, or in the case of a difference of opinion between the Corporation and the auditors, the action which the Corporation proposes to take.

We have also given power to the Local Government to pass such orders as they think fit on these reports, and we have provided that the orders of the Local Government in this matter shall be final.

Chaper X.—The Consolidated Rate.—The Committee considered the recommendation of the Corporation that power be taken in this Chapter to assess the lines, etc., of the public utilities companies in Calcutta and to levy a tax on the annual valuation of the properties of these companies, viz., the "plant," and gave a hearing to the representatives of the Oriental Gas Company, the Calcutta Electric Supply Corporation, the Bengal Telephone Corporation and the Calcutta Tramways Company and their Counsel, in order to state their views thereon.

The matter is one of some intricacy and the Committee do not consider it desirable to delay their report. They therefore consider that, if it is decided that it is desirable to tax these companies, the matter may be dealt with by an amendment at the final stage of the Bill, or by separate legislation, if necessary.

Clause 128.—The Committee rejected the following suggestions which were made to them, namely :—

(*1*) the substitution of "the municipal rate" for "the consolidated rate";

(*2*) that the maximum of the consolidated rate be raised to 25 per cent of the annual valuation instead of 23 per cent as in the Bill;

(*3*) the reduction of the rate from 23 per cent to 21 per cent.

Clause 130.—The word "exclusively" has been inserted in the second paragraph of sub-clause (*1*) to make the intention more clear.

The Committee rejected a proposal to include the words "or for religious purposes" at the end of sub-clause (*1*) on the ground that it might lead to fraud and unfair practices.

The Committee have made an amendment in sub-clause (*2*) to make the intention more precise.

The Committee agreed to an alteration in sub-clause (*3*) whereby the owner of the land on which any hut which has been exempted is built may also be exempted from payment of the consolidated rate.

Clause 131.—The Committee have made a change in clause 131 (*a*) by the insertion of the words "at the time of the assessment" to make the intention more clear.

The Committee rejected a proposal that the annual assessment of a house ought to be on a rental basis and decided, by a majority, to retain the existing system of assessment.

They also rejected a proposal to increase the allowance of 10 per cent. allowed in clause 131 (*a*) to 12½ per cent.

They also rejected a proposal to give a discretionary power to the Corporation to allow anything other than the 10 per cent.

The word "present" has been inserted before the word "value" in clause 131 (*b*) to make the intention more clear.

The Committee have omitted the words "or structures" after "huts" in two places in proviso (*i*) to clause 131.

The Committee have made an alteration in this proviso relating to the annual value of a *bustee* by which the lands which have been left vacant in pursuance of a *bustee* road alignment scheme of the Corporation will not be taken into consideration.

The Committee rejected two proposals to increase the allowance of 10 per cent in proviso (*i*) to 15 and 12½ per cent, respectively.

In proviso (*ii*) the Committee have omitted the words "but all fixtures including lifts and electric and other fittings which add to the convenience of the building shall be valued".

In proviso (*iii*) the alteration made embodies the principle accepted by the Committee that the privilege of lower percentage as mentioned in this proviso should only be extended to houses, the annual rental value of which does not exceed Rs. 500.

Clause 132.—We have altered this clause so as to provide that for the purpose of assessing land and buildings belonging to the Improvement Trust to the consolidated rate, the fixing of the annual value of land acquired for improvement schemes as defined in clause (*f*) of section 2 of the Calcutta Improvement Act, 1911, shall be somewhat on the same footing as lands belonging to the Port Trust, and shall be deemed to be 5 per cent on the cost of acquisition, subject to revision by the Local Government.

It was also agreed that the annual value should be fixed from the date of the acquisition and not from the commencement of the acquisition.

It has also been made clear that the clause is applicable only to all future schemes to be taken up after the passing of the Act.

A small but necessary change has been made in *Explanation* (*a*) in this clause by the addition of the words "or by any other higher appellate authority".

This change will enable the Corporation to revise the assessment in view of the award that may be made by an appellate authority or an award in the case of the progress of a scheme.

An alteration has also been made in *Explanation* (*d*) in clause 132 to make the intention more clear.

Clause 135 and Clause 137.—A new sub-clause (*1*) has been substituted for sub-clauses (*1*), (*2*) and (*3*) of clause 135 and clause 137 has been deleted, with reference to the valuation of lands and buildings in the several wards, made before the commencement of the Act, under the Bengal Municipal Act, 1884 or under the Calcutta Municipal Act, 1899.

The Committee rejected a proposal to insert the words "or other structures" after the word "*bustees*" in clause 135 (*4*) (*a*), also a proposal to omit clause 135 (*4*) (*d*).

A small alteration has been made in clause 135 (*e*) to make the intention more clear.

Clause 135 (*g*), with certain modifications, has been reproduced in clause 137A.

The provisions of clause 135 (*i*) have been extended to cover cases under clause 134 as well as those under clause 132.

Clause 136.—The Committee rejected a proposal to restrict the operation of this clause by the insertion of the words "where the land has been let out for the building of huts under an arrangement by which the tenant of the land is the owner of the hut" after the word "*bustee*" in line 2.

Clause 137.—This clause has been omitted, as previously mentioned.

Clauses 137A and 137B.—We have inserted two new clauses 137A and 137B dealing with the assessment in case of lands or buildings where the ownership is sub-divided into separate shares, and in cases of amalgamation of premises.

Clause 139.—We have increased the time limit within which an owner or occupier must furnish the Executive Officer with returns of the measurements and of the rent or annual value of his land or building from "one week" to "a fortnight".

We have omitted, as being unnecessary, the last three lines of clause 139 (*1*) requiring the owner to submit such other details affecting the rent or annual value of lands and buildings as the Executive Officer may specify.

Clause 140.—A necessary reference to clause 135 has been made in sub-clause (*1*).

A suggestion was made that the words "including those of the Improvement Trust" should be inserted in this clause after the words "the land, and buildings in any ward". The Committee considered the insertion of these words to be unnecessary since the clause as drafted, in their opinions includes the lands and buildings of the Improvement Trust.

Clause 141.—The necessary reference to clause 135 has also been made in this clause.

Clause 142.—The words "this Chapter" have been inserted for "under section 135" as being consequential.

Clause 143.—A suggestion was made that the words "or his agent" should be inserted after the word "objector" in clause 143 (*2*), but the Committee considered the insertion of these words to be undesirable.

Clause 144.—The Committee rejected a suggestion that instead of the appeal provided for in this clause being made to the Small Cause Court, it should be made to a Bench consisting of the Executive Officer or the Deputy Executive Officer and not less than three Councillors to be appointed by the Corporation.

The Committee agreed that this proposal might lead to the grossest abuses, as has been the case with mufassal municipalities who have this power, and that it was desirable that the appellate authority should be an independent and impartial body

Clause 145.—We have provided in this clause for an appeal to lie to the High Court in cases of decisions of the Court of Small Causes under clause 144.

Clause 147.—We have provided in clause 147 (*1*) that when a party applies to the Executive Officer to have his name entered in the assessment-book as owner or occupier, the Executive Officer shall take action only after he has given the parties interested an opportunity of being heard.

A similar provision has been made in sub-clause (*2*) where there are gradations of owners or occupiers.

Clause 148.—We have deleted the words "both the transferor and" before the words "the transferee" in the first part of this clause, as not being required.

We have altered sub-clause (*2*) of this clause into a proviso, as being more appropriate.

Clause 149.—The Committee considered a suggestion to substitute the word "modifying" for the word "reducing" in clause 149 (*1*) (*b*). The idea underlying this amendment was that it should be open to the Executive Officer not only to reduce but also to increase the assessment wherever necessary, subject to the following safeguards, viz :—

(*1*) that this power of modification should not be delegated to any of his subordinate officers, and

(*2*) that in case of an increase there should be a right of appeal.

The Committee eventually rejected the proposal.

We have inserted a new sub-clause (*1*) (*c*) in clause 149 to provide for the increasing of the amount of the valuation of premises undervalued by misrepresentation or fraud, and also a second proviso dealing with the notice to the owner and occupier in the case of amendments of the assessment-book under sub-clause (*c*).

Clause 151.—The words "unless otherwise specially provided" have been inserted in clause 151 (*2*) to make the intention more clear.

Clause 153.—We have inserted in the second paragraph of clause 153 a necessary provision that the owner may recover from the tenant as rent the excess amount which he pays over the rent as the annual value of any land or building, notwithstanding anything contained in any other law for the time being in force, *e.g.*, the Calcutta Rent Act.

Clause 154.—The Committee rejected a proposal to alter the period of vacancy from sixty to thirty days in this clause.

They, however, agreed to the addition of a proviso to cover the cases of lands, suitable for building purposes, which are not fully utilized for such purposes. The remission of the consolidated rate in connection with such lands would, ordinarily, cease after three years, unless, in certain circumstances, the Corporation considered it expedient that the lands should remain open.

Clause 156.—The Committee rejected a proposal that the remission of the consolidated rate should take effect from the actual date of the vacancy and not from the date of the notice.

They, however, agreed to the addition of a proviso by which if the notice is delivered within seven days of the vacancy, the remission will be allowed with effect from the date of the vacancy.

Clause 158.—The Committee rejected a proposal to omit this clause.

Clause 160.—The Committee rejected a proposal to omit the words "or is valued at less than two hundred rupees" from this clause.

Clause 161.—We have included the words "land or" in three places in this clause as supplying an omission.

The Committee rejected a proposal that mention should be made in this clause as to how and by whom the proportion is to be determined.

Clause 162.—They also rejected a proposal that for the words "one-eighth" in clause 162 (*1*) the words "one-fifth" be substituted.

A proposal to omit the proviso to clause 162 (*1*) was also rejected.

The Committee did not agree to a suggestion to insert the words "subject to the terms of the lease" after the words "thereon" in clause 162 (*2*).

A proposal to omit clause 162 (*2*)(*i*) was also rejected.

In clause 162 (*3*) (*b*) a proposal was made to omit the words "or destroyed", and another to insert the words "by fire or flood or any other act of God". Both these proposals were rejected.

Clause 167.—The words " for the first time valued or " have been inserted in proviso (*a*) to clause 167 (*2*) as being necessary.

Clause 167 (*3*) has been omitted, thereby putting the Government on the same footing with ordinary rate-payers as in the present law.

Clause 168.—We have so modified this clause as to exempt from the tax those carriages belonging to Government which are maintained for the use of the Governor or for police or military purposes, and privately owned carriages ordinarily used for police purposes.

We have also specifically exempted carriages and animals maintained for the fire-brigade.

We have modified clause 168 (*d*) to refer only to tramcars which are exempted under any contract with the Corporation.

Clause 171.—We have included the owner in this clause as being necessary.

Clause 176.—We have increased the tax on dogs from two rupees to five rupees.

We have added a proviso exempting dogs less than six months old from the operation of the tax.

Clause 178.—We have substituted the words " six consecutive months " for the words " less than half the year " in clause 178 (*a*) as making the intention more clear.

Clause 181.—The Committee rejected a proposal to omit the words " owner or " from this clause.

Clause 182.—We have modified clause 182 (*a*) to provide that a person shall be called upon to pay a scavenging tax according to the average number of animals he keeps. This average will be determined by the Corporation from time to time.

Clause 186.—The main alterations we have made in this clause are to exempt from registration carts belonging to Government and maintained for the use of the household and establishment of the Governor or for police or military purposes, and also carts maintained for the purposes of a fire-brigade.

We have also taken power in clause 186 (*5*) for the Corporation to refuse to register any cart which fails to conform to the by-laws applicable to carts.

Clause 187.—We have added to this clause a provision for an additional payment of Rs. 5 per ton of the full carrying capacity of every cart propelled by mechanical power.

Clause 189.—We have extended the period during which the claim for the sale proceeds of an unregistered animal or cart may be made from twenty days to sixty days.

Clause 189A.—We have provided in this new clause for the registration and issue of tickets to cart-drivers, penalties being prescribed in clause 478 for contravention of these provisions.

Clause 191.—We have substituted the word " premises " for the word " properties " as being more correct.

Clause 217.—The provisions of sub-clause (*2*) of this clause were originally in clause 234, but they have been reproduced here as being more appropriate. The words " with the sanction of the Local Government " have been omitted, thus leaving the power entirely in the hands of the Corporation.

Clause 220, proviso.—The majority of the Committee decided to modify this proviso so as to ensure that a lower pressure will only be permitted on the recommendation of not less than two-thirds of the Councillors and Aldermen present and voting.

Clause 222.—In sub-clause (*2*) we have substituted "domestic purposes" for "the said purposes" in order to make the intention more clear.

Clause 224.—A proposal to delete clause 224 was rejected.

Clause 225.—We have increased the minimum free allowance of filtered water to a masonry building directly connected with the municipal water-supply from 20 gallons per head per day to 25 gallons.

The power to increase the allowance of filtered water, in case the unfiltered water-supply is discontinued, has been left with the Corporation instead of the Local Government.

Clause 226.—We have taken power in this clause for the Corporation to impose conditions in allowing any person to lay down service-pipes from the mains of the Corporation.

Clause 231.—We have added a proviso to this clause to cover the special cases of poor people of the upper class whose women folk do not appear in public and who are ready to make suitable arrangements for water connections with their huts.

Clause 232.—We have given power to the Corporation to impose conditions, if they so desire, when they supply filtered or unfiltered water for other than domestic purposes.

Clause 233.—We have omitted the words "not exceeding five rupees for every thousand gallons" from this clause, leaving it entirely to the Corporation to fix the price from time to time.

Clause 234.—As already mentioned the provisions of this clause have been reproduced in clause 217 (*2*).

Clause 237.—We have made a few verbal alterations in this clause to make the intention more clear.

Clause 237A.—We have inserted a new clause 257A, giving power to the Corporation to establish block meters to regulate the supply and consumption of filtered water. The clause also provides for meters for recording the water-supply, the reading of these meters, etc.

The Corporation will be able under this method to keep a check on the supply of filtered water. They have also been given the power to recover from the occupiers of premises the charges for excess water used.

Power has also been taken for the erection of separate meters by occupiers of premises.

Clause 238.—We have inserted the words "as the result of defects in pipes, taps or fittings connected with the water-supply" in this clause to make the intention more clear and have omitted sub-clause (*2*) as being unnecessary. The amendment in sub-clause (*3*) is consequential to the omission of sub-clause (*2*).

Clause 240.—We have omitted the first two lines of clause 240 (*2*) as being unnecessary.

We have inserted the words "according to the rent paid by each" in clause 240 (*3*) to make the intention more clear.

We have recast sub-clauses (*4*) and (*5*) of clause 240, and have added another sub-clause (*6*) dealing with the liability of payment for excess filtered water

when premises change hands; the principle accepted by the Committee being that the out-going occupier shall ordinarily be liable to pay for any excess supply up to the date of his vacating the premises, and the in-coming occupier's liability for any excess should ordinarily accrue from the commencement of his occupation.

Clause 244.—We have altered sub-clause (*1*) of this clause by the omission of the words "by resolution" after the word "direct" and by the substitution of the words "determined by the Corporation" for the words "specified in the resolution" as being more workable in practice.

The Maniktala municipality has been omitted from the list of municipalities in sub-clause (*a*), in view of its proposed inclusion in Calcutta.

We have amplified clause 244 (*1*) (*b*) to make the intention more clear.

The alterations in clause 244 (*2*) are consequential.

We have omitted the word "actual" before the word "cost" in clause 244 (*4*) as being unnecessary.

Clause 246.—We have decided that this clause should be omitted.

Clause 248.—The Committee by a majority favour the retention of the power in this clause to cut off water for the defaults mentioned in the clause. They have, however, modified the clause by amplifying sub-clauses (*g*), (*h*) and (*j*) to make the intention more clear.

In proviso (*ii*) to clause 248 (*1*), they have increased the period of notice from 24 hours to 48 hours.

Clause 251.—We have modified this clause by the omission of the words "including the soil" which were in the original clause 251 after the word "things", and by the addition of a sub-clause (*2*) which clearly states the position in regard to the ownership of the soil appertaining to a public drain.

Clause 255.—We have modified clause 255 (*c*) (*ii*) by the substitution of the words "owner and occupier" for the words "owner or occupier." By this amendment the Corporation will have to give notice both to the owner and to the occupier before they can carry any municipal drain into, through, or under any land or building.

Clause 259(a).—We have inserted the necessary reference to Schedule XIV.

Clause 262.—We have inserted the word "municipal" before the word "sewer" as being necessary.

Clauses 272, 272A and 273.—Clauses 272 and 273 have been recast to indicate the intention more clearly. A new clause 272A has been inserted dealing with privy, urinal and other accommodation for premises where twenty or more labourers or workmen are employed, penalties being prescribed in clause 478 for non-compliance with these provisions.

Clause 276.—The Committee decided to omit the words "erected before the first day of April 1900", after the word "urinals" in clause 276 (*2*) as they considered that assistance should be given to the poorer classes in the construction of suitable privies.

A proposal to extend this clause to house drains was rejected by the Committee.

Clauses 277—280.—The Committee decided that the power of inspection should be extended to private bathing and washing places. These clauses have accordingly been amended to that effect.

Clause 287.—A necessary exception has been made in the proviso to this clause.

Clause 288.—We consider that it is only fair that, before action is taken under this clause, 48 hours' notice should be given to the person who is required to execute the work. An amendment covering this point has accordingly been made in this clause.

Clause 289.—With reference to this clause it was decided that it should be provided in rule 1 of Schedule XIV that the application submitted under sub-rule (*2*) of that rule should also state the purposes for which the drain is to be used so as to give the Corporation full information in regard to possible damage to their drainage system from effluents discharged from these drains. Rule 1 of Schedule XIV has been altered accordingly.

Clause 290.—It was decided to omit sub-clause (*3*) as this sub-clause would imply an appeal by way of revision from the orders cancelling the license of a plumber, and the Select Committee considered that such power of revision would very likely be considered unnecessary by the Corporation.

Clause 293.—Clause 293 (*2*) has been amplified to give power to the Corporation to dismantle any work executed under that clause by an unlicensed plumber, without prejudice to any right of prosecution under the Act.

In view of the modification of sub-clause (*2*) as above, the Committee considered sub-clause (*3*) unnecessary and have omitted it.

Clause 295.—We have amplified clause 295 (*c*) to cover cases of delay by plumbers in the execution of work.

Clause 296.—We have taken power to the Corporation for the suspension as well as the cancellation of a plumber's license.

Clause 297.—The object of the amendment made in this clause is to make it clear that streets and squares which are for the time being the property of the Board of Trustees for the Improvement of Calcutta will not vest in, or belong to, the Corporation. The word "sub-soil" has also been added after the word "soil" as being necessary.

Clause 298.—A necessary verbal alteration has been made in this clause by the insertion of the words "vested in them" after the words "public streets".

Clause 299.—We have given power to the Corporation to decide which public streets, etc., require treatment under this clause, and we have included "gardens".

Clause 301.—In sub-clause (*1*) we have substituted "verandah, platform or other similar structure" for "portion of a building" as being what is required, and we have made consequential alterations in sub-clauses (*2*) and (*3*).

In sub-clause (*2*) of this clause we have substituted the words "any reasonable expense incurred for the purposes of such removal or alteration" for the words "the expense of the removal or alteration" as being more correct.

Clause 302.—We have modified clause 302 (*1*) so as to require the Corporation to give a person previous notice before they call upon him to remove any wall, with power to the Corporation of their own motion to remove any fence, rail, post, platform or other obstruction.

A consequential amendment has been made in clause 302 (*2*).

Clause 302A.—This clause reproduces rule 6 of Schedule XV.

Clause 303.—This clause has been entirely recast. The alterations include the following :—

(1) No building line under this clause shall ordinarily be prescribed for any street laid out and made before the commencement of the new Act.

(2) A copy of the notice under sub-clause (*2*) must be sent by post to every owner.

(3) Failure or omission to serve such notice will not invalidate proceedings under the clause.

(4) The hearing by the Corporation of any objector who comes forward to object to action under this clause.

(5) The keeping of a register or book with plans attached showing all public streets in respect of which a building line or street alignment has been prescribed under this clause, and to contain other particulars.

A modification has been made under clause 303 (*4*) to make the intention more clear.

Clause 304.—A small emendation has been made in the first line to this clause to make the intention more clear.

In clause 304 (*1*) (*a*) for the words "any building erected or added to" the words "any addition made to any building" have been substituted as being more correct. A consequential alteration has been made in the second line of clause 304 (*2*) by the omission of the words "erect or" before the words "add to".

In sub-clause (*2*) of clause 304 we have reduced the period from 1 year to 6 months after which, if the Corporation do not acquire the land falling within a street alignment, they will be liable to pay compensation.

Clause 305.—In sub-clause (*1*) we have provided for notice being given to the owner before the Corporation proceed to take possession of land under that sub-clause. In the latter part of sub-clause (*1*) we have provided that the Corporation are to take possession of any land situated within a street alignment if the owner of the land calls upon them to do so.

Clause 307.—We have added squares and gardens to this clause, as also causeways and culverts, as being necessary.

Clause 308.—The additions made in this clause are consequential to those made in clause 307.

Clause 309.—We have recast this clause, providing that in special cases the Corporation may reduce the width of any projected street but in no case to less than thirty feet or, in a *bustee*, sixteen feet.

As the result of the above revision, we have omitted clause 309 (*2*) (*b*) as being unnecessary.

Clause 311.—We have inserted "squares and gardens" in this clause following the precedent of clause 307.

We have modified clause 311 (*2*) to provide for notice being given to an objector, and an opportunity of being heard, before proceedings are taken in regard to the acquisition of any land or buildings under this clause.

This sub-clause has been further modified by the insertion of a provision under which the Corporation, in acquiring land for the reasons set out in sub-clause (*1*), may also acquire it if it is needed for the recoupment of the cost or any portion of the cost of any improvement or project.

Clause 312.—This clause has been entirely recast on the basis of the Calcutta Improvement Act, 1911, with certain modifications.

The Committee considered that a principle should be laid down for fixing the amount of the fee to be payable on account of abandonment of acquisition and that the principle set forth in sub-clause (*4*) of the revised clause 312 was the most suitable.

We do not consider it advisable that there should be any appeal from the decision of the Corporation, as to the amount of the fee, to the Courts or in other ways.

Provision has also been made for the grant of an extension of time, if the Corporation so think fit, in case of default in the payment of instalments.

It was considered desirable that the rate of interest provided in sub-clause (*6*) should be variable but should not exceed seven per cent.

A provision has also been inserted in this sub-clause as to pre-emption, based on section 81 of the Calcutta Improvement Act, with certain modifications.

Clause 313.—Following the decision in regard to clause 312, for the words "at the rate of six per cent" the words "at a rate not exceeding seven per cent." have been substituted.

Clause 315.—We have amplified clause 315 (*1*) (*a*) by including the "alignment" of the street.

As a result of the above amendment, clause 315 (*1*) (*b*) has been omitted as being unnecessary.

We have made it obligatory on the Corporation to declare a street a public street in certain circumstances.

We have also added a further proviso giving a discretionary power to the Corporation to declare a private street which has been in existence for not less than 30 years to be a public street in certain circumstances, even though it may not conform to all the requirements of a public street.

Clause 322.—We consider it necessary that qualifications should be prescribed "in respect of the several classes of buildings" since the qualification of the surveyor need not be so high in regard to small buildings, and sub-clause (*2*) has been altered accordingly.

We have omitted sub-clause (*4*) of this clause which dealt with cases where the Corporation, when they refused the grant of a license, had to furnish the applicant with the reasons for their refusal. There being no appeal it is unnecessary to furnish these details, which can give little satisfaction to the recipient.

Clause 323.—We have added a sub-clause (*2*) to this clause giving power to the Corporation to prescribe a scale of fees of licensed building surveyors in respect of any class of buildings, to be made applicable in the absence of a written contract to the contrary.

We have omitted clause 325 (*1*) (*f*) and have provided for it in rule 81 (*3*) of Schedule XVI so as to make it a general regulation in regard to the court-yards of huts, and not a provision merely affecting the particular kind of proceeding mentioned in the clause.

We have inserted a new clause 325 (*1*) (*1a*) dealing with the service of notices under this clause on all owners of buildings and lands affected. A safeguard has, however, been added so as not to invalidate proceedings under the clause owing to failure to serve notice.

A consequential alteration occurs in clause 325 (*2*).

We have provided in clause 325 (*3*) for the hearing of objectors by the Corporation.

Clause 327.—We have substituted the words "intended solely for and is used solely as a place of public worship" for the words "which is used as a school, college or other place of instruction" in this clause, as we consider that only buildings used as places of worship should be exempted under this clause.

We have amplified this clause so to give the owner of the building concerned an opportunity of being heard before orders are passed.

We have restricted the operation of this clause to cases where action is necessary in the interests of sanitation and the safety of the public or of the inmates of the building.

Clause 327A.—This provision, relating to the external doors of public buildings, has been transferred from Schedule XVI, rule 53, as being more appropriately placed in the body of the proposed Act.

Clause 340.—We have made this clause applicable to the owner of any huts, as being consequential.

Clause 342.—We have amplified the proviso to this clause to differentiate payments made in case of expenses relating to work which should be done by the owners or occupiers of huts, from expenses for work which should be done by the owner of the *bustee*. Clause 351.—Certain consequential amendments have been made in this clause following decisions in regard to clauses 333 and 334.

We have added a proviso that any convenience made by the owner of the hut for his own use shall be maintained by him and not by the owner of the *bustee*.

Owing, however, to practical difficulties in the way of its application, the proposed rule was not accepted by the Committee.

CALCUTTA;
The 10th January, 1923.

* This member signed subject to his Note of Dissent. Some of these proposed Notes of Dissent have not yet been received

NOTE.—Mr. Tarit Bhusan Roy was unable owing to illness to attend several of the later meetings of the Committee or to sign the report.

Note of dissent by Mr. S. W. Goode.

I sign the report of the Select Committee appointed to consider the Calcutta Municipal Bill with the reservation that I do not approve of sub-clause (*z*) of clause 388. I am of opinion that while a municipal corporation may properly regulate and control the slaughter of animals, it should not be given a wide discretion to prohibit even partially such slaughter, unless such prohibition can be justified in the interests of the public health. There are economic factors, which drive *goalas* or others to sell dry cows and calves with the knowledge that they are to be consigned to the *abattoir*, and a mere prohibition of their slaughter without provision for their maintenance can never override these factors. A munic'pality is not primarily concerned with the regulation of economic forces, but it could legitimately check the wasteful slaughter of prime cows and calves, which every one must deprecate, by assisting in the provision of grazing grounds and subsidizing the establishment of dairy farms.

Note of Dissent by Babu Amulya Dhone Addy, M. L. C.

Clause 2.—The words "and is not inconsistent with" in line 7 of sub-clause (*2*) of this clause should be omitted.

The building regulations have been made more stringent under this Bill. If sanction for the erection of a building under the existing Act is not deemed to have been passed under the existing Bill on the ground of some of the building regulations under the existing Act being inconsistent with those under the Bill, then it would be a gross hardship on the owner of a building if he has completed the construction of the building in accordance with the sanctioned plan.

Difficulty will be felt particularly in the matter of incomplete buildings if these words are retained. This opinion is held by the Bengal National Chamber of Commerce, Bengal Mahajan Sabha and British Indian Association.

Clause 3 (*4*).—The definition of "bazar" should be as follows in lieu of that in the Bill :—

> "Bazar" means any place of trade other than a market where there is a collection of at least twenty-five warehouses, fifty shops or one hundred stalls.

There are stringent provisions under clause 395 under which the owner of a bazar can be required to lay out, construct and widen roads and passages in a bazar at his own cost, notwithstanding the fact that he has to pay heavy rates and taxes in respect of the said bazar, and that if he happens to be the owner of a block of masonry buildings used for human habitation he cannot be called upon to execute the said improvements without adequate compensation paid by the Corporation. I admit that the number of shops or warehouses can be fixed by the Corporation, but naturally the Corporation will fix a very small number of such shops and warehouses, with a view to relieve themselves from the payment of the cost of the said improvements.

Clause 3, sub-clause (*12*).—The words "a bicycle" should be omitted from the definition of "carriage".

There was a time when the retention of a bicycle was a luxury, but now it has become a necessity. Clerks drawing small pay cannot afford to pay carriage or train hire and therefore use bicycles for the sake of economy. It will therefore be a hardship on the poor clerks if they are taxed in this way, however insignificant it may be.

The license officer of the Corporation has also suggested the exemption of bicycle-holders from taxation on the ground of difficulty in realization of the same.

Clause 3, sub-clause (*13*).—The words "and includes a wheel-barrow" should be omitted from the definition of "cart".

It is only the very poor labourers who use wheel-barrows. They should be exempted from any taxation, however insignificant it may be, on the ground of poverty. These words have been added to the definition of cart as in the original Bill.

Clause 3, sub-clause (*20*).—The words "any seller of milk whether wholesale or by retail" should be substituted by the words "any wholesale dealer of milk".

It will appear from clauses 420 and 421 that stringent provisions have been introduced for exercising control over sellers of milk and dairy-men. It will therefore be a source of hardship if the said provisions are made applicable to a retail seller of milk. Many a poor widow earns her livelihood by retaining one or two milch-cows and the retail sale of milk therefrom. The operation of the said regulation shall enforce them to give up their said profession.

Clause 3, sub-clause (47).—The proviso to the definition of "owner" should be omitted.

There is no such definition neither in the existing Act nor in the original Bill. I fail to understand as to why a person being the owner of fifty premises for each of which he pays an annual rate of more than Rs. 12 will be entitled to one vote only, while the fifty occupiers of the said premises will be entitled to fifty votes. The owner of the said fifty premises has to pay half the municipal rates while his tenants shall have to pay the same amount to the Corporation. The owner has certainly greater interest than the occupiers, some of whom, may be nothing but birds of passage. It is therefore desirable that as in the existing Act the owner of buildings should not be placed on the same footing with the occupiers thereof.

Clause 3, sub-clause (50).—The words "than the width that the Corporation may prescribe in this behalf" be substituted by the words "than nine feet in width".

There appears to be a mistake in the wording of the definition. My suggestion is in accordance with the recommendation of the Calcutta Corporation. If the common passage in a partition building is regarded as a private street, then, under clause 315 of the Bill, the width of the street is to be 40 feet, or at least 20 feet if specially allowed by the Corporation. Is the said width of such a common passage necessary? Is it not a prohibitive one?

Clause 3, sub-clause (53).—The words "and where there is no drain..... up to such alignment" should be omitted.

I fail to understand as to why it should be presumed that the land up to the outer wall of a premises abutting on the street is a public street simply on the ground that there is no drain attached to such street.

This is a direct encroachment upon the private rights of citizens. The public cannot surely be given any right over private property merely because the Corporation have failed or neglected to provide drains in public streets. The restriction of this definition will cause much hardship to many people who have got vacant lands behind the outer walls of the premises abutting on the streets. If the Corporation claim any such land they must prove their claim.

This definition has been objected to by the Bengal Mahajan Sabha and the British India Association on the above grounds. There is no such definition in the Bombay Municipal Act.

I regret that the majority of the Select Committee have ignored (like the framer of the Bill) the just claims of the Bengal National Chamber of Commerce, the Marwari Association, Bengal Mahajan Sabha and that learned body, the University of Calcutta, as special constituencies to send up their representatives to the Corporation. No reason whatever is given in the objects and reasons in the Bill why the aforesaid institutions have been denied the privilege. The omission appears more glaring considering the fact that the Bill of 1917, introduced in the Bengal Council, provided for representatives from :—

(1) Bengal National Chamber of Commerce,
(2) Marwari Association,—and
(3) University of Calcutta.

Communal, institutional or special electorates may be undesirable from a national point of view, but the time has not come when we can do away with them altogether. In the Bill it has not been discarded but has been recognised and given effect to in a more aggravated form. For not only the privilege is retained for the Bengal Chamber of Commerce and the Trades Association, but their number of seats in the Corporation has been increased, and the Muhammadans have been given for the first time 13 seats reserved for them, although the Muhammadans and the European community are eligible for election through the general constituency by open competition, specially as the franchise has been very much lowered. What I aim at is that since the claims of the Bengal Chamber of Commerce, the Calcutta Trades Association and the Calcutta Port Commissioners have been recognised as special constituencies, there is no valid reason to ignore the claims of these Indian commercial bodies. The Bengal Government recognised the importance

of the Bengal National Chamber of Commerce and the Marwari Association by a formal resolution published in 1913, and both these bodies have been allowed to send up their representatives to various public bodies which have come into existence with the sanction of Government. They represent very important interests in Calcutta, and the whole of the inland trade of the city is in their hands. The same can be said of the Bengal Mahajan Sabha. These Associations have been allowed the privilege of sending representatives to the Bengal Legislative Council. In this connection it is to be noted that when the existing Act was on the legislative anvil at the last stage in 1899, Sir (then Mr) Surendra Nath Banerjee brought forward a number of amendments purporting to give two seats to the Bengal National Chamber of Commerce and two seats to the Calcutta University. Several prominent members, including Dr. (now Sir) Ashutosh Mukherjee, moved similar amendments. As the total number of members of the Corporation was previously fixed by the Government of India, all these amendments were for giving the seats as stated above by reducing the number of representatives of the European commercial interests. This was not accepted by Government and so these amendments were lost.

Indeed Sir Edward Baker, who was in charge of the Bill, was not unmindful of the interests of the Indian mercantile community but opposed the proposal of giving seats to the Bengal National Chamber of Commerce which came into existence in 1887 as he said it was a "one man show," and not "within the sphere of practical politics." But this can not be said of the Bengal National Chamber of Commerce to-day. It has fully established its claim as the premier institution of the Indian commercial community of Bengal and as such is recognised by Government. The importance of this Chamber, which I have the honour to represent in this Council, will be evident from the fact that it is the only body of the Indian mercantile community which sends representatives to the following bodies, boards, and Committees namely :—

(1) Indian Legislative Assembly.
(2) Calcutta Port Trust.
(3) Calcutta Improvement Trust.
(4) Standing Water-ways Committee.
(5) Government Commercial Institute Board.
(6) Bengal Smoke Nuisance Prevention Committee.
(7) Eastern Bengal Local Consulting Committee.
(8) Fire Brigade Control Committee.
(9) Board of Industry.
(10) Central Cotton Committee.
(11) Bombay Provincial Cotton Committee.
(12) Grand Trunk Canal Local Committee.

Besides it has been asked to send representatives to committees like the Calcutta Port Facilities Committee, Calcutta Mint Committee, Howrah Bridge Committee, Central and Provincial Income-tax Committees, and other such public bodies which have been constituted from time to time to consider questions of importance to the public.

The Marwari Association and the Bengal Mahajan Sabha, though established later, are not less important. It is to be sincerely regretted that the claims of these representative institutions of the Indian mercantile community should be lightly set aside. We all know the reasons which induced the legislators of 1888 to make the Chamber of Commerce and the Trades Association the two different constituencies that they are now. At that time the endeavour was made to persuade the European community to take part in municipal affairs and as the non-official European community is mainly composed of merchant class and as the leading merchants are so busy in their own affairs that they are unwilling to come through general constituencies, therefore special constituencies have been created for them. That is the reason which induced the legislators of 1899 to adhere to that principle and that has also been retained in the present Bill. This can be said of the Indian mercantile community as well.

In the general electorate, it is not likely that the big merchants and traders having a greater stake in the country will be in a commanding position in a democratic socialistic electorate as is proposed by "one man one vote". Besides the members of this community, though willing to

shoulder the civic responsibilities as before, have neither the time nor the inclination to go on canvassing actively for a long time to ensure success in election. These men will not be very willing to seek election through general constituencies, but will of course prefer special representation through such institutions as aforesaid. Is it right that these veteran men of business should remain outside the Corporation ?

Communal representation is of course bad, but institutional representation is not the same as communal representation. These Indian mercantile bodies represent Indian commercial interests. Calcutta is made what it is by commerce and it is in fitness of things that the commercial interests should be specially well represented in the Corporation, and while this right has been conceded to the European commercial interest the same privilege can not be denied to the Indian commercial interests. In this matter the question of caste or class representation does not arise: the consideration of Hindu preponderance in the general electorate is beside the mark. After all, the story of Hindu preponderance is a myth especially as the franchise has been made low the Hindu electors will not be greater in proportion to their numerical strength or in the ratio of rating. It is therefore bare justice if the concession of special representation is extended to these bodies. It is a fallacy to say that institutional representations involve double votes. It is not correct to say that the members of these Institutions will enjoy double votes.

As regards Calcutta University, its claims to special representation stand on a unique footing. The importance of Calcutta University in this city, which contains numerous colleges, schools, boarding, houses, institutions and recognised hostels for students can not be gainsaid. It represents the intellect of the country.

The Senate of the University numbers on its rolls the most distinguished doctors and the most competent engineers, great jurists and eminent professors of economics, both European and Indian, and if the Senate of the University is authorised to send a representative to the Corporation, it may from time to time send a great doctor or an experienced engineer or other expert whose helpful advice could not otherwise be secured. Besides, as the Corporation is entrusted with the duties of providing free primary education, technical and industrial education, it is therefore right that the University which stands for education should have a representative on the Corporation and by this, in my opinion the Corporation will be the gainer. I have analogy in support of my view, for the Bombay University sends two representatives to the Bombay Corporation; there is therefore no reason why the Calcutta University should not be allowed to have this privilege. Besides, important public bodies, including the British Indian Association, recommended for special representations for these bodies and it is supported by public opinion through press and platform, Democracy is a good thing no doubt, but there are dangers of democracy as well, and in our reforming zeal we should not surrender conservatism at least for the present.

The next question is how to provide seats for these bodies. Some have suggested that the number of seats reserved for the Bengal Chamber of Commerce and the Trades Association should not be increased and the number of Muhammadan special representatives be reduced. But this course does not commend itself to me. For this will raise racial feelings and strife whereas we want harmonious relations amongst different communities for the good of the country in general and of the Corporation in particular. My suggestion is to increase the number of elected Councillors from 67 to 72 making the total number of elected Councillors and Aldermen to be 85. This seems to me to be the only possible way without prejudice to anybody and prudence also dictates that we should follow this line of least resistance. The Corporation will not be then unduly large or unmanageable, five more seats do not count much. In this connection I can do no better than quote what Sir Henry Harrison said from his place in the Bengal Council in 1888: "At the same time, I attach very little importance to this point. I do not believe there will be any practical difficulty in working, whether the number of Commissioners be 75 or 80, because we know that the time taken up by discussion does not depend on the total num ber o Commissioners present, but upon those Commissioners who wish to speak: and in a Corporation of even 80 members, the leading Commissioners would, for the most part, be returned and these would take an active part in the discussion as at present.

I do not think that in this respect there would be any great difference in a body of 80 members and a Corporation of 80 Commissioners of whom 15 or 16 would, as a rule, take part in the discussions. Practically therefore, I attach little importance to the number of the Corporation." From another point of view this increase in the number of members is not only justifiable but a necessity. Ever since there has been a Corporation in Calcutta extending over a period of more than 60 years, the number of Justices or Commissioners, for the members of the Corporation were known under these two names at two different periods of their history, was never less than 72 and sometimes exceeded 120. From 1863 to 1876 the municipal affairs of Calcutta were controlled by the Justices. Their number, unlimited at first, was over one hundred up to 1876. When the Corporation was reconstituted upon an elective basis in 1876, the number was fixed at 72, and that was the number from 1876 to 1888. In 1888, when the municipal law was revised, the number was raised to 75, though with an extensively added area, which was for the first time included within the jurisdiction of the Calcutta Corporation. Thus from 1863 to 1899 the number of Municipal Commissioners has never been less than 72 and has sometimes exceeded one hundred. I do not want to take up unpleasant memories by recalling how the number was curtailed by the Act of 1899 in spite of the stubborn opposition ably led by our present popular Minister in charge of this Bill.

The present Bill rectifies the mistakes and redresses the wrongs committed in 1899. But considering the ever-growing population of Calcutta, specially as the number of electors are going to be considerably enlarged by lowering the franchise, it is only bare justice that the total number should have been raised to at least one hundred. So my proposal to increase the number to 85 is to be deemed rather very modest and not at all unreasonable. In comparison with other important cities, this demand for increase, small though it is, will not be unreasonable. The City of London is about one square mile in area, with a population in 1887 of 261,061 (by day) with a night population of only 50,526. It is divided for the purposes of its municipal government into 25 wards, which return 206 Common Councillors to the Court of Common Council.

Here again I quote from the speech of the Hon'ble Sir Surendra Nath Banarjea in the Council in 1899 against the proposal of reducing the number of Commissioners. This is what he said: "Then it has been said that the number is excessive when viewed in connection with the experience of similar institutions elsewhere. Here, again, I find myself at variance with the facts as stated by the Government of India. I hold in my hand a statement which shows that in some of the great towns in the United Kingdom, with a less numerous and less homogeneous population, the number of Commissioners varies from sixty-four to over one hundred. Looking at the figures which I have just read and having regard to the population of Calcutta, which is over 650,000 and certainly is more diversified than that of any of the English towns, it cannot be said that the present number of Commissioners is excessive as compared with those of other towns."

Now that was the condition of Calcutta nearly two decades ago. But now the population of Calcutta by this time has increased to 9 lakhs and the number of electors is going to be at least trebled by the lowering of the franchise and enfranchising the women and hut owners of *bustees* for the first time. Is it then too much to expect to have the number increased by only 10 than what was in 1888? Then again, the city of Bombay with a population of 664,405 sends 72 elected Commissioners. Now I understand that the new Bombay Municipal Bill provides for 100 members. So on all these grounds I dissent from the view of the majority of the Select Committee on this subject and I am definitely of opinion for giving two seats to the Bengal National Chamber of Commerce and one seat each to the Marwari Association, Bengal Mahajan Sabha and the Calcutta University as special constituencies, thus raising the total number of elected Councillors to 72; and the clauses 5, 21(*b*) and Schedule III should be amended accordingly.

Clause 17A.—That after the words "the Local Government may" the following words be added :—

> "After receipt and consideration of any representation which may be made by the Corporation."

The Local Government, though a reformed one, should not annul any proceeding of the Corporation unless and until an opportunity is given to the Corporation to defend themselves in their proceedings.

Clause 18.—All the provisions dealing with the qualifications of electors should be substituted by those under the existing Act, subject to minor modifications. Under the existing Act a person is entitled to vote in proportion to the amount of rates and taxes, with a maximum of 11 votes. He is entitled to vote for all the wards in which he may have lands and buildings. He need not reside in the ward or even in Calcutta. But under the Bill a person is entitled to only one vote whatever the amount of rates and taxes he may pay to the Corporation. Is it fair and equitable to take away the rights and privileges of a rate-payer who may pay heavy rates and taxes for his lands and buildings in Calcutta? Why is it that no explanation has been given for the withdrawal of these privileges? Is it not right and just that a person should excercise some control over the expenditure of the municipal fund in proportion to the rates and taxes paid by him? Under the Indian Companies Act, a shareholder is entitled to vote in proportion to the number of shares held by him. Why should a person paying thousands of rupees as rates be placed on the same footing with a person who pays only Rs. 12 *per annum*? Why should a landlord be debarred from exercising a franchise which he has been enjoying indirectly since 1876 and directly since 1888? The system of plural voting as in the existing Act has been introduced in 1888. It has worked very satisfactorily in Calcutta. Corruption in municipal election as in the mufassal is quite unknown in Calcutta. Men of business, men of intelligence and even the aristocrats of Calcutta come forward for general election simply because of the system of plural voting, but I am sure the abolition of this system will lead to corruption and debar men like the above from offering themselves for election as in the case of election for the Bengal Legislative Council. I do, therefore, suggest that the election rules, subject to necessary modifications as embodied in Chapter V of the existing Act, be embodied in the Bill.

I fully endorse the following view taken by the British Indian Association namely: "This clause, as it stands, is unjust, inasmuch as it puts an arbitrary restraint upon the exercise of the franchise to which a person is entitled. It should be presumed, and, in fact, it is a mere matter of common sense, that a person who holds property in different constituencies and pays therefor more than another person in the shape of rates and taxes to the Corporation, has a greater interest in the city than the latter, and therefore his anxiety must be the more to see that the civic administration is conducted in a proper and efficient manner, so that he, at least, as one of the public, possessing large properties in different places of the city, should not suffer mal-administration by the municipal authorities, and therefore his natural feeling and impulse must be to see that able and deserving men are selected by election to conduct the affairs of the municipality. In other words, a person who pays Rs. 1,000 as rates and taxes would feel more interested in the election of representatives for the efficient administration of the municipality than one who pays only Rs. 12 as rates and taxes, and therefore it is natural and reasonable to expect that he should have a larger voice in the election of representatives than one who pays a less amount of rates and taxes. But how can he have a larger and more effective voice in the matter, unless his votes are increased? There is no reason why the provisions of sections 46 and 47 of the existing Act, which have worked so successfully all along, should be lightly set aside for the sake of a mere sentiment. The democratic principle of equality is no doubt good in its way, but to extend it to an administration which is principally concerned with health, sanitation and the amenities of life is carrying it too far, which may impair the efficiency of municipal administration. Under the existing Act, an owner of properties in different wards, on the electoral roll of which his name is registered, has got a maximum total of 11 votes. If for any reason it should be thought that a person who is entitled to give 11 votes should not have such a number of votes, then the number may be reduced to 6 only, though he should be allowed to register his name in all the electorate rolls of the wards where he possesses property."

It has been alleged that plural voting gives undue influence to wealth, but as a matter of fact, even under the existing Act the total number of votes which the tenants are entitled to, is much more than what the landlords

are entitled to. Under clause 18 of the Bill the landholders will be in a hopeless minority. It is desirable that the legislature should do justice not only to tenants but also to landlords. To be a landholder of Calcutta should not be a curse. What will a person think if he is enforced to contribute the major portion of the expenses incurred for the execution of the work, with practically no voice therein? It is justice and equity which demand the continuation of the system of plural voting, which will give some consolation to those landlords and tenants who pay heavy rates and taxes to the Corporation.

Clause 21.—I emphatically protest against the proposal of abolishing the present system of plural voting altogether and substituting it by the introduction of what is called "one man, one vote" system as contemplated by these clauses of the Bill, and I regret that the majority of the Select Committee have left them as they are in the Bill. It is all the more regretable that this sweeping change is sought to be introduced in the name of democracy, irrespective of all considerations like its great antiquity, its utility and that the system has worked so long smoothly and without clamour "or complaint from any quarter. This system of plural voting in the municipal election in Calcutta has been in vogue from the year 1876 though formally recognised by the Act of 1888. In fact this system was formally introduced by the statute after full deliberations and not in a hap-hazard or ill-considered way. In the Objects and Reasons of the Bill of 1888, it is stated: "The sections regarding plural voting are new, but they are only intended to legalise and regulate the existing practice, regarding which the law is silent. The circumstances under which members of joint families may vote are at present left entirely to the discretion of the Chairman. The Bill proposes to legalise such votes up to a maximum of six for each separate property."

The Select Committee on the said Bill gave reasons why they retained the principle, which are applicable even to-day. I quote passages from their report. They stated:—

"(1) Plural voting has been exercised under the Act of 1876. Section 9 bestows it so far as different wards are concerned. It has also been exercised by members of Hindu joint families.

(2) Plural voting distinctly recognises the right of those who contribute most to the maintenance of the Corporation to a more potent voice in electing the governing body.

(3) Plural voting is recognised in English local authorities such as parishes, vestries, unions and urban district councils.

(4) The principle is based on the intrinsic equity of the principle and its extreme importance in the best interests of a city such as Calcutta. By this system, the quality of the persons who will become candidates for election will be improved, while with one man, one vote the status of those who present themselves for election will decline. On the other hand, if wealth is given its due weight, better and more influential persons will be willing to offer themselves for election.

(5) The principle that those who contribute most and who in the great majority of cases, are better qualified to judge of the needs of the town, should have a more influential voice."

When the Bill came up before the Legislative Council for final reading the matter was discussed threadbare. Sir Henry Harrison led the party who were in favour of it, while Babu Kali Nath Mitter led the opposition, and the Council adopted this principle as being equitable and suitable according to the circumstances of the case and conditions of an oriental town like Calcutta.

It is to be noted when the Act of 1888 was revised and a new Bill was introduced in the Council, this principle of plural voting was tacitly accepted by the Council, though it included amongst its members such stalwart advocates of democracy as Sir Surendra Nath Banarjea and Babu Baikanta Nath Sen. So we have this principle of plural voting in the present Act up to the maximum number of 11 votes.

Now what are the reasons for advocating such a sweeping change and startling innovation?

As far as I can gather two grounds are assigned, namely, that plural voting is now an anachronism and that by this system we have landlordism in the Corporation.

I take the first ground for consideration. With the rapid advance made in socialistic ideas in Great Britain and on the Continent, the plural system of voting is not yet altogether abolished. English local authorities had plural voting so late as 1894 and still some of them, the parishes and vestries have plural voting. In Stockholm (Sweden) every voter has a number of votes corresponding to the amount of taxes he pays but limited to a maximum of 100. In Belgium, not only in local bodies but even in Parliamentary elections, the system of plural voting is still in vogue. The system is still prevalent in some of the Colonies; in Victoria, persons rated on property whose annual value is less than £50 have one vote each, if the property is rated at from £50 to £75 they get two votes each, and if the property is still more valuable 3 votes each In New South Wales, with property valued at £25 one vote, at £75 to £150 and upwards 4 votes.

Before 1894, in England, union boards, commissioners of sewers, burial boards and the local government boards, the members thereof were elected by plural votes up to a maximum of six votes. In this connection, it is interesting to note that in 1870, a Select Committee was appointed by the House of Commons to consider the system of local taxation. This Committee was under the chairmanship of Lord (then Mr.) Goschen.

The system of voting was specially examined into by them and the Committee refused to condemn the plural system of voting though specially asked to do so by the chairman.

Thus we see the democratic principle of equality in the municipal administration as in the state has been and is still being extended by successive stages and not by any violent change. Orderly progress from precedent to precedent in fact, is the key-note of the British Constitution and so we have it solemnly declared by the Government of India Act of 1919. Any violent change in the constitution is sure to bring in reaction which will bring disaster in its train. Our country is not sufficiently advanced that we can introduce this sweeping change at once without violating vested rights.

So the system of plural voting should only be abolished by successive stages. In this view, the maximum vote can be limited to six and watch the result for some time. The next ground is the landlordism in the Corporation. This charge also will not be borne out by the facts. For how many big landlords are in the Corporation ? Is there anyone in the Corporation who has come in with the votes of the plural voters only ? With the lowering of franchise and diminishing the number of plural votes the condition will be still more favourable for the democratic party.

The number of plural voters in every ward is considerably small and it is not true to say that the election is controlled by these plural voters. We should be guided by stern facts and sober reasoning and should not be swayed by sentiment only. Then, you are not going to introduce universal suffrage, you still retain some property qualification and it is therefore right that those who pay more should have a more potential voice in the municipal administration. Then again this system has worked well so long and it is in the experience of the officials and Commissioners of long standing that plural voting is the incentive which rouses so much interest and enthusiasm in municipal elections. The levelling of all distinctions in allotting the votes and ignoring wealth, education, and property altogether would naturally induce many not to take part in the elections. Elections would thus be reduced to a farce and municipal administration also will suffer in consequence.

Then looked at from another point, the owners can claim the privilege as a matter of right. The person who holds property in different constituencies and pays more than other persons in the shape of rates and taxes to the Corporation has a greater interest in the city than the latter and therefore his anxiety will be the more to see that the civic administration is conducted in a proper and efficient manner.

A person who pays hundreds and thousands of rupees as rates and taxes would feel more interested in the election of representatives for the efficient administration of the municipality than one who pays only Rs. 12 as rates

and taxes; it is therefore reasonable that he should have a larger voice in the election of representatives than one who pays less amounts of rates and taxes and therefore he must have a larger number of votes than the other. This may be styled as his natural right. So on all these considerations, the plural system of voting should be retained, and the maximum limit may be reduced to six. The total abolition would be impolitic and we must see that for doing supposed justice to one class we should not do real injustice to another.

Lastly the plural voter should not be restricted to give more than one vote to one candidate.

In every constituency more candidates stand for election than the number of Councillors required. The voter therefore should not be restricted to give all his votes to one whom he considers the most deserving of the lot. To restrict him to one vote to one candidate would be interfering with the freedom of his choice.

There is no harm done, on the contrary it will be the means of returning the best of the candidates, when the majority of electors are influenced for some reason or other in favour of other candidates who are less deserving than the first.

Under section 28 (*d*), Bombay Act of 1888, a voter of a plural constituency can give all his votes to one candidate or distribute them among the candidates as he thinks fit. Such is also the law under the Bengal Municipal Act. There is therefore no reason to introduce this innovation.

I therefore dissent from the view of the majority of the Select Committee on these matters and propose that the clauses 21 (*1b*) and 26 (*4*) of the Bill as amended by the Select Committee be amended accordingly.

Clause 26, sub-clause (*2*).—The words "by ballot and" in this clause should be omitted.

I admit that landlords exercise some influence over their tenants, but the present system of voting is preferable, otherwise incompetent Councillors may be elected.

Clause 26, sub-clause (*4*).—The words "but no elector shall give more than one vote to any one candidate" should be omitted.

If it is found advisable to have the minorities properly represented in the Corporation, then this restriction should be done away with. If an elector is entitled to give all his votes to one candidate in a plural-councillor constituency, then a Muhammadan, Marwari, Jew or a member of the depressed classes shall have a chance of being elected by the members of his community and others who may have great confidence in him.

I agree with the British Indian Association in their following observations on this amendment:—

> The owner's right to plural voting is based upon a natural feeling to see the improvement and development of his property, with a view to increase its value, and this feeling should be encouraged instead of being ignored, with a view to improve the personnel of the Corporation. There is no good logic in the argument that, because there is no plural voting in Madras and some other places, therefore Calcutta should not have it. As a matter of fact, Calcutta has got plural voting under sub-section (*4*) of section 43 of the present Act, and it has not acted prejudicially in any way, though plural vote was first introduced by Act II of 1888, and no good reason has been shown why it should be abolished. The Bombay Act III of 1888, sub-section (*d*) of section 28, allowed cumulative votes. If by a judicious exercise of the vote it can serve the interests both of the owners and of the Corporation, there is no reason why Calcutta should not adopt it, and, as a matter of fact, Calcutta has already adopted it. It should be provided in the Bill that a person may give all his votes to one candidate, or he may distribute his votes to different candidates in the way he thinks proper.

Even the Bengal Chamber of Commerce is of opinion that the system of cumulative voting should be continued with a view to secure representation of the minorities.

Clause 28, sub-clause (1).—This sub-clause of this clause should be omitted. No person should be allowed to stand as a candidate for more than one constituency; otherwise it will lead to corruption, unnecessary trouble to candidates and expenditure to the Corporation. Even the Bengal Chamber of Commerce is of opinion that no candidate should be permitted to stand for more than one constituency.

Clause 82.—The word "twelve" in line 2 of sub-clause (*2*) should be substituted by the word "sixteen". Under section 96 of the existing Act, there is no restriction with regard to the number of members of a standing committee. I admit that the number of members of the standing committee, as at present, is generally 12 excluding the chairman, but the number is increased to 14 or even 15 from time to time. As the total number of members of the Corporation has been increased from 50 to 80, with a view to have better representation of all communities and interests, it is desirable that the number of members of a standing committee should be increased on the same ground. Under the Municipal Act of 1888, the number of members of the General Committee was 18 excluding the chairman, and I do not think that the said committee was an unmanageable one.

Under the Bombay Municipal Act, the number of members of the standing committee has been increased to 16 though fees are payable to the members thereof. As fees are not payable to members of a standing committee and as from time to time there is no quorum of mettings of a standing committee, it is desirable that the number of members of a standing committee should be increased.

The word "three" in line 4 of sub-clause (*2*) of this clause should be substituted by the word "four."

According to the present practice of the Corporation, no Commissioner is allowed to be a member of more than three standing committees excluding the district committee, which is also a standing committee. It is therefore desirable that the present practice should be continued. This restriction may debar many useful members of the Corporation from serving in standing committees.

Clause 93, proviso (g).—This proviso should be omitted. Under clause 440, the Corporation of Calcutta may take special measures, notwithstanding the provisions of this Act, to prevent the outbreak of a dangerous disease or spread thereof, but I fail to understand as to why the Executive Officer should be allowed to make payments in the absence of the budget grants and without the special sanction of the Corporation. I am afraid it will lead to extravagance as has been the case whenever plague, influenza or small-pox takes a virulent type in Calcutta. I admit that under clause 95 such expenses are to be forthwith reported to the Corporation, but prevention is better than cure and the best course will be to have a special budget-grant for the said purpose specially sanctioned by the Corporation.

Clause 104.—The words "ten per cent" should be substituted by the words "fifteen per cent". It will appear from paragraph 14 of the Administation Report for the year 1920-21 that on the basis of ten per cent on the annual rateable value of lands and buildings of Calcutta the legal borrowing power of the Corporation was, on the 1st April 1921, two crores and a half. If the said rate is increased from ten per cent to fifteen per cent the legal borrowing power of the Corporation would go up to more than five crores of rupees. It is desirable that the said borrowing capacity should be increased, as the Corporation has just sanctioned an estimate of two crores and thirty-nine lakhs of rupees for the improvement of the water supply, and is likely to incur an expenditure of more than a crore of rupees for the improvement of the drainage. It is for want of finance that the Corporation has not been able to open out roads and the Improvement Trust will have also to incur a heavy expenditure for the improvement of Burra Bazar. I admit that the actual borrowing capacity of the Corporation is at present less

than the legal borrowing capacity, but the Corporation can increase the actual borrowing capacity by increasing the rates.

Under section 109 of the Bombay Municipal Act the Bombay Corporation can borrow up to double the rateable value of the premises in the city assessable to property taxes.

Taxation.

It is in the interests of the British Empire that Calcutta should be rendered as wholesome as possible. A serious epidemic such as plague or cholera seriously dislocates the whole trade of the East. The Imperial and Provincial revenues are impaired and heavy damage is done to commerce, trade and industry. It is therefore desirable that Imperial as well as Provincial revenues should bear reasonable proportions of the expenditure necessary for the improvement of the sanitation of Calcutta, but it is most regrettable that the landlords and residents of Calcutta are called upon to contribute a very substantial portion of the total expenditure for the improvement of Calcutta. It will appear from page 6 of the Administration Report for the year 1920-21 that out of a revenue of one crore and fifty-two lakhs of rupees, ninety-nine lakhs and a half was realized as consolidated rate from the owners and occupiers of lands and buildings of Calcutta, and only fifteen lakhs and a half was realized as taxes and fees from persons interested in trade, commerce and industry of Calcutta. It will appear from paragraph 133 of the Report of the Calcutta Building Commission, of which the Hon'ble Mr. Justice Trevelyan was the President, that in 1897 the Committee of the Bengal Chamber of Commerce expressed their opinion to the Government of Bengal that taxation in the city of Calcutta was almost at a maximum and that it pressed heavily upon all classes, so that the question of money was one as to which probably the Government might in the general interest of the Empire be called upon to come to the assistance of the city.

It will appear from page 12 of the appendix of the Administration Report for 1920-21 that the valuation of Calcutta in 1897 was 2 crores and 4 lakhs and that in 1921 it has been increased to 5 crores and 60 lakhs. Thus it will appear that if the proceeds of the consolidated rate were almost at a maximum in the year 1897, certainly the proceeds of the consolidated rate in the year 1921 must be much heavier or rather too heavy for the landholders and the residents of Calcutta to bear. I would therefore suggest that the Government of India as well as the Government of Bengal should contribute substantial sums for the improvement of Calcutta, as it is not only the citizens of Calcutta but the Government of Bengal as well as the Government of India are equally interested in the said improvements. Calcutta is not like a mufassal town, but as will appear from paragraph 134 of the report of Calcutta Building Commission, it is a large market which distributes to the West the products of the East and receives the products of the West for distribution throughout the Indian Empire ; and the city itself would by no means be the only sufferer by the destruction of its position in the commercial and financial world. I admit that the Government of India has a deficit budget and the financial condition of the Government of Bengal is not a very satisfactory one, I would therefore suggest an additional tax on the export of jute which may be imposed by the Government for contribution to the Calcutta municipal fund. Bengal has a monopoly of jute. Any additional tax on jute will not unduly hamper Calcutta trade in competition with other parts of India. This tax can be easily and economically levied. I admit that jute is already taxed for the revenues of the Government of India and the Calcutta Improvement Trust, but I do not think that an additional tax on jute will affect the export trade. On the contrary it will encourage the manufacture of jute-fabrics in Bengal. The Government of Bombay contributes large sums of money to the funds of the Bombay Corporation. A heavy amount of the sale-proceeds of judicial and non-judicial stamps of Bengal is paid by the citizens of Calcutta.

Clause 128.—The words "twenty-three" should be substituted by the word "twenty." The landholders and house-owners of Calcutta are generally to pay 19¼ per cent of the annual valuation of their properties and in addition they are to pay heavy income-tax and super-tax of the aggregate rate ranging from one anna in the rupee to six annas in the rupee under Schedule 3 of Act XII of 1922. Thus if a person gets a gross rent of two

lakhs of rupees per annum for his house property of Calcutta, he will have to pay for the repairs of the buildings which may be calculated at 10 per cent of the annual rent, pay the collection charges which may be calculated at 6¼ per cent, pay all the municipal rates which are at present 19¼ per cent, pay income-tax which is at the rate of one anna and-a-half per rupee or 9¾ per cent, and super-tax which is at the average rate of two annas per rupee or 12½ per cent, thus an aggregate rate of about 58 per cent. I have assumed in the above case that the existing consolidated rate will not be increased to 23 per cent and that the rent will include the owner's as well as the occupier's share of the municipal rates.

I may further add that under the Calcutta Rent Act, the operation of which is likely to be extended, a landholder can not demand even a fair rent, even if the market value of his lands increases and the cost of building materials also increases. It will thus appear that a big landholder of Calcutta has to pay about half of his income to the municipal authority as well as to the Government of India.

Clause 131.—The words "ten per cent" in line 9 of sub-clause (*b*) of this clause should be substituted by the words "fifteen per cent".

It is only huts or temporary structures which are generally erected in *bustees* or lands belonging to others. The cost of repairs of such huts or structures is certainly much higher than that of masonry buildings on lands belonging to the owners thereof. As 10 per cent has been taken as the cost of repairs of a masonry building, certainly 15 per cent can reasonably be taken as the cost of repairs of a hut in a *bustee*.

Clause 144.—The following words should be inserted after the words "appeal" in line 2, sub-clause (*l*) of this clause.

"Either to a Bench consisting of not less than three Councillors or Aldermen elected by the Corporation, or"

Under clause 113 of the Bengal Municipal Act any person who is dissatisfied with the amount assessed upon him by the Assessor has a right to apply to the Commissioners to review the amount of assessment or valuation. Under clause 114 of the said Act every such application shall be heard and determined by not less than three Commissioners who shall be appointed in that behalf by the Commissioners at a meeting. If the mufassal Commissioners are allowed to hear appeals against the decision of the Assessor, I fail to understand as to why the Municipal Commissioners of the city of Calcutta should not be allowed to hear such appeals. It will further appear from rule 1 of Schedule V of the Bill that a person dissatisfied with the assessment of license-fees, has a right of appeal to a Bench as suggested above. I fail to understand as to why a person dissatisfied with the assessment of his lands and buildings should not be allowed to be heard by the said Bench.

If the Municipal Commissioners of Calcutta are competent to award compensation for damages sustained for setting back buildings under section 352 of the Act, award compensation after refusal to permit erection of buildings under section 392, award compensation for demolition of buildings under section 446, hear appeals against the decision of the Chairman under sections 327, 375, 387, 447, 449, 463, 464, 466, 485, 497, 518 and 596 of the Act, they are certainly competent to hear appeals against the decision of their Assessor in connection with his valuation of lands and buildings of Calcutta, specially as the mufassal Commissioners are regarded as competent in determining the valuation of lands and buildings within their respective municipalities.

As in the case of a license appeal, the aggrieved party will have the option to submit his appeal to the Court of Small Causes. I admit that the work of the Bench will be a heavy one and therefore four such Benches may be established by the Corporation for the four districts of Calcutta, respectively.

Under the Madras Municipal Act of 1920, the Council may appoint a Committee consisting of the Chairman and not more than two other members of the Council to scrutinize the assessment books. Under the Municipal Corporation Act of 1882 in force in England, an aggrieved ratepayer has a

right of appeal to the Council in connection with the assessment of his holding.

The British Indian Association is of opinion that an objection to valuation which is of vital importance to a ratepayer should be heard and decided by a committee of four Councillors.

Clause 154.—The word "sixty" in line 3 of this clause should be substituted by the word "thirty".

It will be a great hardship on a house-owner if he is to pay the owner's share as well as the occupier's share of the municipal rates though his building may remain unoccupied and unproductive of rent for a period of 59 days. I admit that vacancy for a short period should be ignored, but I must say that a period of sixty days is a very long one.

Under section 174 of the Bombay Municipal Act, the period of vacancy after which remission is allowed is 30 days. That is also the law under section 187 of the Madras Municipal Act of 1920.

Proviso under clause 154 should be omitted. There is no such provision either in the existing Act or in any other Municipal Act of India. It is not even in the original Bill. I fail to understand as to why the right to remission of the consolidated rate for vacancy of a plot of land shall cease on the expiration of the period of three years.

There may be several reasons for the non-erection of a building such as poverty, high prices of building materials, bereavement of members of a family and depression of trade. Municipal rates are realized for services rendered in respect of a holding and I do therefore fail to understand as to why full consolidated rate should be realized in respect of a premises for which practically no municipal services are rendered. This provision has been strongly opposed by the Calcutta Corporation and it is regrettable that on the suggestion of the acting Chairman thereof the Select Committee by a majority have embodied it in the Bill.

Clause 160.—The words "or is valued at less than two hundred rupees" should be omitted from this clause.

I fail to understand as to why the owner of a premises valued at less than Rs. 200 should be enforced to pay even the occupier's share of the municipal rates though the occupier himself may agree to pay the same directly to the Corporation. There should not be one law for the rich house-owner and another for the poor house-owner.

Clause 162, sub-clause (1).—The proviso to sub-clause (*1*) of this clause should be omitted. There is no such provision under clause 180 of the Act. A commission of ¼th of the consolidated rate is not sufficient to meet the expenses for the collection of rates from the hut-owners and the losses for vacancy of lands and huts and the removal or destruction of huts. It will be most inconvenient for the Corporation to prepare rate bills if this proviso is not omitted. The number of huts belonging to owners of bustees may be taken as negligible. The British Indian Association is also of the said opinion.

Clause 162, sub-clause (*2*).—The words "subject to the terms of a contract to the contrary" should be inserted after the words "standing thereon" in sub-clause (*2*) of this clause.

Nobody now-a-days ventures to erect a hut on another's land, unless the latter grants a lease of the land for three years or even ten years, so that the tenant may not be at the sweet will of his landlord and be ejected on one month's notice without compensation for the removal of his hut. The *bustee* owner therefore enforces his tenant to pay all the municipal rates not only for his hut, but also for the land leased out to him. It is therefore desirable that the above words should be inserted.

Clauses 176 and 177.—These two clauses should be omitted. A dog should not be a source of income to the Corporation. There is no such provision in the existing Act. I do not think that an owner less dog is a

source of nuisance. Under the Calcutta Police Act of 1866, the Commissioner of Police can destroy stray dogs or ownerless dogs and therefore the provisions of clauses 176 and 177 are quite unnecessary.

Clause 176, sub-clause (1).—The words "a tax not exceeding Rs. 2 *per annum* may be imposed" should be substituted for the words "a tax not exceeding Rs. 5 *per annum* shall be imposed".

In the original Bill the maximum tax is Rs. 2 *per annum* intended to act more as a check than as a source of revenue. The Corporation has recommended the substitution of the word "shall" by the word "may" so that it may be quite at the discretion of the Corporation to levy such a tax.

The British Indian Association is of opinion that Re. 1 only *per annum* should be levied.

Clause 177.—The words "to be destroyed" in sub-clause (*a*) (*5*) of this clause should be omitted. A dog should not be destroyed simply on the ground that the owner or keeper of the dog does not pay the tax with costs. It would be inhuman to destroy a dog on the said ground. A dog is a useful domestic animal and serves the purpose of a constable specially at night.

This is also the opinion of the British Indian Association and the Marwari Association.

Clause 181.—The words "owner or" should be omitted. The practice of sub-letting is very common in Calcutta and it is therefore not at all likely that the owner should know the names and occupations of the persons to whom a building has been sub-let. Under section 201 of the existing Act, the occupier alone is called upon to furnish this information. This is also the recommendation of the Calcutta Corporation.

Clause 182.—Sub-clause (*b*) of this clause should be omitted. There is no such provision in section 203 of the existing Act. As will appear from the explanation, this provision has been made so that this scavenging-tax may be made payable by the owner of a market even if there be no animals kept therein. It is only the existence of animals in a market which causes nuisance owing to additional offensive matters, to remove which this scavenging-tax is levied, but I fail to understand as to why this additional tax shall be levied in the case of an ordinary market for the removal of the ordinary refuse therefrom. The owner of a market has to pay the owner's share and occupier's share of the municipal rates license-fee for the ownership of a market and also pay license-fees on behalf of the stall-keepers of the market. The greater the tax on a market, the higher would be the prices of fish, vegetables and other necessaries of life.

Clauses 184 and 185.—These clauses should be omitted. There should be no tax on petroleum in addition to what is levied by the Government of India. There was a time when lighting with kerosine-oil was a luxury, but now-a-days such lighting is restricted to the poor people of Calcutta. I am strongly opposed to additional taxation on the poor people of Calcutta. No such tax on petroleum has been levied by the Corporation, though there is a distinct provision in the existing Act.

Clause 186.—In sub-clause (*1*) after the word "Howrah" the words "or the adjoining municipalities of Calcutta" should be inserted.

The registration of a cart is necessary for the prevention of the theft of goods by the carter. A person carrying goods in a cart cannot be expected to drive with it. He simply takes down the registration number and in the absence of the cart reports the matter to the police authority so that the carter may be detected. The commerce of the port of Calcutta is not now limited to the towns of Calcutta and Howrah, but has expanded to the adjoining municipalities of Calcutta, namely, Garden Reach, Tollygunge, Maniktala and Cossipore-Chitpur.

This is also the opinion of the British Indian Association and the Marwari Association.

Clause 213.—This clause should be omitted. There is no such provision in the existing Act. There should not be one law for the poor hawkers and another law for the rich as for instance brokers who may not have any fixed place of business in Calcutta.

Clause 219.—In this clause the words "and if the Corporation so direct, also in the filtered water system" should be omitted.

Filtered water should not be used for street watering and washing down drains and flushing street gullies; it is only in the case of a fire that it can be so used. It is very costly to manufacture filtered water. It is not less than 4 annas per 1,000 gallons while we can get a sufficient supply of unfiltered water from the river Hooghly and its cost is nothing in comparison with that of filtered water. Therefore it is only for domestic purposes that filtered water should be used, and for every other purpose unfiltered water should be used.

Clause 220—The words "street watering, drain flushing of" in paragraph 2 of this clause should be omitted. The minimum pressure of unfiltered water should be 40 feet except during fire. Drains are not properly flushed owing to the low pressure of unfiltered water. This is the reason for the outbreak of typhoid and other similar diseases. It has been noticed that the outbreak of typhoid, plague and cholera subsides after a heavy downpour of rain for two or three days continuously. This shows that the drains of Calcutta are not properly flushed owing to the inadequate supply of unfiltered water.

This is also the opinion of the British Indian Association and the Marwari Association.

The proviso of this clause should be omitted. It is practicable to keep up a pressure of at least 40 feet of unfiltered water specially as it is pumped from the river Hooghly in front of Calcutta. It is also practicable to increase the pressure of filtered water and have it equally distributed by increasing the supply and the laying down of sufficient distribution mains in the southern suburbs of Calcutta. The outbreak of cholera in the southern suburbs of Calcutta is due specially to the low pressure of filtered water. Therefore, the Corporation should be enforced by law to keep up a pressure of at least 40 feet of the supply of filtered and unfiltered water.

I may draw the special attention of the Council to the following opinion of the Secretary in the Public Works Department of the Government of Bengal :—

> "The minimum pressure equivalent to 40 feet, which is the same as that laid down in the existing Act and which was framed 20 years ago when there were few buildings more than two storeys in height, is insufficient to meet the present conditions."

Further, this proviso renders this "minimum" meaningless. At the present time the pressure in many of the filtered water mains is not more than twenty feet, and in some as low as ten feet and less The result of the qualifying clause would be that the pressure of 40 feet instead of being treated as a "minimum" would come to be regarded as a "maximum". Further, there is no clause under which the "minimum" can be enforced.

It is regrettable that though the same water-rate is realized from all the rate-payers of Calcutta no remission can be asked for by a person who gets practically no supply of filtered water, as in the southern portions of Wards 23 and 24.

Clause 224.—This clause should be omitted as recommended by the Corporation. The Corporation should not be empowered to cut off the supply of filtered water at any time even for trading purposes such as the manufacture of ice and ærated waters. If a person erects a mill for the said purposes on the assurance of the supply of filtered water it will be a source of hardship on him if the said supply is all on a sudden cut off without sufficient previous notice thereon. The working of this clause will discourage the erection of mills for the manufacture of ice and ærated waters in Calcutta.

Clause 225.—The words "fifteen hundred gallons" in line 4 of this clause should be substituted by the words "two thousand gallons".

An ample supply of water is a necessity on account of the hot climate of Calcutta and specially amongst the Hindus, on account the several religious ceremonies.

The word "twenty-five" in line 4 of proviso (*a*) of this clause should be substituted by the word "twenty" as in the original Bill.

The supply of filtered water in the southern suburbs of Calcutta is very short and quite inadequate owing to the great distance of the said area from the pumping station at Talla. The residents of Wards 23, 24 and 25 are not getting such supply of filtered water as they require or are entitled to get. The concession of a free allowance of 20 gallons of filtered water per head per day is really a concession to the residents of the northern division of Calcutta at the cost of the residents of the southern division of Calcutta. If the free allowance of 20 gallons is increased to 25 gallons the supply of filtered water in the southern division of Calcutta, specially in Wards 23, 24 and 25, will be materially less than what it is at present and less than what they would be entitled to get. There should be equitable distribution of filtered water in every part of Calcutta.

The words "or more than fifty" in sub-clause (*a*) of this clause should be omitted.

This is also the opinion of the British Indian Association and the Marwari Association.

I fail to understand as to why there should be a restriction to the supply of filtered water when there is no restriction to the amount of rates payable in connection with the lands and buildings of Calcutta.

I admit that the number of inmates of a big residential building of Calcutta are not very high, but in the case of a Hindu joint family the consumption of filtered water is very high, specially during marriage and religious ceremonies. It appears to be inconsistent that the quantity of water supplied should not be proportionate to the amount of rates paid in respect of masonry buildings. Under the existing Act there is no such restriction.

Clause 227.—The word "sufficient" should be omitted from line 6 and line 7 of sub-clause (*l*) of this clause.

It is not possible for the owner of a building in the southern division of Calcutta to secure sufficient supply of filtered water for his tenants, as the supply of the said water is quite insufficient in the said portion of Calcutta.

Clause 233.—I would accept the suggestions of the Port Commissioners stated in paper No. 4 and substitute the following for clause 233 on the grounds stated therein:—

(*i*) Filtered water for domestic purposes on ships for the time being lying in the port of Calcutta may be taken free of charge from public stand-posts or from any taps on the Port Commissioners' premises which ships may be allowed to use.

(*ii*) The Corporation shall on demand supply every ship leaving the port of Calcutta with a reasonable supply of filtered water for use on the voyage at such price not exceeding five rupees for every thousand gallons as the Corporation may determine.

Clause 248.—The word "or" before the words "in respect of such premises" in sub clause 1(*b*) should be omitted.

If a person does not pay any rate or tax in respect of a premises there should not be any objection if the supply of filtered water to that premises is cut off, but it would be unreasonable if the supply of filtered water of his dwelling house is cut off for his default in the payment of municipal rates and taxes in respect of any other premises. I do not think that can be the intention of the legislature. In connection with this question I may draw the attention of this Council to the opinion of the Indian Association, which does not hesitate to condemn the whole of this clause. Cutting off the water supply for the non-payment of rates and taxes should not be allowed and a tenant should not suffer for the default of his landlord.

Clause 268.—The words "owner of the land on which such hut stands" in clause 4 of sub-clause (*2*) of this clause should be substituted by the words "owner of the hut".

Lands in bustees are let out for the erection of huts thereon on the distinct understanding that the tenants would construct drains and privies for the huts to the erected by them at their own cost. I do therefore fail to understand as to why the owner of the land should be called upon to construct drains and privies for the said hut and even be prosecuted for non-compliance.

Clause 301(3).—Provision should be made in this clause for ascertaining the compensation to the owner and occupier of a building or fixture for the removal or alteration thereof. The executive generally offers the cost of materials of the building or fixture removed less the cost of removal, while the owner claims compensation on the basis of the capitalized value of the loss of rent incurred by him for the removal or alteration, and the occupier claims compensation for the loss of earning due to the said removal. I think that the latter is the correct interpretation of the section and it should be embodied in the section to avoid civil dispute between the Corporation and the aggrieved parties.

Clause 303.—The words "building line" should be omitted from this clause. It would be a source of great hardship if a person is enforced to keep open space except for the widening of the road in front. It will increase the rents of buildings. I admit that this will improve the sanitary condition of the building, but an Indian following the *pardanashin* system prefers to keep open space at the back or have a big courtyard for the convenience of his ladies.

Clause 304 (1a).—A period should be stated in sub-clause (*1*) (*a*) within which the Corporation should not enforce the owner of a building falling within the street alignment to remove it, as the owner generally hesitates to give an undertaking contemplated in sub-clause (*1*) (*a*). There is no harm in doing so, as the execution of the agreement is not generally enforced and buildings falling within street alignments removed within a short period.

Clause 304.—Sub-clauses (*3*) and (*4*) should be omitted. I admit that no building should be allowed to be erected within a street alignment, otherwise it will be too costly to open out a new street or widen an existing street. But I fail to understand as to why a building line should be prescribed and as to why no building should be erected between a street alignment and building line. There is no such provision in the Act corresponding to the said sub-clauses.

Clause 309.—The words "building line on each side of them" should be omitted from sub-clause (*1*) of this clause on the grounds stated above in connection with clause 304.

Clause 311.—The word "special" should be inserted before the word "sanction" in line 1, sub-clause (*2*) of this clause.

I agree that the lands beyond the street alignments should be acquired to recoup the cost of construction of a new public street. But I am extremely sorry to state that under clause 311 the Corporation generally abuses the power entrusted to it under the clause. I fail to understand as to why premises, no portion of which falls within the alignment of the projected street, should be acquired and as to why the Corporation should make a profit in the opening of a public street, specially as it is the primary duty of the Corporation to open up new streets and it is thus authorised to raise the rates and taxes to meet the expenditure thereof. It is therefore necessary to have the special sanction of the Local Government so that this power may not be abused, specially as the Corporation is vitally interested in it as the greater the area of additional land acquired, the better it would be for the Corporation. I admit that such land should be acquired for the said purposes but private rights should not be trampled down as they are at present. There are cases in which big plots of land beyond the street alignment have been acquired on the plea of widening an existing street by a few feet only.

Clause 312, sub-clause (4), line 5.—The words "two-thirds" should be substituted by "half".

As will appear from the report of the Calcutta Building Commission appointed by the Government, of which the Hon'ble Mr. Justice Trevelyan was the President, it is not only the owner of the adjoining land but the public as well who are benefited by the opening up of a new road. As the owner of the land has been paying rates, he is entitled to have his land improved by the opening of new roads. The said Commission thereupon recommended that half of the cost of improvement should be realized from the owner.

In acquiring a plot of land with buildings thereon the Corporation shall have to pay compensation not only for the acquisition of the land and buildings but also statutory allowance at the rate of fifteen per cent, and also compensation for the loss of earnings if business is carried on in the said buildings. The Corporation shall have to pay interest for, say, two years, on the said sums before the said improvement is executed. The present market value of lands is generally underestimated and the prospective value of lands after the improvements is generally over-estimated.

Clause 312, sub-clause 6 (i), line 4, and sub-clause 6 (2), line 6.—The words "seven per cent" should be substituted by the words "six per cent".

In the original Bill there is a fixed rate of 6 per cent *per annum*. In the existing Act, the annual fee is 4 per cent *per annum*. The increment of rate of interest has not been asked for even by the Corporation.

I admit that the rate of interest paid by the Corporation on municipal loans is at present about 6 per cent *per annum*, but the tightness of the money market will not last for ever. The Corporation should be lenient as regards the rate of interest on the profits realized from the owners of adjoining lands by the opening out of public streets, which, is their duty to do. Even the Calcutta Improvement Trust does not charge interest at more than 4 per cent *per annum* on such exemption fees. I admit that the maximum rate of interest is seven per cent, but the Corporation being an interested body is not likely to charge a lower rate of interest.

Clause 312, sub-clause (10), line 5.—The word "seven" should be substituted by the word "six" on the above grounds.

Clause 313.—The word "seven" in line 7 of this clause should be substituted by the word "six" on the grounds stated in connection with clause 312.

Clause 314.—It will be a source of great hardship if any land in respect of which exemption fee has already been realized is again acquired, not for opening of a street but simply to recoup the cost of construction of the said street. It should therefore be provided that no land for which exemption fee has been realized should be acquired again or charged again for exemption fee, except for the opening or widening of a street.

Clause 315.—It is generally found that a person owning a big plot of land divides it into several plots and disposes of them for the erection of substantial buildings, leaving common passages of five or six feet in width. After the disposal of the said plots nobody takes care of the said passages. which become impassable during the rains and inaccessible to carts and carriages The sanitary condition of the block is also seriously affected. It is therefore desirable that some provision should be made in the Municipal Act, so that before the disposal of the said plots and the erection of buildings thereon the owner of the mother land may construct and drain a street of the width ranging from 15 feet to 20 feet. Thus the said buildings may be well ventilated and become accessible to carts and carriages. But I am sorry to state that the remedy which has been provided in clause 315 is worse than the disease. I fail to understand as to why the minimum width of such streets inclusive of space for foot-paths should be not less than 40 feet, or in a *bustee* 20 feet. A street of the width ranging from 15 to 20 feet for access to a block of buildings will suffice. The stringent regulations in connection with private streets stand in the way of the improvement of the undeveloped areas. It is desirable that the opening up and the construction of private streets should be encouraged, which can not be done unless the provisions are moderate and reasonable.

The first proviso to sub-clause (*2*) of this clause should be omitted as the width of a private street need not be more than 20 feet.

Clause 322.—Sub-clause (*i*) of this clause should be omitted, as it is unnecessary to have a licensed building surveyor, who is likely to charge very high fees. There is no such provision under the present Act. This is also the opinion of the British Indian Association.

In sub-clause (*3*) of this clause the words "three years" should be substituted by the words "one year". This will check the conduct of the licensed building surveyor. Under section 355 of the Bombay Municipal Act the renewal period of lease is one year only.

Clause 323.—Sub-clause (*2*) of this clause should be substituted by the following :—

> The Corporation may from time to time prescribe a scale of fees to be paid to the licensed building surveyor and no such surveyor shall demand or receive more than the fee so prescribed.

If licensed building surveyors are appointed at all their charges should be moderate and they should not be allowed to levy exorbitant charges as apprehended. It has been admitted even by the City Architect of the Corporation that building surveyors generally charge up to five per cent of the cost of the buildings for the preparation of designs of buildings and supervision thereof.

I am afraid lest the said surveyors charge even 10 per cent of the cost of the building for the said work when the appointment of such surveyors would be compulsory, as provided in rule 57 of Schedule XVI, when the rate is so high as 5 per cent when the appointment of such surveyor is optional.

The words "in the absence of a written contract to the contrary" will nullify the object of the Corporation in prescribing the schedule of fees. There should not be one law for licensed building surveyors and another law for licensed plumbers, for, as will appear from clause 294 of the Bill, no licensed plumber can demand or receive more than the charge prescribed by the Corporation.

Clause 324.—This clause should be omitted. This is unnecessary and there is no such provision in the present Act. I fail to understand as to why the plan prepared and submitted by the owner of a house should not be accepted by the Corporation, even if he possesses the necessary engineering qualifications. The greater the restriction, the greater will be the charge. It will unnecessarily increase the cost of a new building. If the said clause be not omitted, the words "new building" should be substituted by "new masonry building". Huts should be exempted from the operation of this clause, as, owing to the poverty of persons intending to erect huts the plans thereof are prepared by the Corporation officers at a nominal fee of one rupee.

Clause 325.—Sub-clause (*1*)(*a*) of this clause should be omitted.

Enforcement of the improvement of the architectural feature of the frontage of a building causes hardship. The owner of a building is under the painful necessity of incurring heavy expenditure to beautify the frontage of his building and he is obliged to pay heavy sums as rates. Sanitation is preferable to beauty. It will be better, if he is enforced to keep more open space than to incur heavy expenditure simply for the beauty of the building.

Sub-clause (*1*)(*b*) of this clause should be omitted. Under rule 23 of Schedule XVI of the Bill, in localities where the erection of detached building is allowed, the total area covered by all the buildings on any site used for dwelling houses shall not exceed only one-third of the total area of the site. I fail to understand as to why in one locality of Calcutta the area of open space is to be only one-third of the total area where in another locality the area of open space is to be two-thirds of the total area. It may be said that there is such a provision in the present Act. But since 1899 circumstances have materially changed. The jungles of Durgapore

and the low lands of Ballygunge have now been converted into sanitary buildings, suitable for European residence. The paddy-fields of Dhakuria no longer exist. The price of lands, even in the southern suburbs, has materially increased and therefore it will be a source of great hardship if one is enforced to keep an open space of two-thirds of the total area. It will depreciate the market value of land in the localities, where the erection of only detached buildings will be allowed and appreciate the market value of land in localities in which there would be no such restriction.

Sub-clause (*1*)(*e*) of this clause should be omitted. I fail to understand as to why the erection of huts will require the special permission of the Corporation. I admit that no insanitary hut or a hut with inflammable materials should be allowed to be erected. But I fail to understand as to why a poor person who can not afford to erect a masonry building should not be allowed to erect a hut, if it is constructed in conformity with the building regulations and has proper drainage arrangements. There should not be one law for the rich and another for the poor.

The British Indian Association is also of opinion that sub-clause (*1*)(*a*) and (*1*) (*b*) should be omitted.

Clause 326.—The words "twelve feet wide" in sub-clause (*1*)(*b*) of this clause should be substituted by the words "eight feet wide".

There is no such provision in the present Act. We can not expect the construction of a masonry building abutting on a street of the width of 40 feet. It will suffice if the width of a passage be 8 feet only. This will be sufficient not only for pedestrians but also for a carriage or a cart to enter into the premises.

This is also the opinion of the British Indian Association and the Indian Association. Even the Corporation and the chief Building Surveyor thereof are of opinion that it will serve the purpose if the passage referred to in this sub-clause is made 9 feet wide.

Clause 329.—Proviso (*1*) should be omtted. Under section 391 of the existing Act the General Committee have discretionary power to sanction plans for alteration of or additions to existing buildings, even if the building regulations are infringed. The Corporation and even the Deputy Chairman thereof have suggested to restorethe provisions of the said section of the existing Act. I do therefore fail to understand as to why there should be some restriction to the discretionary power of the Corporation in the relaxation of building regulations in the case of alterations of and additions to existing buildings.

As a member of the Building Sub-committee of the General Committee of the Calcutta Corporation for more than 15 years, I may state that it is on the recommendation and even on stronger grounds that such relaxation of building regulations is made. I do not think the General Committee have abused the powers entrusted to them under section 391 of the existing Act.

Clause 333.—The words "with a free passage in front and behind of each line" should be substituted by the words "with a free passage in front of and open space behind each line".

I admit that there should be passage in front of each line of huts free to municipal carts for scavenging purposes, but I fail to understand as to why there should be such a passage behind the said line. It will suffice if there is open space behind the said line of huts as in the case of masonry buildings.

Clause 339, sub-clause (5).—This sub-clause should be omitted. There is no such provision in the existing Act.

Clause 342.—The words "the owner of the *bustee*..... Municipal Fund" should be substituted by the word "Corporation".

The improvement of a *bustee* causes the improvement of a locality in which it is located, and as the public are benefited thereby, the Corporation should make a contribution towards the improvement of the *bustee*. I fail to understand as to why all the expenditure for the improvement of a *bustee*

should be borne by the owners thereof. It will be a source of great hardship on the owner of a *bustee* if, in addition to the expenditure he shall have to incur in the construction of streets, common privies and bathing platforms, he is called upon to pay compensation to the owners of huts for removal thereof.

This is also the opinion of the British Indian Association and the Marwari Association.

Clause 347.—Sub-clause (*2*) of this clause should be omitted. A tank serves the purpose of open space and therefore it should be taken into account in calculating the aggregate area of open space in a *bustee*. As it is compulsory on the part of hut-owners to keep an open space of twelve feet between alignments of huts and the owners of *bustees* to keep an open space of sixteen feet and twelve feet for streets and passages, it will be a great hardship on the owner of a *bustee* to keep such a large open space and on the owners of huts as well, as their rents are likely to be unusually increased by their landlords.

This is also the opinion of the British Indian Association and the Marwari Association.

Clause 349.—After the words "the Corporation may require" in sub-clause (*2*) of this clause the words "for the improvement of a bustee" should be inserted. All other purposes of this Act appear to be too wide and the municipal officers to whom the Commissioners may delegate their powers may utilize this power for the convenience of the public at large. If the public are allowed to drive carts and carriages on these private streets the owners of these streets will be under the painful necessity of repairing them now and then, thus incurring expenditure for the convenience of others, which they should not be called upon to do. This is also the opinion of the British Indian Association as well as of the Marwari Association.

Clause 354.—In sub-clause (*3*) of this clause the words "six months" should be substituted by the words "one year". In the suburban wards of Calcutta the tenancy is generally from year to year instead of from month to month, as in the town proper. If a tenant refuses to remove a hut or otherwise comply with the municipal requisitions, the only course left to the landlord is to eject the tenant. Before the landlord institutes a suit for ejectment he shall have to serve a notice to quit at least six months before the date of ejectment. It takes a long time for a Civil Court to grant a decree for ejectment. The period of six months is, therefore, quite insufficient for a landlord to cause the removal of all the huts, even if he offers to pay compensation for the removal of huts, though he is not bound to do so.

This is also the opinion of the British Indian Association and the Marwari Association. This was also recommended by the Corporation. I admit that the Corporation may allow further time, but why should a person be at the sweet will of the Corporation, when as a matter of fact it is impossible for him to comply with the requisitions within six months?

Clause 354, sub-clause (7).—The words "which is in excess of one-seventh of the entire area.....the *bustee*" in the last three lines of this sub-clause should be omitted. I fail to understand as to why a person should not get full compensation for the opening up of a road or passage through his land, which will not benefit him but will benefit the tenants of the adjoining *bustees*, even if he causes the removal of all the huts of his land and intends to erect substantial, sanitary, masonry buildings thereon. It thus appears that it is a curse to be a *bustee* owner of Calcutta.

Clause 356.—This clause should be omitted. There is no such provision in the existing Act for Calcutta and even that for Bombay. It appears that there is one law for the rich and another for the poor. There is no such provision in the case of masonry buildings falling within street alignments. On the contrary, if under sub-clause (*2*), clause 304 of the Bill, the Commissioner refuses to grant permission for the erection of, or addition to a building within a street alignment, the Corporation is bound to acquire the site and pay compensation for the same. Similar provision may be made in the case of huts. If the Corporation is of opinion that all huts falling

within a *bustee* street alignment should be removed, it must pay compensation to the poor owners of huts affected. It is not a fact that the period of five years is sufficiently long to allow for the life of a hut. Huts may be divided into three classes, namely corrugated iron sheds, tiled huts and *golepata* huts. I admit that the life of a *golepata* hut is not more than five years, but the life of a tiled hut is not less than ten years and that of a corrugated iron shed not less than fifty years. Corrugated iron sheds constructed fifty years ago appear even now as new, and it will be a source of great hardship to the owner of such a shed to be called upon only after five years to remove the shed without adequate compensation.

If the said clause is not omitted, then I would suggest that the words "five years" be substituted by the words "seven years in the case of a *golepata* hut, ten years in the case of a tiled hut and fifty years in the case of a corrugated iron shed". This will be consistent with the life of a shed in accordance with the materials it is constructed of.

The words "owner of the land or the owners or occupiers of" should be substituted by the words "owners of".

It is only the owner of a hut who should be called upon to remove it. It is useless to require an occupier to do so as he is quite helpless and has no interest in it. I fail to understand as to why the owner of the land should be enforced to remove a hut, which does not belong to him and over which he has no control. It must not be presumed that all *bustee* tenants are tenants-at-will. In the case of an obstinate tenant it will take a long period for the owner to remove the hut. It would be a pity if the owner of the land is prosecuted and fined for the *laches* or obstinacy of his tenants.

In sub-clause (*2*) the words "but such compensation.....materials thereof" in the last three lines of this sub-clause should be omitted.

It would be most inequitable if a poor man is enforced to remove the hut without adequate compensation. The British Indian Association and the Marwari Association are also of opinion that clause 356 should be omitted. There is no such provision in the Bombay Act or any other Municipal Act of India.

Clause 357.—After this clause the following should be inserted: "and the Corporation shall pay adequate compensation for the value of the sub-soil of the street or passage as well as for the clear space as stated above".

It will appear from sub-clause (*1*), clause 349 of the Bill, that every street or passage in a *bustee* shall be deemed to be private, and the portion thereof which falls on the land of each owner shall belong to such owner. If the said private street or any portion thereof is converted into a public street the owner must be paid compensation therefor. As the clear space between the alignment of a street or passage in a *bustee* and the building line is intended for the widening of the said street or passage, and as the owner of the land can not utilize it for any purpose, the land must be acquired and the owner paid compensation therefor by the Corporation. It will be a great hardship on the owner of a *bustee* if he is called upon to make a free gift of land for 30 feet in width for the widening of a passage of 12 feet in width of which he is the absolute owner.

This is also the opinion of the British Indian Association and the Marwari Association.

Clause 358.—This clause should be omitted. As the owners of *bustees*, which are nothing but blocks of huts pay the same rates to the Corporation as the owners of the blocks of masonry buildings do pay, and as the latter are not enforced to pay for the cleansing of blocks of masonry buildings, I fail to understand as to why invidious distinction has been made between owners of remodelled *bustees* and those of other *bustees*. Any taxation on the owner of a *bustee* means additional taxation on the owners of huts; consequently on the occupiers of huts. Thus the owners of *bustees* will simply act as collectors and the occupiers of huts who are very poor will have to pay for the same. The poor are already over-burdened with taxation and it is with the greatest difficulty that they pass their livelihood. It will therefore add to their sufferings if further taxation be levied on them through the *bustee* owners.

The British Indian Association is also of the said opinion.

Clause 359.—This clause should be omitted. An establishment should no doubt be maintained for cleansing the *bustees* which are hotbeds of cholera, plague and small-pox, but the cost must be met by the Corporation, otherwise the said diseases will spread like fire and attack the occupiers of masonry buildings. Thus, by the conservancy of a *bustee*, it is not only the occupiers of the *bustee* but the public at large are benefited. I think the payment of the consolidated rate discharges one from responsibility for the conservancy of the locality in which he resides. There should not be one law for the rich and another law for the poor.

Clause 363.—That the following clause be inserted after sub-clause (*c*) of this clause :—

(*i*)(*a*) The Corporation may take measures for lighting the private streets.

Though there is no such provision in clause 422 of the existing Act, most of the *bustee* streets of Calcutta which are private streets are lighted by the Corporation with oil lamps. This amendment will legalize the expenditure for the same. The *bustee* owners are called upon to improve the *bustee* streets at heavy cost for the convenience of their tenants, but they are generally used as thoroughfares by the public at large. It will be most inconvenient if these oil lamps are removed. Lighting of a *bustee* street will promote the public safety and convenience. It will certainly reduce the number of crimes of Calcutta.

This is also the opinion of the Marwari Association and the British Indian Association.

Sub-clause (3).—This sub-clause should be omitted. I fail to understand as to why a private person should not be entitled to get compensation for damage or nuisance caused by an officer of the Corporation in the discharge of any duties referred to in this clause. It is contrary to the principle laid down in the Indian Electricity Act.

This is also the opinion of the British Indian Association and the Marwari Association.

Clause 366.—The words "or where open space is available, within" should be omitted from the last two lines of sub-clause (*1*) of this clause. There is no such provision in clause 430 of the existing Act The deposit of offensive matter within the premises will seriously affect the health of the inmates of the said premises.

Sub-clause (3).—The words "or in some portion of such premises" should be omitted from sub-clause (*3*) of this clause. It will be a source of nuisance to the inmates of the premises if an offensive matter is enforced to be accumulated within the premises.

Sub-clause (4).—This sub-clause should be omitted. I admit there is such provision in the existing Act, but all the members of the District Committee of District No. IV have strongly recommended to the Chairman not to enforce it. Taking into consideration the habits of Indians, this provision of the Act is unworkable. If this is enforced, the people will be under the painful necessity of accumulating offensive matter within the premises for a long period, except the period referred to in this sub-clause. It will thus injuriously affect the health of the inmates of the premises. Sites suitable for the accumulation of offensive matter cannot be expected to be in Indian houses.

Clause 367, sub-clause (a)—should be omitted. Though it is provided in the existing Act, it is not generally enforced. The occupier of the premises referred to in this sub-clause cannot be expected to comply with the requisition of this clause as it would be most inconvenient and too costly for him to do so.

Clause 371.—Sub-clause (*b*) of this clause should be omitted. Though it is provided in the existing Act, it is not enforced. I fail to understand as to why the Corporation should interfere with the discretion of a person to use a private place for bathing and other purposes referred to in sub-clause (*a*).

Clause 388 (2).—Some efforts should have been made in the Bill to ensure the purity of the milk supply in Calcutta, but I regret to say that nothing has been done to ensure its increase.

It is the bounden duty of the Corporation not only to see that the milk supplied is pure, but also to see that the supply is adequate.

The adequacy of milk supply, as I will presently show, is inseparably connected with the question of the slaughter of cows. Shortage of milk supply is admittedly due to shortage and deterioration of the quality of cattle; and this shortage, as has been shown by facts and figures by the All-India Cow Conference, an Association of which the President is the Hon'ble Mr. Justice Greaves of the Calcutta High Court, is largely if not mainly due to the indiscriminate slaughter of cattle. This indiscriminate slaughter of cattle which is taking place without any control or check, now requires our immediate attention. The All-India Cow Conference and the Cow Preservation League, of which the Hon'ble Sir Ashutosh Mukharji is the President, have recommended for introduction in the Calcutta Municipal Bill certain definite provisions for the restriction of the indiscriminate slaughter of cattle, specially prime cows, in the municipal slaughter houses of Calcutta, but the majority of the Select Committee have not done this evidently as they appear to be under the impression that the proposal involves religious question.

The restriction of indiscriminate slaughter of cattle is not at all advocated on any religious sentiments but purely on economic grounds.

Sir John Woodroffe and Mr. Justice Greaves, the past and present Presidents of the All-India Cow Conference, cannot by any stretch of imagination be accused of being actuated by any religious motives in giving a lead to this movement. Some of the members of the Cow Preservation League are Christian and Muhammadan gentlemen of eminence. The members of the various Provincial Councils and of the Legislative Assembly and of the Council of State who brought forward in those bodies resolutions on this subject were not actuated by any such sentiments. The various municipalities in Bengal and elsewhere have prohibited the slaughter of cows and lastly the Government of the Central Provinces, by notification No. 1236-955-XIII, dated 31st May 1922, have prohibited the slaughter of all cattle below the age of 9 months, slaughter of all pregnant animals and animals in milk and of all cows.

The fact is that the preservation of cows and other milch animals is an economic problem, and in our country, which is mainly agricultural, the problem of milch and agricultural cattle is and should be quite naturally one of the most important problems which require the serious and urgent attention of those who have the welfare of the country at heart. The situation has become so acute that the Government and the public can no longer shut their eyes and remain inactive for fear of false issues and false alarms.

That the number of cattle is inadequate is evident from a comparison of the proportion of cattle to population in India with the other agricultural countries of the world. According to the latest Cattle Census Report, the total number of cattle in British India is about 145 millions, out of which about 50 millions are milch cattle, 50 millions are plough cattle and the rest male buffaloes and young stock. The population of British India is 244 millions, and the acreage under cultivation is 228 millions. The number of cattle in Australia per hundred of population is 259, in Uruguay in South America 500, but in India it is only 59. A pair of bulls is available for 19 acres, but it has been estimated that for every two acres of cultivated land a pair of bulls is necessary

The shortage of bulls is therefore quite out of proportion to the needs of the country. The number of milch cattle is also scarcely enough to supply one-eighth of the present population with a fair quantity of milk. Up to a very recent time, milk and all its by-products formed the most important nourishing food of the majority of the Indian population. But at present, owing to shortage of milk supply, it is considered more a luxury than a necessity. According to medical authority, we require two pints per head per day, but in proportion to population we cannot even get a quarter of a pint. At one time we could get good milk at 40 seers a rupee. Now we cannot get good milk at even 3 seers a rupee, and there are places where you will not get milk for love or for money.

So milk, butter and *ghee* and *dahi*, which formed the frugal food of Indians, are not available to them now. The result is that notwithstanding the sanitary measures taken up by the local authorities, the vitality of the nation is being deteriorated and deterioration in physique leads to chronic diseases like cholera, malaria, influenza, tuberculosis, etc. The quality of all kinds of cattle has very much deteriorated and is still deteriorating. Indian milch cattle in Akbar's time as we find in *Aine-Akbari*, used to give 20 quarts of milk a day and draught cattle could walk faster than horses. Only a decade or two ago, country cows used to give about 5 seers of milk per head a day on an average, while they now give only 2 seers on an average.

This unsatisfactory state of things both as regards the number and quality of cattle has led to an abnormal rise in price of cattle, food-grains, milk and milk-products on the one hand, and on the other hand to the poor physique of the population, prevalance of disease and abnormal death-rate among the people, especially amongst women and children. The infant mortality in India is appalling, being nearly double that of the United Kingdom, Denmark and Japan, about 3 times that of Norway and Sweeden, about 5 times that of Holland and the United States and nearly 9 times that of New Zealand.

The percentage of infant mortality is greater in the towns than in the villages. In Calcutta, the number of infant mortality is 350 a year per thousand of population and amongst Muhammadans the number is 500. It has been stated by high sanitary authority which admits of no doubt that the want of pure and abundant supply of milk is the primary cause of the heavy infant mortality prevalent in India. In answer to my questinn the Hon'ble the Minister in charge of the Department of Health and Local Self-Government said on the 7th February, 1921, "Government are aware that scarcity of good cow's milk is one of the causes of high infantile mortality", Colonel Mactaggart, Sanitary Commissioner of the United Provinces, points out that by cheapening the price of milk so as to bring it within the reach of the poorer classes, more would be effected towards reducing infant mortality than the presence of any number of trained midwives would accomplish.

The labours of the All-India Cow Conference Association in this field are highly praiseworthy and deserve the highest commendation of Government and of every thoughtful man of our country. By the researches of the Association presided over by Sir John Woodroffe and as a result of their enquiries, and from a perusal of the reports on the subject in official and non-official publications, the following facts were gathered, viz :—

(*a*) A lack of pasture and of fodder. The pasture lands are already inadequate and they are being yearly encroached upon. The growing of fodder-crops is also insufficient.

(*b*) A lack of good bulls for breeding purposes. the diversion of Brahmini bulls to other purposes encouraged by judicial decision of the High Court, the general indifference of the well-to-do classes towards cattle keeping and cattle breeding.

(*c*) The indiscriminate slaughter of milch-cows and other cattle for the purposes of food, the meat-trade and the trade in hides, and the higher the prices of hides, the greater is the number of cattle slaughtered.

(*d*) The uncontrolled export of the best breeds of cattle out of India as also the transport of cattle from one province to another.

(*e*) Prevalence of such cruel practices as the *phooka* resulting in the sterility of prime cows.

(*f*) Want of veterinary treatment and hospitals to cope with cattle diseases.

One of the chief causes contributing to the shortage of cattle and consequent shortage of milk supply is the indiscriminate slaughter of cows, especially prime cows.

Out of a total stock of 115 millions of cattle in India, about 10 millions are annually slaughtered, namely one million for the Burma dried meat trade, 5 millions for the trade in hides, one million for the army and 3 millions for civil population. In Calcutta, in the Tangra slaughter house, the number of cows and bullocks annually slaughtered is about one lakh and a large proportion of them are in the best of health and of good breed. Mr. C. F. Payne,

our late Chairman, says, in his paper read at the All-India Cow Conference held on the 30th December 1917: "The main difficulty that the Calcutta *goala* has to face is the keeping of his cows while they are dry. The Calcutta cow-sheds are built upon valuable lands and the municipal regulations are strict. Space is limited, the number of cows which can be kept is restricted and feeding is expensive. The result is that the *goala* can not afford to keep any cows which are not in full milk. The result is that, as he has no place to send his cows to, he has to sell them to the butcher after their first lactation period. This is obviously a very wasteful process, involving a constant drain upon the best cattle in the country."

The prevalence of *phooka* practice is practically unchecked, which renders about 90 per cent of the best prime cattle slaughtered in the municipal slaughter houses permanently or temporarily sterile, and thus helps their indiscriminate and premature slaughter.

Mr. Payne in his said paper fully and vividly describes the process: "The *goala* usually buys his cows at the beginning of their second lactation period. He then sells away the calf and begins to practise the abominable *phooka* on the cows and obtains milk for 6 to 8 months at the most. By the end of that time the cow ceases to give milk and becomes unfit for breeding purposes for at least two or three years. The butcher is in waiting, and however fine the animal may be, she is sold away for slaughter without scruple for a small sum. Thus a cow which could lead a useful life of 10 or 12 years is destroyed in the prime of life. This is a process which is constantly going on with the best cows in the country. The cruelty of it will probably appeal strongly to my hearers, but what appeals to me even more strongly is the abominable wastefulness of the system."

The protection of the cow has been unfortunately mixed up with a racial question since the anti-partition days.

For centuries, the Hindus and the Mussalmans had lived together without fighting over the matter. We all know the poor Muhammadans in remote villages do not care for beef. Beef eating is not looked upon with approval in the families of the better class of Muhammadans. It is chiefly confined to the poor sections of the community that live in large towns. *Karbani* during *Bakr-i-Id* by cow killing is also chiefly confined to the same class.

Antagonism on this question came into prominence in anti-partition days. But we are in a better frame of mind now. The two communities have realised that they must stand together and not hurt the feelings of one another. In this spirit of toleration and mutual forbearance, this question of cow preservation should be approached and religious fanaticism should vanish from the minds of both communities. The prominent leaders of the Muhammadan community and the maulvis and moulanas have come forward to demonstrate that the cow killing in *Bakr-i-Id* and like ceremonies is not an essential one and that it was only permissive, and that the permission has been interpreted into compulsion and, in popular estimation, the custom has received the sanction of religion. It has also been pointed out by them that the Muslim religion has enjoined that when an animal is found to be useful to men, it should not be killed. With a view to cement the growing Hindu-Muslim unity, both the communities should give up religious fanaticism, mutual distrust and open hostilities and act in concert on purely economic grounds for the protection of the cows. If that object is attained, the greatest obstacle in the movement of cow protection will be satisfactorily solved and the movement to a great measure will be crowned with success.

On this aspect of the case, Hakim Ajmal Khan in his presidential speech at the twelfth session of the All-India Moslem League in 1919, truly observed: "But to-day when both the Hindus and Mussalmans are marching together through a new era, when various differences are gradually but surely being transformed into varied phases of unity, the resumption of such fruitless efforts (cow riots, etc.), is becoming remote. In fact, we are now inspired by that spirit of patriotism which is sure to prove the key to the solution, not merely of the question of the preservation of the cows but also to the final settlement of all other differences."

Muhammadan leaders, as said before, are lending their support and helping hands. The Muhammadan Governments of Afghanistan and Hyderabad have prohibited the slaughter of cows in their territories.

In this connection it is refreshing to remember the sagacity, the toleration which was displayed by the Muslim sovereigns of India and abroad, in their regulations and practice relating to the preservation of cows and milch cattle.

These sovereigns were guided by economic considerations in preserving the breed of cattle and their actions and regulations were fully supported by the Ulemas of their times. Jujjaj bin Gasat was the Governor of Iraq during the reign of Khalipha Abdul Malik. The people of Iraq made a representation to him regarding the non-cultivation of land. The Governor made an enquiry and after careful consideration came to the conclusion that the depletion of the bovine cattle was the cause of non cultivation and the depletion was due to the people eating the flesh of the cows. He issued an edict prohibiting the slaughter of cows. This order of the Governor was of course confirmed by the Khalipha, and no Muhammadan objected to it. It is also a matter of history that the great Emperor Akbar not only prohibited the slaughter of cows but also went a step further and issued edicts prohibiting the slaughter of cattle generally on his birthday, the day of his accession to the throne, and the birthdays of his sons.

The Emperor Jahangir followed the rules of his illustrious father and confirmed the regulations relating to the slaughter of animals.

It is related by the French traveller Dr. Barnier in his famous book on travels, that once Emperor Jahangir, taking into consideration the scarcity of cattle, prohibited the slaughter of cows in his empire. The Emperor Shah Alam issued a *firman* to this effect: "I desire to ascertain from the followers of *Shara Sharif* of the Prophet what is the view of *Hadis Sharif* on the subject of the slaughter of milch cattle." To this query, the *fatwa* of Maulvi Qutubuddin, the spiritual preceptor of the *badshah* and Maulvi Saheb Baksa, a Muslim divine of great eminence of the time, gave this characteristic reply: "The four things are prohibited in the exalted *Hadis*. Therefore the followers of the Faith and those who walk in the noble path of *Shariat* should act in accordance with them.

They are as follows:—

First—Destroying trees.
Second—Buying human beings.
Third—Slaying cows.
Fourth—Fornication.

Who will do these things will undoubtedly go to hell. Clear proofs are to be found in the Quran: there are verses in the Quoran on the subject. *Hadis* are what is stated on the subject of slaughter of milch cows. God is the Protector."

I have dwelt at length on the religious side of the question because the religious ground was the most formidable in the matter of the prevention of the slaughter of cows. Fortunately, the mist is clearing now, the influential leaders of the Muhammadan community and the eminent maulvis and maulanas have given their opinion that it is an ignorant belief that there is an injunction in the Quoran for slaughter of cows on religious festivals, and as a matter of fact no such mandatory injunction exists in the Quran. If it were so, the Muhammadan sovereigns of the past and at present, His Majesty the Amir of Afghanisthan and His Exalted Highness the Nizam of Hyderabad would not have prohibited the slaughter of cows even in religious ceremonies in their respective territories. The All-India Muslim League and the All-India Khilafat Association are also of the same opinion and advise the stoppage of cow killing. Besides what we advocate is not the prohibition of slaughter of all kinds of cattle, but the slaughter of prime cows, animals in milk and calves. We also go further towards compromise. For the last session of the Council, I sent in a resolution to this effect: "This Council recommends to Government that the slaughter of pregnant cows, milch cows and calves be prohibited in Bengal, except for religious purposes." It is most regrettable that I have not been allowed even to make this moderate suggestion. Now in the altered state of circumstances as stated above, there is no apprehension in making such legislation. Some also advance such grounds such as that the beef being cheap, if the slaughter of cows is prohibited, the poor Muhamamdans will suffer. There is no force in this argument; of the cattle daily slaughtered in Calcutta, cows form

only a small portion. So it will not materially affect the price of beef. Besides milk is more valuable and more useful than beef; we all, whether Hindus, Muhammadans, Jews and Parsis all require milk. It is the only food for infants and invalids, whereas beef is taken by only a few. The essence of respected rule is to enforce what is for the public good whatever private interests stand in the way. Muhammadans are in fact more vitally interested in the question as they form the bulk of the agricultural population of this country, and as far as Calcutta and other large towns are concerned, the number of infant mortality is greater amongst the Muhammadans than that in any other community. The argument that only old and useless cattle is sent to the slaughter-house requires no serious consideration as it is against ascertained facts. The quotations I have made from Mr. Payne's paper are sufficient refutation of such argument. There are other authoritative pronouncements on this point, I refrain to quote them for fear of being very long. Beef is no doubt required for the British army; there will be abundant supply for them and if required, the imported meat may usefully be supplied to them. In this connection, it will not be out of place to mention that in Europe, America and the Colonies cattle are raised for two distinct purposes, namely beef cattle for food and dairy cattle for milk. If the Government or private parties are encouraged by the beef eating public to start in this country a specific beef raising industry, it will become unnecessary to have recourse to milch cows for slaughter. There are other minor objections raised against this movement which require no separate treatment here.

Now coming to the particular point affecting Calcutta, it is to be noted that the question of milk supply is engaging the attention of the Calcutta Corporation for some time past.

In July 1910, the Corporation first began seriously to investigate the question of the milk supply of the city. A special committee was then appointed to consider the whole question of the milk supply of Calcutta.

The first proposals were—

(*i*) The establishment of a model cowshed for 270 cows in Calcutta.
(*ii*) The opening of municipal milk depots.
(*iii*) The control of all private milk shops and licensing of milk vendors.
(*iv*) The establishment of a grazing farm somewhere out of Calcutta.
(*v*) Prevention of the slaughter of prime cows.

In 1914, the Milk Supply Committee first started to obtain expert opinion on the subject, Major Matson and Messrs Milligan, Hutchinson and Smith were consulted at different times, and they gave their considered opinions. Some of their recommendations are embodied in the provisions of milk supply in the Bill, but the recommendation regarding the prohibition of the slaughter of cows finds no place in the Bill, except that in clause 388 (*2*). As to what practical step taken by the Corporation in this matter, is that they prohibited the slaughter of pregnant cows and calves and adopted a resolution for the prohibition of the slaughter of cows, though no effect can hitherto be given to this resolution owing to want of legal sanction. This brings me to the question at issue. Some definite proposals were made and necessary amendments were suggested by Sir John Woodroffe and Mr. Justice Greaves as Presidents of the All-India Cow Conference Association and by the President of the All-India Cow Protection League to the members of the Select Committee for consideration. The only amendment, that has been accepted and incorporated in the Bill is clause 388A. But that has been modified in such a way and hemmed in with such conditions that it will practically be of no effect. I disagree with the view of the majority of the Select Committee and I am of opinion on the grounds stated above, that the following amendments be made in the Bill :—

1. *Clause 3 (63)*—Definition of "slaughter house"—add the words "as the Corporation may allow" after the word "pigs" in the third line.

As has been pointedout before, the Calcutta Corporation have adopted a resolution for the prohibition of the slaughter of cows, but the Corporation cannot carry out their resolution in view of the opinion of counsel consulted by the Chairman. That opinion appears to have been based on the wording of the definition of slaughter house in section 3, sub-section (*45*) of the

present Act. Sir B. C. Mitter, who was consulted, pointed out that this definition must have its fullest effect. So it is necessary to amend this definition which has been taken *verbatim* in the Bill by adding the words "as the Corporation may allow" as to mean those places where slaughter of cattle can be regulated by rules or by-laws.

2. *Clause 388 (2)*, as incorporated by the Select Committee—The sub-clause (*2*) should be replaced by the following:—

(*2*) "and prevent, restrict or regulate the slaughter of any kind or class of cattle in the municipal or private slaughter houses".

3. *Clause 39*.—In proviso (*ii*) the following words should be added at the end: "But the Corporation shall not grant a license for the salughter of prime cattle, cattle in milk or cattle capable of bearing calves."

4. *Clause 427*.—The following proviso may be added to clause 427 of the Bill:—

"Provided that any officer or officers specially appointed for the detection and prevention of the practice of *phooka* upon cattle either by the Corporation or by the Calcutta Society for the Prevention of Cruelty to Animals or by such other person of persons selected for the purpose, shall have the same powers as the Executive Officer under Section 497."

5. The following addition should be made to Clause 468 after sub-clause (*34*) viz:—

"(*34a*) providing for the detection and prevention of the *phooka* practice upon cattle."

6. The words "and slaughter" should be added after the word "destruction" in line 2 of sub-clause (*32*) of clause 468 of the Bill.

How wasteful is the process of *phooka* on cattle is well described by Mr. Payne as quoted above. The process is also very painful to the animals on which *phooka* is practised. The word "*phooka*" is not defined in the old Acts (Act I of 1864 B. C. and XI of 1890 B. C.) or in the new Act (I of 1920 B. C. not yet enforced). It is an Indian word and means as the name indicates, the process of blowing air into the vagina of a cow. There are some other processes by which this is done, the picture is revolting to the extreme. The object of *phooka* is to get milk from the cow when there is no calf and also to get the milk which the animal instinctively retains for her calf. There are about 300 cattle sheds in Calcutta and the suburbs containing nearly ten thousand cows. I find from the note of Mr. M. C. Maitra, Deputy Superintendent, C. S. P. C. A., "that out of this number about 5000 are daily subjected to the *phooka* practice; 45 cases only were detected in the course of last 15 months in the Sealdah division alone. No case however was detected in the other three divisions although there are cow sheds and *phooka* process is reported to be prevalent in those divisions. Nor was any such case detected in Calcutta between August 1916 and May 1921". The fact is the *goalas* practise *phooka* stealthily and in covered places. The C. S. P. C. A. officers have no power to inspect cattle-sheds. They should have such powers at all times and at all places.

Special Corporation officers should be appointed for the purpose also and they should have large powers in the matter. Some stringent rules and by-laws are necessary by which detection will be facilitated and the offenders brought to justice. In this way the evil can be gradually eradicated. The amendments proposed above relating to *phooka* are based on these lines.

Clause 391, sub-clause (a).—This sub-clause should be omitted.

There is no such provision either in the existing Act or in the Bombay Municipal Act. Under the existing Act the market regulations do not apply to a private market, which has been registered under the Calcutta Markets Act of 1871, but the market regulations under the Bill apply to all the markets even if they have been established before 1871.

It is quite unnecessary to take out a license under this clause annually, as it can be revoked by the Corporation at any time if the owner of the market does not comply with the terms of the license. The Health Officer should not be empowered to tax a market owner now and then, otherwise it will create suspicion in the minds of the public owing to the existence of a number of municipal markets in Calcutta.

Clause 396.—The word "bazar" should be omitted from this clause. Under the definition, a bazar is a place of trade other than a market where there is a collection of shops of warehouses. It is the duty of the Corporation to lay out and construct roads and passages. I therefore fail to understand as to why the owners of a collection of shops or warehouses should be enforced to open out roads within their respective bazars though they may be used by the public at large. There is no such provision even in the Bombay Municipal Act.

Clause 398.—This clause should be omitted. There is no such provision in the existing Act. I admit that steps may be taken to reduce the prices of food-stuffs, fuel, cloths and other necessaries of life, when the prices are abnormally high, but artificial methods generally fail and lead to corruption. The step which should be taken for the said purpose would be to increase the supply by giving railway and other facilities to the traders and merchants who deal in them. It is supply and demand which should control the market and not the controller appointed by the Corporation. With my long experience I may say that had the Coal Controller or the railway authorities given adequate supply of wagons for the conveyance of coke from the coal-fields to Calcutta the price of coke would have materially come down. During the last famine, notwithstanding the bumper rice crop of Burma, the price of rice in Calcutta was very high. It was because only five rich importers of rice from Burma were allowed to make retail sale of rice in Calcutta, but as soon as the Government, on my suggestion, increased the number of licenses through the Calcutta Corporation from 5 to 100, there was keen competition amongst the licensees themselves and the price of Burma rice came down by Re. 1 per maund in the course of a week.

During the war, the price of cloth was also prohibitive in Calcutta. It was because the import of cloth from foreign countries was nominal, but as soon as the war was over, a heavy quantity of cloth was imported and the price of cloth, not only foreign but also Indian, came down materially. It may be said that it is only on emergency and with the sanction of the Local Government that depots for the sale of necessaries of life may be opened. But I am sure that as soon as this authority will be given to the Corporation, they are likely to open depots for the sale of all necessaries of life, more with a view to make profits than to sell them at very cheap rates to the citizens of Calcutta.

The Corporation is authorised to open markets in Calcutta with a view to supply fish and vegetables at moderate rates to the citizens, but owing to heavy rents and *salami* which are exacted from the stall-keepers they can not sell their goods at cheap rates. Further the Corporation is authorised to open markets only, or places for the sale of articles of food, but as a matter of fact even ancestral dwelling houses are acquired and removed with a view to erect shops in which fancy goods and even shoes are allowed to be sold. It is well known that interference with trade by Government through Controllers and Directors of Supplies has generally led to corruption.

If it is really intended to provide the people of India with cheap food-stuffs, fuel and cloth, then the Government of India must levy a reasonable duty on the export of all food grains and coal and abolish the excise duty on cloth. At present coal and all food grains except rice, on which there is a nominal export duty of annas three per maund, are allowed to be exported to foreign countries without any duty whatever.

Clause 411.—The words "at any time by day or by night" in sub-clause (*1*) of this clause should be substituted by the words "at all reasonable times". It is highly objectionable to allow an officer of the Health Department to examine any food at night. It will be a source of oppression. Under the existing Act, this inspection can be made at all reasonable times

but no explanation has been given in the Bill as to why this inspection can be made even at dead of night.

Sub-clause (2).—The words "and carry away" in this sub-clause should be omitted. I admit that the words are in the existing Act, that they appear to be quite unnecessary owing to the provision of sub-clause (*1*) of this clause under which the Health Officer may, instead of carrying away any food seized under sub-clause (*2*), leave the same in safe custody.

Clause 412, sub-clause (2) of this clause should be omitted. It will be a hardship if a person is enforced to pay the expenses incurred in the destruction of any food belonging to him or in his possession, though it may be unwholesome.

Clause 413.—The words "at the expense of the person.....seizure" should be omitted from sub-clause (*b*) of sub-clause (*2*) of this clause on the grounds stated in connection with sub-clause (*2*) of clause 412.

Clause 418A.—Under the existing Act, all the powers for the prevention of adulteration of food and drugs have been entrusted to the Chairman, but under the Bill they have been entrusted to the Health Officer. It is inconsistent with the principle under which the Corporation shall be the supreme authority for the administration of the municipal law of Calcutta. It is therefore desirable that an appeal against the decision of the Health Officer should lie to a Bench consisting of three Councillors or Aldermen who may be elected by the Corporation for that special purpose.

Clause 427A—An appeal should lie against the decision of the Health Officer to a Bench constituted as under clause 418A on the grounds stated in connection with the proposed latter clause. The withholding of the right of appeal against the decision of the Health Officer would be inconsistent with the principle that the Corporation should be the supreme authority for the administration of the municipal law in Calcutta. It would therefore be an act of justice to the people to allow an appeal as suggested.

Clause 429.—The words "without notice or" in line 3 of this clause should be omitted. However necessary it might be, it would be a dangerous weapon in the hands of an officer of the Health Department if he is authorised to inspect at any time by night without notice any place in which any dangerous disease is suspected to exist. It must be borne in mind that most of the people are Hindus and Muhammadans who deem the privacy of their houses as a sacred thing. Therefore considering the customs and sentiments of the people these words should be omitted. Even the civil and criminal laws provide for such a notice. This is also the opinion of the British Indian Association and the Marwari Association.

Section 431.—The second sub-clause of this clause should be omitted and the following clause should be added after clause 440:—

(440A. The Health Officer shall in the exercise of his powers under Chapter XXX be subject to the control of the Corporation.)

Most arbitrary powers have been entrusted to the Health Officer under this chapter. Under the existing Act, these powers have been entrusted to the Chairman who is an experienced member of the Indian Civil Service. Under this chapter, the Health Officer can delegate his powers to a subordinate officer of his. It is therefore desirable that the Corporation, which is responsible to the citizens of Calcutta for the sanitation of the city, should exercise some control over the subordinate officers of the Health Department and thus help the Health Officer himself.

Clause 433.—The word "substantial" in line 2 of sub-clause (*2*) of this clause should be omitted. I fail to understand as to why the Corporation should not pay compensation for the loss, however trivial it may be, sustained by a poor person for the destruction of his hut. Whenever a hut is destroyed, it should be presumed that the owners and occupiers thereof, who are generally very poor, suffer loss by its destruction. What is "substantial" loss to one may not be a loss at all to another. So the word "substantial" is a vague term upon the interpretation of which depends the decision of a

particular case. In every case of destruction full compensation must be paid.

This is also the opinion of the British Indian Association as well as of the Marwari Association.

The words "but, except as..... .....conferred by sub-clause (*1*)" should be omitted from sub-clause (*2*) of this clause. I fail to understand as to why the decision of the Corporation, which is an interested party, should be final. Even under the existing Act if any person is dissatisfied with the decision of the Chairman, he has a right of appeal to the General Committee. The rights of private persons, specially of poor hut owners, should not be trampled down for the sake of the public at large without the payment of adequate compensation to them.

Clause 455A.—The following clause should be added after clause 455 :—

> "The Health Officer or Executive Officer shall in the exercise of his powers under Chapter XXXI be subject to the control of the Corporation."

Under the existing Act, the powers under this chapter have been entrusted to the Chairman, but under the Bill they have been entrusted to the Health Officer and the Executive Officer. It is therefore desirable that the Corporation should be allowed to exercise some control over the Health Officer or the Executive Officer in the administration of this chapter.

Clause 466.—Proviso (*2*) of this clause should be omitted. I admit that the use of a property for unlawful purposes or purposes contrary to public policy should be discouraged; but as the owner of a property used for the said purposes is enforced to pay rates on the valuation based on the actual rent of the property, I fail to understand as to why he should not get compensation for the acquisition of the property on the basis of the municipal valuation or actual rent thereof. I have no objection if steps are taken for the prevention of a property from being used for the said purposes, but so long as the Corporation realize municipal rates on the basis of the actual rent, they should be made liable to pay compensation for the acquisition of the property accordingly.

It may be said that there is such provision in the existing Act, but it will appear from the proceedings of the meetings of the Bengal Legislative Council on the Calcutta Municipal Bill of 1899 that it was only the constitutional portion of the Bill that was discussed at length in the Council and the administrative portion of the Bill was practically left out.

Proviso (*iii*)—of this clause should be omitted. It takes a long time for the Corporation to sanction a scheme, not to speak of declaration in the *Gazette* for the acquisition of the land necessary for the execution of the scheme. There have been several schemes for the opening of roads which have been sanctioned by the Corporation not less than 5 years ago, not to speak of one year as mentioned in the Bill, which have not as yet been declared in the *Gazette* for want of funds.

It will therefore be a great hardship on owners of properties if they are deprived of compensation for improvements made by them within one year before the date of declaration. Several improvements for the widening of existing streets or for the opening of new streets have been prescribed by the General Committee and I doubt as to whether the said schemes will be taken up by the Corporation within the next 10 years, specially as the Corporation is already committed to an expenditure of two crores of rupees for the improvement of the water-supply of Calcutta. It may be said that such compensation will be paid for *bona fide* improvements, but it would be very difficult for the owner of the property to prove his good faith.

When the existing Act was under legislation, the Hon'ble Sir Surendra Nath Banarjea himself strongly urged the omission of this sub-clause. There is no such provision in the Madras or Bombay Municipal Act nor even in the English Act.

Clause 468, sub-clause 34 (b).—I fail to understand as to why milch cattle sheds should not be allowed to be erected or retained except in the

area specified by the Corporation if they are constructed in accordance with the sanitary regulations of the Corporation. On the contrary, it is desirable that milch-cows should be kept in every dwelling house or at least in close proximity to dwelling houses so far as may be practicable. This will give every facility to a person to take pure milk even at the time of milking. This will discourage the adulteration of milk which is noted in Calcutta. The removal of milch-cattle sheds to distant area will encourage adulteration and is sure to materially increase the price of milk.

I need not repeat that with a view to reduce the rate of infant mortality it is desirable that every facility should be given to secure cheap and pure milk. I fail to understand as to why restriction should be laid down to the discretion of the Corporation in the payment of adequate compensation for the removal of the sheds, even if it be desirable. I admit that under section 455 of the existing Act there is such a provision, but there is a safeguard to the effect that no such declaration can be made by the Corporation unless and until an opportunity is given to the persons affected to state their objections and unless and until the said objections are considered by the General Committee.

I may add that notwithstanding the existence of similar provisions in the existing Act no such declaration has been made by the Corporation except in a specified portion in the European quarter of Calcutta. I think that is the reason why this section has been omitted from the original Bill.

Clause 468.—Sub-clause *(40)* of this clause should be omitted and chapter XXXIII of the existing Act dealing with the regulation of factories, trades, etc., should be incorporated into the Bill.

Regulation of factories and trades may be regarded as a provincial question and not a municipal one. It is therefore desirable that these regulations should be prescribed by the Provincial Legislature and not by the Municipal Corporation.

Sub-clause 44.—The word "markets" should be substituted by the words "municipal markets". The Corporation has been authorised by chapter XXVII of the Bill to permit the opening of new private markets and to exercise some control over them, but it would be undue interference on the part of the Corporation to regulate the management of and the conduct of business in markets, which must be left entirely to the owners thereof.

This is also the opinion of the British Indian Association and the Marwari Association. There is no such provision even in the Bombay Municipal Act.

Clause 471.—That the following be added to this clause :—

> "*(e)* The Corporation shall before making the by-laws receive and consider any objection or suggestion which may be made in respect of such draft by any person interested therein before the date so specified."

This is in accordance with the provisions of section 310 of the Madras Municipal Act and section 465 of the Bombay Municipal Act. Where is the necessity for inviting objections and suggestions when there is no provision in the Bill for the consideration thereof?

Clause 474.—The words " other than section 291 and section 440 ' in line 2 of sub-clause *(1)* of this clause should be omitted. I think draft rules for the guidance of plumbers should be published before they are made, as the public are interested in the making of the same. I admit that the Corporation should be authorised under clause 440 to take special measures on the outbreak of dangerous diseases, but there is no reason as to why the rules, though temporary, prescribed under clause 440 for taking the most drastic measures for the prevention of the outbreak or spread of the said diseases should not be published before they are finally made. Though the Corporation is responsible for the sanitation of the town, the citizens of Calcutta are equally interested in it. Suggestions of medical practitioners and other experts on the draft rules on the said preventive measures will certainly strengthen the hands of the Corporation and abate the excitement of the

people, as was the case when plague first broke out in Calcutta Co-operation is preferable to administration in the teeth of opposition of the people.

The following should be added on the grounds stated in connection with clause 471 :—

"(*c*) The Corporation shall consider any objection or suggestion which may be made in respect of such draft by any person interested therein before the date so specified."

Clause 478.—The following should be added on the grounds stated in connection with clause 323, sub-section (*2*) :—

"Prohibition of licensed building surveyor demanding or receiving more than prescribed fee, Rs. 250."

The penalty clause in connection with Schedule XVI, rule 38, sub-rule (*3*) should be omitted, as that rule itself has been omitted by the Select Committee on the recommendation of the Corporation.

Clause 504.—The words "not less than six *per centum*" in the last line but one of this clause should be substituted by the words "at the rate of six *per centum*".

In the original Bill, the rate of interest is six per cent per annum. Under section 605 of the Calcutta Municipal Act it is six per cent. I fail to understand as to why the Corporation should be empowered to raise the rate of interest specially as it is the duty of the Corporation to encourage the execution of sanitary works.

Clause 506.—The words "not less than six *per centum*" in line 7 of sub-clause (*1*) of this clause should be substituted by the words "at the rate of six *per centum*" on the grounds stated in connection with clause 504.

The words "thirty" in the last line but one of sub-clause (*1*) of this clause should be substituted by the word "fifteen". The period of thirty years is too long a period for the realization of an improvement expense from the owner or occupier of the premises benefited.

Clause 510.—The word "may" in line 3 of this clause should be substituted by the word "shall". A person sustaining damage by reason of the exercise of any of the powers vested, should be entitled to get, as of right, compensation from the Corporation. This is also the opinion of the British Indian Association and the Marwari Association.

Clause 525.—The words "such date is not known or" should be omitted from sub-clause (*1*) (*b*) of this clause. There is no such provision either in the existing Act or in the Bombay Municipal Act. If the period of limitation runs from the date on which the commission or the existence of an offence, provided it is not a continuous one, is first brought to the notice of the Executive Officer, it would be a dangerous weapon in the hands of the subordinate officers of the Corporation and the very object of the law of of limitation will be frustrated.

SCHEDULE II.

PART I.

Rule 1.—The words "offer or promise" should be omitted from this rule. An offer or promise by a person with the connivance of a candidate's agent should not be regarded as a corrupt practice.

Rule 2.—An indirect attempt to interfere on the part of a person with the connivance of a candidate's agent with the free exercise of the franchise of an elector should not be regarded as a corrupt practice. The words "or indirect" in line 1 of clause 1 of this rule should therefore be omitted.

SCHEDULE III

General Constituencies.

I do not think the allotment of seats is equitable; as for example when the total number of Ward Commissioners was 50 under the Municipal Act of 1888, two seats were allotted to Ward No. 23, but when the total number of Ward Commissioners has been reduced from 50 to 25 under the existing Act, only one seat has been allotted to the said ward. When the total number of Ward Commissioners is going to be increased from 25 to 55, at least two seats should be allotted to Ward No 23. It does not appear either from the Statement of Objects and Reasons or from notes on clauses on what principle the number of seats has been allotted to the several wards of Calcutta. I think the seats should be allotted in proportion not only to the population, but also to the area and valuation of wards. The larger the population, the greater would be the grievances. The higher the valuation, the greater the interest of the rate-payers; and the larger the area, the greater the supervision required to allay the grievances of the rate-payers. If the area is not taken into consideration in the allotment of seats of the Councillors, then, I am afraid the District No. IV, which is a growing district and the rate of mortality in which is much higher than than that of the other districts, will have no chance of being properly represented in the Corporation. In ascertaining the valuation of a ward, the valuation of the property of the Port Commissioners within the respective wards, specially in Wards 23, 24 and 25 which include the Kidderpore Docks, should be taken into consideration, So far as Ward No. 23 is concerned, the valuation has materially increased since 1888 or even during the last 10 years, owing to the erection of a number of palatial buildings owned and occupied by Europeans in Alipore and Durgapore.

I fail to understand as to why any seat should be reserved for the Muhammadans. Muhammadans have the same interest as the Hindus in the improvement of the sanitary condition of Calcutta. I do not think any religious question is considered by the Corporation which requires the presence of the Muhammadans. It may be said that the Corporation has prohibited the slaughter of pregnant cows and calves, but it is purely on economic grounds and not on religious grounds as alleged. Is not an infant or invalid of a Muhammadan equally interested with that of a Hindu or Christian in the supply of cow's milk, the dearth of which is one of the special reasons for the unusually heavy rate of infant mortality in Calcutta.

If it is desirable to reserve seats for Muhammadans, then may I ask us to why seats have not been reserved for the Marwaris who have a great interest in the improvement of the sanitation of Calcutta? Why should not seats be reserved for the Chinese of Bentinck Street, specially when the number of seats to be filled up by the Government is going to be reduced from 15 to 8?

If, for argument's sake, it is desirable to reserve certain seats for the Muhammadans, then the number of seats should be in proportion to population and the amount of rates and taxes paid by the Muhamamdans to the municipal fund.

It appears that in only 11 out of 25 wards seats have been reserved for Muhammadans, then what about the Muhammadans of the remaining 14 wards? Are there no Muhammadans in those wards, or if so why should they be represented through non-Muhammadans while the Muhammadans of eleven wards would be favoured with representation through gentlemen of their own religion? I would therefore suggest that as in the case of election for the Bengal Legislative Council, Calcutta should be divided into districts in every one of which one seat may be reserved for the Muhammadans only, so that all the Muhammadans of Calcutta may be placed on the same footing.

The allotment of seats to the several wards is the most inequitable Ward No. 23 with an area of 1,211 acres, population of 19,749 and of the municipal valuation of Rs. 21,71,181 has been placed on the same footing with Ward No. 18 of the area of 108 acres, with a population of only 5,550 and an annual valuation of Rs. 2,25,635, as one seat has been alloted to each of the said two wards.

I fail to understand as to why two seats have been alloted to Ward No. 24 which is of 921 acres in area, has a population of 21,869 and is of the annual municipal valuation of only Rs. 5,36,179. It is strange that the number of seats of Wards 7 and 8 have been increased to 4 while that of Wards 1, 5, 6, 9, 12 and 22 is increased to 3, while the number of seats alloted to Ward No. 23 has not at all been increased notwithstanding the fact that under the Municipal Act of 1888 two seats were alloted to it and that the amount of revenue realised in respect of lands and buildings in the said ward and the amount of taxes realised from the traders and pleaders thereof has since been materially increased.

SCHEDULE V.

Items 8 and 24.—The word "market" should be omitted. The greater the amount of taxation on the owner of a market, the higher would be the prices of the goods generally sold therein.

Items 10 and 26—Should be omitted. There is no such provision in the existing Act. A proprietor of a newspaper should not be taxed for the publication thereof, as this is the principal organ of public opinion. It is through newspapers that the public grievances can be ascertained. I do not think a newspaper is now-a-days a paying concern.

Item 22.—The words "dealer in houses and landed property" should be omitted Owners of houses and landed properties of Calcutta pay very heavy rates and therefore it will be a great hardship on them if they are enforced to pay taxes in addition to municipal rates. I admit that during the last land boom there was a very large number of dealers in houses and landed properties, but the said boom has now subsided and a person does not sell his house or landed property unless and until he is under the painful necessity of selling it to pay off his debts or meet other obligations. The Calcutta Rent Act has already curtailed the income of a landholder of Calcutta and under the Calcutta Improvement Act an excise duty of two per cent is payable on transfer of lands and builings in addition to an Imperial stamp duty of one and a half per cent. Dealers in lands and buildings have already been suffering heavy losses in speculation therein. It is therefore desirable that no tax should be levied on them, not to speak of increasing the amount of tax from Rs. 25 to Rs. 50 as recommended by the majority of the members of the Select Committee.

Item 55—should be omitted. There is no such provision in the existing Act. I admit that some of the professional astrologers of Calcutta earn heavy amounts, but most of them are poor Brahmins with a nominal income.

Item 63—The words "twelve rupees" in the third column of this item should be substituted by the words "four rupees." The keeper of a permanent stall in a daily market should not be enforced to pay a license tax of Rs. 12 per annum. The greater the amount of taxation on the stall-keepers of a market, the higher would be the prices of the necessaries of life which are generally sold in a market.

Item 81.—This item should be omitted.

Those persons who hawk goods for sale in baskets or trays are very poor. In some cases, the value of their goods is not even Re. 1 and it will be a hardship on them if they are called upon to pay at once Re. 1 for carrying on their business of hawkers. In most of the cases they are to pay a few annas to the municipal officers in charge or the police constables to avoid the payment of their license fee, which is undoubtedly a heavy amount to them in comparison with the value of their goods. It will appear from page 50 of the appendix of the Municipal Administration Report of Calcutta for the year 1920-21 that the total amount of license fees realized from itinerant dealers was Rs. 2,027. Is it necessary, having regard to the poverty of the hawkers and specially to the cost of establishment for the realization of the said amount? Is not hawking of fruits and other necessaries of life in *bustees* and in the interior of Calcutta a source of convenience to the inhabitants thereof?

Rule 13.—The words "the Executive Officer or a Deputy Executive Officer and" should be omitted. A person should not be allowed to hear appeals against his own decision. In accordance with the principle embodied in the Bill, the Corporation or a committee thereof should be the supreme authority. That is the reason as to why the Executive Officer is not allowed even to make a statement of facts without the permission of the President of the Corporation or a standing committee and can not vote at all, as will appear from the provisions of clause 62 of the Bill. The word "license" in the proviso of this rule should be substituted by the words "personal license".

This proviso stands in the way of the submission of appeals against the decision of the Executive Officer. In the case of appeals or objections to the assessment of lands and buildings, the owner of occupier of a premises is not to pay on the enhanced valuation before the submission of his appeal or objection, but I fail to understand as to why he shall have to deposit the enhanced license fee before the submission of his appeal. It may be said that a person liable to take a personal license, namely a person carrying on the profession of, say, a broker, may go away to avoid the payment of his license fee, but there is no reason as to why a person liable to take a local license, namely the owner of a godown or shop, who can not be expected to go away leaving his place of business and the goods therein with a view to avoid the payment of the license fee, which is not a heavy amount, should be enforced to deposit the license fee at the enhanced rate before the submission of his appeal. This undue restriction to appeals is responsible for the nominal number of appeals, as it will appear from page 28 of the Municipal Administration Report of Calcutta for the year 1920-21 that there were only four appeals against assessment in respect of trade and profession tax and these appeals were not disposed of within the official year, as deposits had been made before the submission of appeals.

SCHEDULE VIII.

The word "milk-seller" should be omitted from Part I and the words "cow or buffalo kept by milk-seller," should be omitted from Part II. Every step should be taken to reduce the price of milk, the dearth of which is responsible for the heavy rate of infant-morality in Calcutta.

The words "owner or occupier of a market" should be omitted from Part I and the words "for a daily average.....from a market" should be omitted from Part II.

The owner of a market is to pay the owner's share and occupier's share of the municipal rates, pay license fees as such owner and also on behalf of the stall-keepers. It will thus be a source of hardship on him, if he is made liable to pay for the removal of refuse of his market. The greater the amount of rates and taxes which are levied on a market directly or indirectly, the higher will be the prices of the goods which are generally sold therein.

SCHEDULE XIII.

Sub-rule (2).—The words "fixed below the surface of the ground" should be omitted. As this water is needed for the flushing of surface drains and for the cleansing of stables and cattle-sheds it will be most inconvenient if the hydrants or taps are enforced to be fixed below the surface of the ground. There is no such provision in the Bombay Municipal Act.

SCHEDULE XIV.

Rule 20—should be omitted. There are specific sanitary rules such as rules 21 and 22 under which no service privy or service urinal can be erected in close proximity to a public building or a building which is likely to be used for dwelling purposes or as a kitchen. The object is undoubtedly to

avoid the cause of any nuisance. The provisions of rule 20 are therefore quite unnecessary. There should not be one law for the poor and another law for the rich. There is no such provision in the case of connected privies and urinals. There is no such provision either in the existing Act or in the Bombay Municipal Act. It will appear from the definition of "nuisance" that it includes any act which is likely to cause even annoyance to the sense or sight or hearing. It will thus be a dangerous weapon in the hands of the subordinate officers of the Corporation, who will undoubtedly delegate their powers to the said officers.

Rule 31.—The words "Health Officer" should be substituted by the words "Executive Officer." This will be inconsistent with the other provisions of this Schedule as it will appear, with the exception of rules 31, 32 and 33, all the powers and duties under Schedule XIV have been entrusted to the Executive Officer. Under the existing Act, these powers and duties are entrusted to the Chairman.

Rule 32, sub-rule (3).—The words "Chief Engineer" should be substituted by the words "Executive Officer" on the grounds stated in connection with rule 31.

Rule 33.—The words "Chief Engineer" should be substituted by the words "Executive Officer" on the grounds stated in connection with rule 31.

Rule 38.—The following should be added after this rule.

"38A. The Executive Officer shall in the exercise of his powers under this schedule be subject to the control of the Corporation."

This would be consistent with the principle of the Bill under which the Corporation is to be the supreme authority and not even the Executive Officer, not to speak of the Health Officer, Chief Engineer or their respective subordinates.

SCHEDULE XV

Rule 9.—There ought to be another rule to the following effect:—

"The Corporation shall keep a register of all alterations made by them in the names of streets and in the numbers of the houses therein and such register shall be kept in such a form as to show the date of every such alteration and the name of the street and the number of the premises previous to such alteration, as well as the new name of the street and the new number of the premises. It shall be lawful for any person to inspect such register and to take a copy of any portion thereof upon payment of such reasonable fee as the Corporation may from time to time determine."

In the case of searches for title and encumbrances, the first thing needed is to know whether the name of the street has been altered and whether the number has been changed. The Corporation should have a register in a handy form from which the changes can easily be ascertained instead of as at present searching through successive assessment registers.

SCHEDULE XVI.

Rule 23.—The word "one-third" should be substituted by the word "one-half". In the case of a detached building, the area of open space should be one-half of the total area instead of two-thirds of the area as at present. The market value of lands even in the European quarters has materially increased since 1899, when this provision was introduced. This is the reason as to why house rent of Calcutta is so high. From a sanitary point of view, open space of one-half of the total area of the open space is sufficient.

The building regulations have been enacted practically on the report of the Calcutta Building Commission appointed by the Government, but it appears from paragraph 126 of the said report that in the opinion of the said Commission it would be advisable that in quarters newly laid out the roads and open spaces should occupy at least as much ground as the building area. It will further appear from paragraph 43 of the said report that the necessities of the several portions of Calcutta do not require any variation in the general elementary rules, which are as necessary for sanitation and ventilation in one part of the town as in another. It will thus appear from the said expert opinions that if one-third open space will suffice even in one part of Calcutta for the sanitation and ventilation of buildings thereof, I fail to understand as to why an open space of even half of a holding will not suffice for the sanitation and ventilation thereof, though in another part of Calcutta. This is also the opinion of the British Indian Association and the Marwari Association.

Rule 30.—This rule should be omitted. I admit that there should be sufficient space, specially in the case of a dwelling house. I also admit that there should be open space of sufficient depth on all the sides of a dwelling house, but I fail to understand as to why there should be open space of such heavy depth at the back of the domestic building, which includes not only a dwelling house but also a shop or an office. In the case of a dwelling house occupied by an Indian family following the *parda* system there is at least one courtyard. It is therefore unnecessary to have another open space at the back of the buiding. It will be sufficient if there be sufficient space for ventilation and no doors or windows or openings of the adjoining buildings are blocked. This rule is necessary in the case of a building in which there will be no courtyard, as is generally the case of the buildings occupied by Europeans. This rule may be amended accordingly. If this rule is not omitted, clause 3 should be omitted. There is no such provision under the existing building regulations. It would be a great hardship if a person is enforced to keep open spaces as contemplated in this clause in addition to courtyard and open spaces at the sides.

Rule 57.—This rule should be omitted. There is no such provision in the existing Act. It is unnecessary and will be a source of hardship on a person who intends to erect a building. It will increase the cost of the construction of a building. I fail to understand as to why a person having engineering qualifications or having experience in the construction of a building should not be allowed to construct his own building. The employment of a licensed building surveyor is unnecessary for the construction of an ordinary building.

Rule 20 (b)—Should also be omitted on the said grounds.

Rule 66.—This rule should be omitted. Under this rule the erection of a substantial portion of a masonry building is to be completed within three years. It is impossible for a gentleman of limited means or in the case of a big building. Under section 379 of the existing Act, the erection of a building is to be commenced within one year. This is also the opinion of the British Indian Association and the Marwari Association.

Rule 67.—This rule should be omitted. There is no such provision in the present Act A few years ago it was proposed to enact such a rule, but the Corporation rejected it. Right once vested should not be divested. Sanction once granted should not be revoked whatever the reason might be. It will be a great hardship if a three-storeyed building is demolished on the ground of "misrepresenation" in the application for sanction, even if the said building is constructed in accordance with the sanctioned plan. He should not be punished for the negligence of the officers of the Building Department. If a person secure sanction on "misrepresentation", erect a substantial building and sell it off to another person for valuable consideration, it will be a source of hardship on the latter if his building is demolished due to the misconduct of his vendor. As no building can be constructed without sanction and as no sanction is granted unless local inspection is made by a responsible officer of the Building Department, the alleged

misrepresentation or fraud can be detected at the time of local inspection or on the examination of the plan or details thereof, and the Corporation may fine the applicant for misrepresentation or fraud, but it will be a source of great hardship if a building constructed in accordance with the sanctioned plan is demolished It is the inspecting officer who should be punished, and not the owner of the building. This is also the opinion of the British Indian Association and the Marwari Association.

Rule 71.—The words "and courtyard" should be omitted. There is no reason why the proportion of the courtyard to the structures abutting thereon should be more in the case of a hut than in the case of a masonry building, as will appear from rule 29. On the other hand in the case of a single storeyed hut the proportion of the courtyard should be less.

Rule 72.—The words "and courtyard" should be omitted on the grounds stated in connection with rule 71.

Note of Dissent by Dr. A. Suhrawardy, M.L.C.

My views on the question of Muslim representation are set out in full in my speech in the Legislative Council on the occasion of the introduction of the Calcutta Municipal Bill and need not be repeated here.

The number of seats allotted to Muhammadans is inadequate. In order to give the Muhammadans effective and adequate representation at least one-fourth of the elected seats should be allotted to them.

I am prepared to agree to the Corporation being given power to restrict the slaughter of cows only if the Muhammadans are given adequate and effective representation in the way indicated above.

Supplementary Note of Dissent by Babu Amulya Dhone Addy, M.L.C.

I am opposed to the amalgamation of Ward No. 18 with Ward No. 25 on the following grounds :—

(*1*) Ward No. 18 has been in existence since 1888. It had two representatives in the Corporation from 1880 to 1899 and has had one representative since 1900 up to date. There will be a great heart-burning of the rate-payers of the said ward if they are deprived of the privilege which they have been enjoying since 1888.

(*2*) I admit that the population, area and annual valuation of the said ward are less than those of the other wards of Calcutta, but having regard to the fact that the residents of the said ward consist mostly of middle class Europeans and poor coolies for which the southern portion of the said ward is known as Coolie *Bazar*, and also having regard to the fact that the whole of the said ward is exclusively under the control of the military authorities, it is desirable that the said ward should be specially represented in the Corporation.

(*3*) This ward is an isolated one, it being separated from the other wards by the Maidan and Tolly's Nullah.

I am also opposed to the amalgamation of Maniktala and Cossipore-Chitpur Municipalities with Calcutta Municipality on the following general and specific grounds :—

(*1*) The amalgamation or rather extinction of the said municipalities will deprive the inhabitants thereof from administering their own local affairs, as they have been doing since 1888.

(*2*) The area covered by the Calcutta Corporation is already too large for a single municipality and the amalgamation of the said two municipalities with Calcutta is sure to affect the efficiency of the enlarged municipality. A Councillor of Bhawanipore can not reasonably be expected to take special interest in the welfare of the rate-payers of Maniktala or Cossipore.

(*3*) It would be impossible for the Calcutta Corporation to carry out the necessary improvements of the said two municipalities within a reasonable time in its present financial position. As will appear from pages 8 and 9 of the Municipal Administration Report of Calcutta for the year 1920-21, the actual expenditure during the said year was more than the income by Rs. 9,58,645, and it has been decided to keep in abeyance certain projects which are not urgent and to concentrate the future resources of the Corporation on the scheme for the improvement of the water-supply. It will further appear from page 9 of the said Report that the margin up to which further borrowing is permissible is about two crores and a-half. The Corporation has committed itself to a scheme for the improvement of the water-supply which will cost them not less than two crores of rupees, and they are likely to incur an expenditure of about one crore of rupees for the improvement of the drainage of the city. The Corporation, as will appear from page 33 of the said Report, will have to make an annual contribution of about four lakhs of rupees for the promotion of primary education in Calcutta. It appears from the note which has been prepared by the Chairman of the Calcutta Corporation that it will cost them about ninety lakhs of rupees for the improvement of the drainage, water-supply and lighting of the said two municipalities. Assuming that the rate of interest would be six and a-half *per cent.* and the sinking fund contribution two *per cent.* then about seven lakhs and a-half will have to be paid by the Corporation to meet the interest and other loan charges. Having regard to the deficit in the current revenue of the Corporation, deficit in the actual borrowing capacity to meet the loan works which have already been committed by the Corporation and the said heavy sum of money the said Corporation will have

to pay every year to meet the loan charges for the improvement of drainage, water-supply and lighting of the said two municipalities, it would be most undesirable to amalgamate the said municipalities with the Calcutta Municipality.

(*4*) It appears from the written note of the Calcutta Corporation which was placed before the Boundary Committee appointed by the Government, that they expect an increase in the revenue of eighty *per cent.* as soon as the re-assessment of the said two municipalities by the Calcutta Corporation is carried out. But having regard to the fact that about eight thousand out of nine thousand holdings in the Maniktala Municipality are charged with a rate of twenty-five *per cent.* of the annual valuation, it will be a great hardship on the residents of the said municipalities if additional taxation is thus levied on them.

(*5*) I admit that the Select Committee have suggested a guarantee of an annual expenditure of two lakhs of rupees over and above the income derived from those municipalities for ten years, but whatever the legal obligation might be, the Corporation must spend at least seven lakhs and a-half to meet the loan charges, not for ten years but for the full period of the loan.

(*6*) If it is desirable to amalgamate the said municipalities for the sanitary improvement thereof, then certainly the Tollygunge, South Suburban and Garden Reach Municipalities should also be amalgamated for the said purpose. Is it not a fact that the rate of mortality of the last three municipalities is much higher than that of Calcutta, due to the most inadequate supply of filtered water and the absence of drainage?

(*7*) The Magistrate of the district of the 24-Parganas, who is to a certain extent responsible for the sanitation of his district, is strongly opposed to the amalgamation of the Cossipore-Chitpur Municipality. All the Commissioners of the said municipalities are also opposed to it. Even the local opinion is opposed to the said amalgamation. Is it fair to trample down the local opinion and the opinion of the representatives of the people, and thus enforce them to pay additional rates and taxes?

(*8*) Whatever assurances may be given by the Corporation to the residents of the said municipalities for the sanitary improvement thereof, I doubt whether they will be given effect to. I as a Commissioner of the area consisting of Wards 23, 24 and 25, which were amalgamated with the town proper in 1888, may state that the said wards have not as yet been materially improved and the rate of mortality in Ward No. 24 is still higher than that in any other ward of Calcutta. Though the residents of the said wards were assured of an efficient and continuous supply of filtered water, as a matter of fact there is no supply of filtered water during the mid-day when it is much needed, and the pressure ranges from 4 to 20 feet, notwithstanding the legal minimum pressure of 40 feet.

(*9*) At present there are twelve Commissioners in the Maniktala Municipality and twelve Commissioners in the Cossipore-Chitpur Municipality. It has been proposed to have four Councillors for Maniktala and five Councillors for Cossipore-Chitpur. As in the case of Commissioners of Wards 23, 24 and 25, whatever attempts may be made by the nine Councillors of the newly added area, it will be nothing but a cry in the wilderness.

(*10*) The Boundary Committee, which was appointed by Government and which has considered the written opinions of several associations and the local bodies affected by the proposed extension, and has also examined 67 witnesses, is of opinion that the Cossipore-Chitpur Municipality should not be amalgamated. I admit they have recommended the amalgamation of the Maniktala Municipality, but on condition that the Corporation shall spend at least three lakhs of rupees a year over and above the amount realized as revenue from Maniktala. As the said obligation has not been agreed to by the Corporation, it must be presumed that even the Government committee is opposed to the amalgamation of the Maniktala Municipality.

(*11*) The citizens of Calcutta are already over-burdened with taxation They are to pay heavy municipal rates and taxes. They are to contribute two *per cent.* to the Calcutta Improvement Trust. They are to pay a duty of two *per cent.* on the transfer of their landed properties in addition to a stamp duty of one and a-half *per cent.* It will therefore be a great hardship if they are called upon to pay additional municipal rates for the improvement of the said two municipalities.

(*12*) I admit that, under the Municipal Act of 1888, the Corporation were to spend at least three lakhs of rupees a year for the improvement of the areas which were added to the town of Calcutta in 1888, but they have been relieved by Government of the charges for the maintenance of the police. If, therefore, any contribution is to be made for the improvement of the sanitation of the said two municipalities it must be done, not by the citizens of Calcutta, but by the Government.

Note of Dissent by Mr. D. J. Cohen, M.L.C.

I sign the report subject to the following note of dissent.

I beg to state that I do not agree to the provisions for the amalgamation of the neighbouring municipalities of Maniktala, Cossipore-Chitpur and portions of Garden Reach and South Suburban Municipalities, on the terms proposed in the Bill. The financial position of the Corporation, which is not so strong as it was a few years ago, should not be burdened with additional responsibilities involving heavy expenditure, both capital and recurring, with the prospect of the extension of the Rent Act and the unknown indefinite and ever-increasing liabilities under the Calcutta Improvement Act. Apart from the large annual contribution and the cost of maintenance of several miles of roadways, all liabilities of the Board of Trustees on their dissolution is cast on the Corporation (*vide* section 177 of the Calcutta Improvement Act). We have not yet got over the world-wide after-effects of the great war and it would not be prudent and statesmanlike at all to undertake this amalgamation, by imposing a statutory obligation on the Corporation of Calcutta in the manner recommended.

I am also against the principle of "one man, one vote" adopted in the Bill. Its successful operation depends on an educated electorate, the absence of which renders plural voting a satisfactory means of securing a desirable candidate. The maximum number of votes a person may give should be limited to five.

Clause 137 A.—Greater facilities than what are given under section 137A should be afforded for the apportionment of the consolidated rate on separation of premises. Clause 137A aims more at revaluation than apportionment.

Clause 149(1)(c).—The Executive Officer should have no power to enhance the valuation as proposed in clause 149 (*1*) (*c*). This would open the door to unnecessary harassment and even to interference with valuations fixed by court of law. Power to reduce any valuation is given to afford relief to rate-payers. The powers under this section were never intended to be exercised for increasing any existing valuation.

Proviso to clause 154.—This proviso should be omitted. There is no reason for its inclusion; why should the Corporation force a person to erect a hut to evade this provision? If the land is used for the purpose of trade or business, the question of allowing vacancy remission does not arise.

Clause 220.—The pressure of unfiltered water should be not less than 45 feet.

Clause 237 A.—I would suggest the omission of this clause. This introduction of block meter is only feasible in areas which are well developed and where there is little prospect of new buildings being erected. The erection of a few buildings or substantial additions and alterations will affect the measurement of the total quantity of water to be supplied to the area. On the whole, having regard to sub-clause (*3*) of this clause, this fixing of the quantity would be arbitrary, and in case any water is used for fire extinguishing purposes it would not be possible to determine the quantity.

Clause 248.—I beg to state that the cutting off of water-connection should be resorted to only in the case of wilful waste of water and in no other case.

Clause 251 (2).—The word "enlarging" should be omitted, because this might involve encroachment on the land of someone else.

Clause 312 (4).—I submit that some more fair and equitable basis for the fixing of the fee should be laid down, and the payment of any fee should commence from the completion of the improvement scheme. Parties should not be required to pay the fee "in anticipation" of the benefit likely to accrue, as such "anticipation" may prove to be incorrect. The full benefit cannot be secured until the completion of the scheme as a whole; partial completion cannot in my opinion justify the levy of the full fee.

In this connection it would not be out of place to mention that in a scheme for widening a public street, land might be acquired on one side of the street only, and the liability to pay the fee would be on the owners of land on that side of the street, while the owners of properties on the other side will enjoy the benefit of the improvement free from payment of any fee whatsoever.

Clause 390.—Every facility should be given for the establishment of private markets, and I submit that this clause should be substantially modified. Private enterprise should not be unnecessarily hampered. Subject to well-defined rules and by-laws made by the Corporation, the establishment of markets should be freely allowed.

Clause 391 (1a).—The period referred to is unreasonably short. The license should be made renewable every three years, if not more.

Clause 391 (2).—The maximum fee payable ought to be fixed, otherwise it would be liable to variation at the time of every renewal.

Clause 397 (2) and (3).—The closure of a market should not be on the conviction for breach of *any by-law*, but of some specific ones, which ought to be specified.

Clause 402 (1) and (2).—These provisions should be limited to places of manufacture only, otherwise an ordinary grocer's shop would cease to exist, for he keeps in his shop articles which admit of being used as adulterants.

Clause 522.—The provision for appointing Municipal Magistrates should be dropped. The Presidency Magistrates (other than Municipal Commissioners, who are also Honorary Magistrates) should try municipal cases by turns. People have not full confidence in the Municipal Magistrates' decisions.

Schedule XVI, Rule 57.—This may well be omitted, or at best, limited to structures of (*a*) steel frame, and (*b*) reinforced concrete, owing to the fact that in (*a*) there are no regulations governing the limits of stress allowable in these structures, and in the case of (*b*) these might be designed by an inexperienced man on text-book formulæ. There can be no sufficient reason for imposing a similar obligation on persons erecting buildings of the conventional type, bearing in mind that: (*1*) in Schedule XVI of the present Bill we have remedied the defect in the existing Schedule XVII of the present Act, by clearly providing for a foundation symetrically distributed about the centre of pressure; and (*2*) the sanctioned plan clearly shows the thickness of the walls and other particulars as the conditions on which the sanction is based. A person who is about to erect a house at a cost of Rs. 50,000 and over seldom undertakes the erection of such a building without expert advice. I object to the inclusion of this provision because it would place those who wish to erect such buildings in the hands of a few licensed or approved persons, which is not at all desirable.

Sub-clause (4)—is a very stringent provision, and it might mean a serious loss to the owner of the building, as he would be forced to accept any terms of such an expert in order to complete the unfinished building.

In clause (1)—power is given to the Local Government to fix the amount of the cost of a building for the purpose of this clause. I fail to see why this should be so. If the Corporation could administer the other provisions of this Schedule without any interference of the Government there is no need for this provision. This clause as a whole will unnecessarily increase the cost of erecting a building, and in this connection, I submit that all these costs, if this provision be retained, should not be taken into account in valuing the property for the purpose of assessment under 131 (*b*).

Note of Dissent by Khan Bahadur Maulvi Abdus Salam, M.L.C., and Mr. Rajaur Rahman Khan, M.L.C.

Clause 7.—I regret that on the question of Moslem communal representation in the Calcutta Corporation, I have to dissent from the views of the majority of my colleagues on the Select Committee. I am of opinion that Muhammadan representation, if it is to be genuine, can be secured only through a separate Moslem electorate, as is the case in the matter of Moslem representation in the Legislative Council. Furthermore, as things stand at present, in every ward of Calcutta, Hindu electors outnumber Muhammadan electors in the proportion of 3 to 1. In case, therefore, two Muhammadan candidates stand from a ward for election to the Corporation, one being set up by the Hindu electors and another by the Muhammadan electors, it is absolutely certain that the Muhammadan candidate set up by the Hindu electors will be successfully returned, and the other Muhammadan candidate will be defeated. That being so, the position would be this: the Muhammadan successful candidate will represent Hindu voters and reflect Hindu opinion, though he will falsely pose with his Muhammadan name as a Muhammadan representative. I am decidedly of opinion that such misrepresentation of Muhammadan interests in the Corporation will be worse and more mischievous than Moslem non-representation. If it be really the aim of the present legislation to secure Muhammadan representation in the Corporation, I see no reason why Muhammadans should not be allowed through a separate Moslem electorate to return to the Corporation Muhammadan representatives, in whom they, and they alone, have confidence. One lame excuse has been put forward in some quarters, that in this eventuality, Muhammadan extremists will be returned to the Corporation. This excuse seems to me to be transparently hollow, in the face of the fact that in the Legislative Council we have Muhammadan representatives returned through a separate Moslem electorate, who certainly cannot be characterised as extremists.

I regret that the Hon'ble Minister in charge of Local Self-Government, who presided over the deliberations of the Select Committee, has not complied with my request to circulate amongst the members of the Select Committee the minutes of the proceedings of a conference held by him in connection with the Calcutta Municipal Bill, at which the question of Muhammadan communal representation through a separate electorate was discussed and adopted by the majority of the representatives (European, Hindu and Muhammadan) who were present at the time when the matter was voted upon. I submit the withholding of this document from the members of the Select Committee has considerably prejudiced the case for Moslem representation through a separate electorate. It is superfluous for me to add that the Government resolution of July 1913 *re.* remodelling of the constitution of the Calcutta Corporation foreshadowed the acceptance of the principle of separate Moslem communal representation through a separate electorate, and that Lord Sinha's Municipal Amendment Bill of 1918 also embodied that principle, yet in the present Bill this principle is summarily brushed aside, without any satisfactory or adequate explanation, beyond the flourishing of catch phrases borrowed from the Montagu-Chelmsford Report about "nation-building", etc., etc. The Select Committee has recommended by a majority what is called institutional representation to the Bengal Chamber of Commerce, the Calcutta Trades Association, and the Calcutta Port Commissioners, who are more or less purely European bodies. The phrase "institutional representation" cannot, therefore, mislead, or obscure the fact that "institutional" representation means practically, in another guise, European representation on the Calcutta Corporation, based on commercial interests. I do not grudge the Europeans such representation, but I do respectfully urge that in common fairness, communal representation through a separate electorate should at the same time be granted to Muhammadans, based on their communal interests, which in some cases are divergent from those of non-Moslems. I need not labour the point of such divergence in some cases; for if some Moslem interests were not divergent, why raise in the Bill the question of Muhammadan representation at all? Therefore, the position taken up by the Hon'ble Minister in the Bill in conceding Moslem representation through a mixed electorate by reserving Moslem seats and refusing to concede a separate electorate, although endorsed by the majority of my colleagues in the Select Committee, seems to me illogical and unsound. Out of 67 elected seats, only 13 are reserved for Muhammadans. This appears unduly low, and should in my opinion be raised to at least 18.

Note of Dissent by Rai Dr. Haridhon Dutt Bahadur, M.L.C.

I agree with most of the recommendations of the Committee, but there are a few matters in regard to which I find myself at variance with my colleagues. I propose to move necessary amendments in Council but I indicate here the more important of the points in regard to which I do not agree with the Committee.

2. At the outset, I cannot refrain from observing that it was a serious handicap to the Corporation, who are primarily concerned in the matter, and to the Select Committee, that their deliberations had to be completed in a hurry, and it is to be feared that the administrative chapters, which will touch the daily lives of the people of the city at so many points, particularly the later sections, have not received that consideration and care that their importance required. I realised the necessity of finishing our deliberations in time to catch the winter session of the Council, and have co-operated in my humble way to expedite the work, but I feel bound to express my regret that pressure of circumstances made it impossible to give more time to the matter.

3. The first question to which I would like to draw attention is the omission of sub-clause (*a*) of clauses 19 and 21, with a view to enfranchise women and to render them eligible for election as Councillors and Aldermen. I do not object to the removal of the disability, but my point is that it is not enough, and that in order to meet the difficulties which are bound to arise, we must form a special electorate of women voters and earmark one seat for them. Otherwise women voters will be hopelessly outnumbered in every ward, and however far we may look into the future, I can see no possibility of a woman candidate being ever returned at an election. The only result will be the exploitation of female votes by men candidates to secure their own return. I shall be glad to see women candidates returned as Councillors, because I believe that substantial progress in matters relating to public health will be more speedily achieved if we can enlist the intelligent interest and co-operation of women, particularly in matters of domestic hygiene and child welfare. I would therefore suggest that a special electorate be formed of women voters and one seat be earmarked for them.

4. In connection with clause 41, I reiterate my suggestion that if a candidate for election as a Councillor stands for more than one constituency he should make a deposit. And I would go further and make it obligatory for all candidates to make a deposit, and provide that the deposit shall be liable to forfeiture if the candidate fails to secure a minimum percentage of votes cast. This will be in accordance with the practice in England and will, to some extent, obviate bogus and malicious candidature, which only puts other candidates and the executive to unnecessary expense and trouble. I would suggest a deposit of Rs. 250, and its forfeiture if the candidate fails to secure at least ten per cent of the votes cast.

5. I object to the provision contained in clause 61 for the appointment of two Deputy Executive Officers. I am aware that we have a Vice-Chairman and a Deputy Chairman at present, but under the present arrangement, with the Chairman of the Corporation exercising the triple functions of the President of the Corporation, the President of the General Committee and the head of the Executive, and devoting so much time to meeting work, there might have been some justification for two officers to assist him, but under the new Act the head of the Executive will have only executive work, and all the time he now devotes to attendance at meetings will be saved. It may be found possible to manage with only one Deputy and the provision for two Deputy Executive Officers, in my opinion, seems unnecessary. I know that the provision is only permissive and that the Corporation may appoint only one Deputy Executive Officer, or they need not have a Deputy Executive Officer at all. But in these matters there is always a tendency to regard the permissible maximum as the standard and to work up to it. I would therefore provide for the appointment of only one Deputy Executive Officer. I may note that in the Bombay Corporation there is only one Deputy Commissioner, but even this appointment is, I believe, a recent creation.

6. I strongly object to the modification suggested in clause 448. In the Bill it was provided that before a dead body is allowed to be disposed of,

it must be accompanied by a certificate from a registrar or sub-registrar appointed by the Corporation, or from a registered medical practitioner. Instead of "registered medical practitioner", the Select committee proposed "medical practitioner holding a professional licence from the Corporation". As is well known, anybody who pays the prescribed license tax can get a trade license from the Corporation, so that the possession of a trade license is no proof of qualification. I realise that in a considerable number of cases, patients during their last illness are not attended by medical men at all, and I admit that the number of cases attended by registered medical practitioners is comparatively small. When no registered medical practitioner attends, it will be open to the registrars and sub-registrars appointed by the Corporation, the majority of whom are medical men, to grant the certificates themselves. These certificates are granted free of charge so that there will be no hardship whatever if we require a certificate from a registrar or a sub-registrar, in the absence of one from a registered medical practitioner. I object to the suggestion which the modification implies that a certificate from any medical man having a trade license shall be accepted as expert testimony. I would retain the original wording.

7. I object to the expression "without Calcutta" in the new provision contained in clause 467A (*Vid*) enabling the Corporation "to contribute towards any public fund raised for the relief of human suffering within or without Calcutta". This is too wide in scope. I would limit such contributions to the relief of human suffering in Calcutta.

8. In my opinion Cossipur-Chitpur also should have been amalgamated with Calcutta, as that would have benefited all concerned. I fear this mistake will be the cause of much trouble and loss to the next generation.

9. There are some other points in regard to which I do not agree with the Committee, but it is unnecessary to set them forth in detail here.

Note of Dissent by Mr. S. M. Bose, M.L.C.

I suggest that in Schedule XVI, Rule 23, in the case of detached buildings, the total area covered by all the buildings on a particular site should be *one-half*, and not *one-third* as in the Rule. This alteration will enable the owners to build more houses and so is likely to bring about :—

(*1*) lower rent in the existing houses. The owner will be induced to build more houses in the same area, and so the return on his investment being spread over more buildings, the existing house may be let for a lower rent, and

(*2*) there will be likely to be more houses and so the present demand for accommodation will be to some extent met.

The Rent Act will expire in the course of a few months and it is uncertain whether it will be renewed. So it is all the more necessary to offer inducements to owners to build. I believe my suggestion will have that effect.

Note of Dissent by Mr. Herbert A. Stark, M.L.C.

Schedule III of the Bill sets forth the lists of the general and special constituencies No provision has been made for the representation of the Anglo-Indian and Domiciled European rate-payers, who, being in a minority in each and every ward of the city; can have no reasonable hope of being returned by any of the ward constituencies. Obviously, for this reason, hitherto in general practice these communities have been given a nominated Commissioner; and it has been suggested that one of the eight Councillors to be appointed by the Local Government is intended for their representation [clause 5 (*b*)]. If this be the unexpressed intention, it is submitted that there ought to be no objection to a clear statement being made on the subject.

In this connection I would invite reference to the letter of the Secretary to the Anglo-Indian and Domiciled European Association, Bengal, dated the 20th July 1922, and printed in the papers No. 5, published with this Bill. The great majority of the members of the Anglo-Indian and Domiciled European population of Calcutta are literate and eligible as voters. They are quite competent to exercise their civic rights. and they should be allowed to select and return their own representative, instead of being obliged to accept whoever may be nominated to represent them—assuming that they will always, and without fail, be given a representative—as to which there is no declaration in the Bill. They ought to be constituted into a separate constituency, and vote for the return of their own Councillor. This would necessitate the reduction of the proposed nominated Councillors from eight to seven, and the increase of the elected Councillors from sixty-seven to sixty-eight.

Note of Dissent by Mr. D. C. Ghose, M.L.C.

Clause 19.—It is difficult, if not impossible, to support upon any public ground the inclusion of the President and Assessors of the Calcutta Improvement Tribunal amongst persons who are disqualified for election or appointment as Councillors or Aldermen of the Calcutta Corporation. Sub-clause (*1*) (*h*) of clause 19 of the Bill mentions the persons exercising judicial functions who are disqualified for election or appointment as Councillors or Aldermen. There is obvious ground for disqualifying a Municipal Magistrate or a Judge of a Court of Small Causes, because he tries cases in which the Corporation is a party. Perhaps it was never pointed out to the Select Committee that the President and Assessors of the Calcutta Improvement Tribunal were only concerned with cases a rising out of acquisition of land for the Calcutta Improvement Trust. The Tribunal is a Court created by statute, namely the Calcutta Improvement Act, and its functions are clearly defined in that legislation. The Tribunal cannot hear any reference arising out of acquisition of land for the Corporation of Calcutta. Such references are heard by the District Judge of the 24-Parganas. And yet the District Judge of the 24-Parganas is not a person who is disqualified for election or appointment as a Councillor or as an Alderman! It may be urged that the decision of the Select Committee was based upon the ground that it was inimical to the public interest that the Corporation should on every occasion elect one of its own members as an Assessor of the Tribunal. If this is the reason upon which the decision of the Select Committee is based, it is surprising that it was not thought worth while to consult the Corporation before its field of choice regarding the election of an Assessor of the Tribunal was curtailed. It is pertinent to inquire why the public interest is not served by the election by the Corporation of one of its own members as an Assessor of the Tribunal. During the whole of the time that the Tribunal has been in existence, Mr. A. C. Banerjee, a Commissioner of the Calcutta Corporation, has been one of its Assessors. Every two years an opportunity comes to the Corporation to elect an Assessor of the Tribunal, and on every occasion the choice of the Corporation has fallen upon Mr. A. C. Baneriee. And the reason why that choice invariably falls upon Mr. Banerjee is that he has gained knowledge and experience of valuation work, and nothing is heard or said against his work as an Assessor of the Tribunal. I suppose for reasons similar to these Government have also appointed Dr. S. C. Banerjee as President of the Tribunal, at the end of every two years. And if Government can go on repeatedly appointing Dr. Banerjee as President because they find his work to be satisfactory, surely the Corporation are also entitled for similar reasons to choose Mr. A. C. Banerjee as an Assessor of the Tribunal. I submit that no case has been made out for curtailing the field of choice of the Corporation regarding the election of an Assessor of the Tribunal. Nor is there any case whatever for preventing the President and Assessors of the Tribunal from serving the city of Calcutta in the capacity of Councillors or Aldermen. Surely it is against the public interest to rob a citizen of Calcutta of his right to serve his city unless there are grave and cogent reasons for disqualifying him. Further, it will be admitted by all, I think, that a provision in a statute should be based upon some foundation at least of logic or necessity, and should not be open to attack upon the ground that it is arbitrary and detrimental to the public interest. I submit therefore that the President and Assessors of the Calcutta Improvement Tribunal should not be included amongst the disqualified persons mentioned in clause 19 of the Bill.

(*c*) allow for a cash balance at the end of the said year of not less than six lakhs of rupees.

(Part III.—Chapter VII.—Budget Estimate.—Clauses 100, 101.)

Power to Corporation to alter budget-grants.

100. (*1*) The Corporation may from time to time during the year— [*cf.* 1899 s. 126.]

(*a*) increase the amount of any budget-grant,

(*b*) make an additional budget-grant to meet any special or unforeseen requirement arising during the same year,

(*c*) transfer the amount or a portion of the amount of any budget-grant to the amount of any other budget-grant, or

(*d*) reduce the amount of any budget-grant:

Provided as follows:—

(*i*) due regard shall be had to all the requirements of this Act, and

(*ii*) in making any increase or additional budget-grant, the estimated cash balance at the close of the year shall not be reduced below six lakhs of rupees.

(*2*) Every increase to a budget-grant and every additional budget-grant made in any year under sub-section (*1*) shall be deemed to be included in the Budget Estimate finally adopted for that year.

Power to Corporation to re-adjust income and expenditure during the year.

101. (*1*) If at any time during the year it appears to the Corporation that, notwithstanding any reduction of budget-grants that has been made under section 100, the income of the Municipal Fund during the same year will not suffice to meet the expenditure sanctioned in the Budget Estimate of that year, and to leave at the close of the year a cash balance of not less than six lakhs of rupees, then it shall be incumbent on the Corporation forthwith to sanction any measure which they may consider necessary for proportioning the year's income to the expenditure. [*cf.* 1899, s. 127]

(*2*) For the purposes of sub-section (*1*), the Corporation may either diminish the sanctioned expenditure of the year, so far as it may be possible so to do with due regard to all the requirements of this Act, or have recourse to supplementary taxation or to an increase of the rates, or adopt all or any of those methods:

Provided that the rates shall not be raised under this section beyond the maximum percentage presented under section 128, and that the supplementary taxation shall not be imposed unless two-thirds of the members of the Corporation present at a meeting have voted in favour of it.

CHAPTER VIII.

LOANS.

Power to Corporation to borrow money

102. (*1*) The Corporation may, in pursuance of a resolution passed at a meeting, from time to time raise a loan, by the issue of debentures or otherwise on the security of the consolidated rate, or of all or any of the taxes, fees and dues authorized by this Act (or of both the said rate and all or any of the said taxes, fees and dues), of any sums of money which may be required— [*Cf.* 1899, s. 128.]

(*a*) for the construction of works under this Act, or

(*b*) for the acquisition of land for the purposes of this Act, or

(*c*) to pay off any debt due to the Government, or

(*d*) to repay a loan raised under this Act:

Provided as follows:—

(*i*) no loan shall be raised without the previous sanction of the Local Government;

(*ii*) the rate of interest to be paid for any loan, and the terms (as to the time and method of repayment, and otherwise) upon which any loan is to be raised, shall be subject to the approval of the Local Government;

(*iii*) the period within which a loan is to be repaid shall in no case exceed sixty years; and

(*iv*) no loan exceeding in amount twenty-five lakhs of rupees shall be raised unless the terms, including the date of floatation, of such loan have been approved by the Government of India.

(*2*) When any sum of money has been borrowed under sub-section (*1*),—

(*i*) no portion thereof shall, without the previous sanction of the Local Government, be applied to any purpose other than that for which it was borrowed, and

(*ii*) no portion of any sum of money borrowed under clause (*a*) of sub-section (*1*) shall be applied to the payment of salaries or allowances to any municipal officers or servants, other than those who are exclusively employed upon the works for the construction of which the money was borrowed.

Determination of sums to be borrowed.

103. The Corporation shall, at a meeting to be held on or before the twenty-second day of March in each year, after considering the Executive Officer's proposals in this behalf, determine, subject to the provisions of this Act, what sums of money (if any) shall be borrowed under section 102 in the next ensuing year. [*Cf* 1899, s. 129.]

(Part III.—Chapter VIII.—Loans.—Clauses 103A—106.)

Power of Corporation to open credit account with a bank.

103A. Notwithstanding anything contained in section 102, whenever the borrowing of any sum has been sanctioned under that section, the Corporation may, instead of borrowing such sum or any part thereof from the public or any member thereof, take credit on such terms as may be sanctioned by the Local Government, from any bank on a cash account to be kept in the name of "the Municipal Corporation of the City of Calcutta" to the extent of such sum or part and, with the sanction of the Local Government, may grant mortgages of all or any of the property vested in the Corporation by way of securing the repayment of the amount of such credit or of the sums advanced from time to time on such cash account with interest. [*Cf.* Bur. Act VI of 1922, s. 45.]

Limit to borrowing powers

104. Notwithstanding anything hereinbefore contained, the borrowing powers of the Corporation shall be limited so that the sums payable under this Act during any year for interest and for the maintenance of Sinking Funds (including the payments prescribed by sub-clause (*c*) of section 112), shall not exceed ten *per cent.* on the annual rateable value of land and buildings as determined under Chapter X. [*Cf.* 1899, s. 130.]

Form, exchange, transfer and effect of debentures.

105. (*1*) All debentures issued under this Act shall be in such form, and signed by such person, as the Corporation may from time to time prescribe, with the previous sanction of the Local Government, or (in the case of a loan raised out of India) the Government of India. [1899, s. 131.]

(*2*) The holder of any debenture in any form prescribed under sub-section (*1*) may obtain in exchange therefor, upon such terms as the Corporation may from time to time determine, a debenture in any other form so prescribed.

(*3*) The holder of any debenture issued by the Corporation under the authority of any prior enactment may obtain in exchange therefor, upon such terms as the Corporation may from time to time determine, a debenture in a form prescribed under sub-section (*1*).

(*4*) Every debenture issued by the Corporation under this Act shall be transferable in such manner as shall be therein expressed.

(*5*) The right to sue in respect of the moneys secured by any such debentures, or by any debentures issued by the Corporation under the authority of any prior enactment, shall be vested in the holders thereof for the time being, without any preference by reason of some of such debentures being prior in date to others.

Signature of coupons attached to debentures.

106. All coupons attached to debentures issued under this Act shall bear the signature of the Executive Officer; and such signature may be engraved, lithographed or impressed by any mechanical process [*Cf.* 1899, s. 132.]

(Part III.—Chapter VIII.—Loans.—Clauses 107—111.)

Payment to survivors of joint payees.

107. When any debenture or security issued under this Act is payable to two or more persons jointly, and either or any of them dies, then, notwithstanding anything in section 45 of the Indian Contract Act, 1872, the debenture or security shall be payable to the survivor or survivors of such persons: [1899, s. 133.] IX of 1872.

Provided that nothing in this section shall affect any claim by the representative of a deceased person against such survivor or survivors.

Receipt by joint holder for interest or dividend.

108. Where two or more persons are joint holders of any debenture or security issued under this Act, any one of such persons may give an effectual receipt for any interest or dividend payable in respect of such debenture or security, unless notice to the contrary has been given to the Corporation by any other of such persons. [1899, s. 134.]

Repayment of loans.

109. Every loan raised by the Corporation under section 102 shall be repaid within the time approved under proviso (*ii*) to sub-section (*1*) of that section, and by such of the following methods as may be so approved, namely:— [*Cf.* 1899, s 135.]

(*a*) from a Sinking Fund established under section 110 in respect of the loan, or.

(*b*) partly from the Sinking Fund established under section 110 in respect of the loan, and (to the extent to which that Sinking Fund falls short of the sum required for the repayment of the loan) partly from money borrowed for the purpose under clause (*d*) of sub-section (*1*) of section 102.

Establishment and maintenance of Sinking Funds for such loans.

110. (*1*) Whenever the repayment from a Sinking Fund of a loan referred to in section 109, has been approved under proviso (*ii*) to sub-section (*1*) of section 102, the Corporation shall establish such a fund and shall pay into it every six months until the loan is repaid, a sum so calculated that, if regularly paid, it would, with accumulations in the way of compound interest, be sufficient, after payment of all expenses, to pay off the loan at the time approved. [*Cf.* 1899, s 136.]

(*2*) The rate of interest, on the basis of which the sum referred to in sub-section (*1*) shall be calculated, shall be such as may be prescribed by the Government of India.

(*3*) A separate Sinking Fund shall be established in respect of each loan referred to in section 109.

Power to discontinue payments into Sinking Fund.

111. Notwithstanding anything contained in section 110, if at any time the sum standing at credit of the Sinking Fund established for the repayment of any loan is of such amount that, if allowed to accumulate at the rate of interest prescribed under sub-section (*2*) of that section, it will be sufficient to repay the loan at the time approved under proviso (*ii*) to sub-section (*1*) of section 102, then, with the permission of the Local Government, further payments into such fund may be discontinued. [*Cf.* 1899, s. 137.]

(Part III.—Chapter VIII.—Loans.—Clause 112.)

Provisions regarding loans raised between the 1st April, 1881, and the commencement of the Calcutta Municipal (Loans) Act, 1914.

(*b*) on the first day of January and the first day of July in each year, in respect of such of the said loans as have not been repaid before the thirty-first day of March, 1914, a sum representing one *per cent. per annum* on the amount of each of such loans, until the loan is repaid, and

(*c*) on the first day of January and the first day of July in each year, for a period of ten years, with effect from the first day of July, 1914, the sum of sixty-six thousand rupees.

(*2*) When any of the said loans hereafter falls due for repayment, it shall be repaid—

(*i*) from the sums which have accumulated in the Sinking Fund maintained under clause (*1*) and in Sinking Fund A maintained before the commencement of the Calcutta Municipal (Loans) Act, 1914, to the extent to which six monthly payments of one *per cent. per annum* on the amount of any such loan would have accumulated at three *per cent* compound interest from the date of its commencement, and Ben. Act IV of 1914.

(*ii*) to the extent to which the sums referred to in sub-clause (*i*) of this clause fall short of the sum required for repayment of the loan—from money to be borrowed by the Corporation for the purpose, for any period not exceeding the period by which the term of the original loan falls short of forty-seven years.

(*3*) A separate Sinking Fund shall be established in respect of each amount borrowed under sub-clause (*ii*) of clause (*2*) of this section, and the provisions of sections 110 and 111, shall apply to each such Sinking Fund.

(Part III.—Chapter VIII.—Loans.—Clauses 113—116.)

113. All securities and cash jointly or severally held, before the commencement of the Calcutta Municipal (Loans) Act, 1914, by the Secretary to the Government of Bengal in the Financial Department and the Accountant-General, Bengal, as Trustees for and in respect of Sinking Fund A referred to in sub-clause (*i*) of clause (*2*) of section 112 and transferred by them to the Corporation in pursuance of the provisions of that Act, shall be held by the Corporation as part of the Sinking Fund established under section 112. [*Cf.* 1899, s. 139.] Ben. Act IV of 1914

Power to Corporation to consolidate their loans

114. (*1*) Notwithstanding anything contained in this Act, the Corporation may consolidate all or any of their loans, and for that purpose may invite tenders for a new loan (to be called 'the Calcutta Municipal Consolidated Loan, 19 ') and invite holders of municipal debentures to exchange their debentures for scrip of such loan. [1899, s. 140.]

(*2*) The terms of every such consolidated loan, and the rates at which exchange into such consolidated loan shall be permitted, shall be subject to the previous approval of the Government of India.

(*3*) The period for the extinction of any such consolidated loan shall not, without the sanction of the Government of India, extend beyond the furthest date within which any of the loans to be consolidated would otherwise be repayable.

(*4*) The Corporation shall provide for the repayment of every such consolidated loan by establishing a Sinking Fund therefor.

(*5*) The provisions of sections 110 and 111 shall apply to each Sinking Fund established under sub-section (*4*):

Provided that, in calculating the sum to be paid into any such Sinking Fund in pursuance of section 110, any sums transferred to that fund in pursuance of proviso (*i*) or proviso (*ii*) to section 118 shall be taken into account.

Time for repayment of money borrowed to extinguish previous loan.

115. The time for the repayment of any money borrowed under this Act for the purpose of extinguishing any previous loan shall not, except with the express sanction of the Government of India, extend beyond the unexpired portion of the period for which such previous loan was sanctioned. [1899, s. 141.]

(*a*) Government securities, or

(*b*) securities guaranteed by the Government, or

(*c*) Calcutta Municipal debentures, or

(*d*) debentures issued by the Commissioners for the Port of Calcutta, or

(*3*) Moneys standing at credit of two or more Sinking Funds may, at the discretion of the Corporation, be invested together as a common fund, and it shall not be necessary for the Corporation to allocate the securities held in such investments among the several Sinking Funds.

(*4*) Any investment made under this section may from time to time, subject to the provisions of sub-section (*1*), be varied or transposed.

Power to Corporation to reserve a portion of loan-debentures for investment of Sinking Funds.

117. (*1*) For the purpose of investing any portion of the Municipal Fund (including Sinking Funds) the Corporation may, with the previous sanction of the Local Government, reserve and set apart for issue at par to and in the name of the Corporation of Calcutta any portion of the debentures to be issued on account of any loan, provided that the intention so to reserve and set apart such debentures shall have been notified as a condition of the issue of the loan. [*Cf.* 1899, s. 141B.]

(*2*) The issue of any such debentures to the Corporation, as aforesaid, shall not operate to extinguish or cancel such debentures, but every debenture so issued shall be valid in all respects as if issued to and in the name of any other person.

(*3*) The purchase by, or the transfer, assignment or endorsement to, the Corporation, of any debenture issued by the Corporation shall not operate to extinguish or cancel any such debenture, but the same shall be valid and negotiable in the same manner and to the same extent as if held by, or transferred, assigned or endorsed to any other person.

Application of Sinking Funds.

118. Until any loan is wholly repaid, the Corporation shall not apply the Sinking Fund established in respect of that loan to any purpose other than the repayment of that loan: [*Cf.* 1899 s. 140]

Provided that—

(*i*) when any loan, or, part thereof which is raised after the commencement of this Act, is consolidated under section 114, the Corporation shall transfer to the Sinking Fund established for such consolidated loan the sum standing at credit of the Sinking Fund of the original loan, or if part only of a loan is consolidated, then such part of the sum standing at credit of the Sinking Fund of the original loan as is proportionate to the amount of the original loan which is incorporated in the consolidated loan; and

(*ii*) when any loan, or part thereof, which was raised before the commencement of the Calcutta Municipal (Loans) Act, 1914, has been consolidated, the Corporation shall transfer such amounts as the Government of India may direct from the Sinking Fund maintained under clause (*1*) of section 112, and from Sinking Fund A maintained before the commencement of the said Act to the Sinking Fund established for consolidated loans under section 114, sub-section (*4*). Ben. Act IV of 1914.

(*b*) the date of the last investment made previous to the submission of the statement.

(*c*) the aggregate amount of the securities then in the hands of the Corporation, and

(*d*) the aggregate amount which has, up to the date of the statement, been applied under section 118, in or towards repaying loans.

(*2*) Every such statement shall be laid before a meeting of the Corporation and published in the *Calcutta Gazette*.

Priority of payments for interest and repayment of loans over other payments.

120. All payments due from the Corporation for interest on and repayment of loans shall be made in priority to all other payments due from the Corporation. [*Cf.* 1899 s. 141E.]

Annual examination of Sinking Funds.

121. (*1*) All Sinking Funds established under this Act shall be subject to annual examination by the Accountant-General, Bengal, who shall ascertain whether the cash and the value of the securities belonging thereto are actually equal to the amount which should be at the credit of such funds had investments been regularly made and had the rate of interest as originally estimated been obtained therefrom. [*Cf.* 1899, s. 141F.]

(*1a*) The amount which should be at the credit of a Sinking Fund shall be calculated on the basis of the present value of all future payments required to be made to such fund under the provisions of this Act, on the assumption that all investments are regularly made and the rate of interest as originally estimated is obtained therefrom.

The value of securities belonging to a Sinking Fund shall be their current value unless they fall due for redemption at par or above before maturity of the Fund in which case their current value shall be taken as their redemption value, except in the case of Calcutta Municipal Debentures which shall always be valued at par, provided that the Corporation shall make good immediately any loss which may accrue on the actual sale of such debentures at the time of the repayment of the loan.

(*2*) The Corporation shall forthwith pay into any Sinking Fund any amount which the Accountant-General may certify to be deficient, unless the Local Government specially sanction a gradual readjustment.

(*3*) If the cash and the value of the securities at credit of any Sinking Fund are in excess of the amount which should be at its credit, the Accountant-General shall certify the amount of such excess sum, and the Corporation may thereupon transfer the excess sum to the Municipal Fund.

(*4*) If any dispute arises as to the accuracy of any certificate made by the Accountant-General under sub-section (*2*) or sub-section (*3*), the Corporation may, after making the payment or transfer therein mentioned, refer the matter to the Local Government, whose decision shall be final.

Attachment of Municipal Fund for recovery of money borrowed from the Government.

122. (*1*) If any money borrowed by the Corporation from the Government, whether before or after the commencement of this Act, or any interest or costs due in respect thereof, is or are not repaid according to the conditions of the loan, the Local Government may attach the Municipal Fund or any portion thereof. [*Cf.* 1899, s. 141G.]

(*2*) After such attachment, no person except an officer appointed in this behalf by the Local Government shall in any way deal with the attached fund or portion thereof; but such officer may do all acts in respect thereof which the Corporation or any Municipal Officer or servant might have done if such attachment had not taken place, and may apply the proceeds in satisfaction of the arrear and of all interests and costs due in respect thereof and of all expenses caused by the attachment and subsequent proceedings:

Provided that no such attachment shall defeat or prejudice any debt for which the fund attached was previously pledged in accordance with law; but all such prior charges shall be paid out of the proceeds of the fund before any part of the proceeds is applied to the satisfaction of the debt due to the Government.

Attachment of Municipal Fund for securing payment into Sinking Fund.

123. If the Corporation fail to make any payment as required by section 121, sub-section (*2*), the Local Government may attach the Municipal Fund or any portion thereof; and the provisions of section 122, sub-section (*2*), shall, with all necessary modifications, be deemed to apply. [*Cf.* 1899, s. 141H.]

(Part III.)

CHAPTER IX.

(*b*) furnish to the Corporation such information as the Corporation may from time to time require concerning the progress of their audit; and

(*c*) as soon as may be after the completion of their audit, deliver to the Corporation a report upon the municipal accounts.

Corporation to report to Local Government action on defects.

127. It shall be the duty of the Corporation to report to the Local Government as soon as possible the action taken by them, or in the case of a difference of opinion between the Corporation and the auditors the action which they propose to take, in respect of any defects or irregularities that may be pointed out by the auditors; and it shall be competent to the Local Government to pass such orders as they think fit upon such report, and such orders shall be final.

PART IV.

CHAPTER X.

THE CONSOLIDATED RATE.

Imposition of consolidated rate.

Power to Corporation to impose consolidated rate.

128. A consolidated rate not exceeding twenty-three *per cent.* on the annual valuation determined under this chapter may be imposed by the Corporation upon all lands and buildings in Calcutta for the purposes of this Act. [*Cf.* 1899, s. 148.]

Amount of consolidated rate, how to be fixed.

129. The amount of the said rate shall be fixed annually, in the manner provided in Chapter VII, with reference to the requirements of the Municipal Fund. [*Cf.* 1899, s. 149.]

Exemptions.

Exemptions from consolidated rate.

130. (*1*) Buildings used exclusively for purposes of public worship, and public burial or burning grounds or other places for the disposal of the dead duly registered under Chapter XXXI, shall be exempt from the consolidated rate; [*Cf.* 1899 s. 150.]

and the Corporation may either wholly or partially exempt from the consolidated rate any land or building used exclusivoly for purposes of public charity:

Provided that the following land and buildings shall not be deemed to be used exclusivoly for public worship or for purposes of public charity within the meaning of this section, namely,—

(*a*) land or buildings in or on which any trade or business is carried on; and

(*b*) land or buildings in respect of which rent is derived, whether such rent is or is not applied exclusively to religious purposes or purposes of public charity.

(*2*) Open spaces and parade grounds, which are the property of Government and over which, when not required for military purposes, the public are allowed to have free access, shall be exempted from the consolidated rate, if the Local Government so direct.

(*3*) The Corporation may exempt the owner of any hut from payment of the whole or any portion of the consolidated rate payable in respect of such hut, and in any such case they may exempt the owner of the land on which the hut is built, or not, as they think fit.

(*4*) The Corporation may, by resolution, exempt from the consolidated rate all lands and buildings the annual valuation of which, as determined under this chapter, does not exceed twenty rupees or such smaller sum as may be specified in such resolution:

(*Part IV.—Chapter X.—The consolidated rate.—Clause 131.*)

Provided that no person shall be entitled to claim the benefit of such exemption if he owns or occupies more than one piece of land or one building and the aggregate annual valuation of all the lands or buildings owned or occupied by him exceeds twenty rupees or the said smaller sum.

Assessment of lands and buildings to the consolidated rate.

[Annual value of land or building, how to be ascertained.

131. For the purpose of assessing land and buildings to the consolidated rate,— [*Cf.* 1899, s. 151.]

(*a*) the annual value of land, and the annual value of any building erected for letting purposes or ordinarily let, shall be deemed to be the gross annual rent at which the land or building might at the time of assessment reasonably be expected to let from year to year, less, in the case of a building, an allowance of ten *per cent.* for the cost of repairs and for all other expenses necessary to maintain the building in a state to command such gross rent; and

(*b*) the annual value of any building not erected for letting purposes and not ordinarily let shall be deemed to be five *per cent.* on the sum obtained by adding the estimated present cost of erecting the building, less a reasonable amount to be deducted on account of depreciation (if any), to the estimated present value of the land valued with the building as part of the same premises:

Provided as follows:—

(*i*) the annual value of a *bustee* shall be deemed to be the gross annual rent at which the land contained within it, excluding the lands which have been left vacant in pursuance of any *bustee* road alignment scheme of the Corporation, might reasonably be expected to let from year to year, *plus* the gross annual rent at which the huts erected thereon might reasonably be expected to let from year to year, after deducting therefrom the rent of the land and an allowance of ten *per cent.* for the cost of repairs and for all expenses necessary to maintain such huts in a state to command such gross rent;

(*ii*) in calculating the value of any land or building under this section, the value of any machinery on such land or in such building shall be excluded;

(Part IV.—Chapter X.—The consolidated rate.—Clause 132.)

(*iii*) if in the case of a building valued under clause (*b*) and the annual rental value of which does not exceed five hundred rupees, any exceptional circumstances exist which render a valuation of five *per cent.* on the cost of erecting the building less depreciation, excessive, a lower percentage may be taken;

(*iv*) when any building has been valued at a special percentage taken under proviso (*iii*), it may be re-valued at any time after the exceptional circumstances referred to in that proviso have ceased to exist.

Annual value of land or building belonging to the Calcutta Improvement Trust.

132. For the purpose of assessing land and buildings belonging to the Board of Trustees for the Improvement of Calcutta to the consolidated rate, the annual value of such land or building acquired by purchase or otherwise by the Board for the execution of an improvement scheme as defined in clause (*f*) of section 2 of the Calcutta Improvement Act, 1911, which has been framed after the commencement of this Act, shall be deemed to be five *per cent.* on the cost of acquisition thereof, subject, on application made in this behalf by the Board, to revision by the Local Government; and such annual value shall be fixed from the date of the acquisition in each succeeding quarter on the basis of such cost, and shall, notwithstanding anything contained in section 135, remain in force until the streets (if any) laid out or altered and the open spaces (if any) provided in executing the scheme have vested in the Corporation under section 65 of the said Act. Ben. Act V of 1911.

Explanation.—For the purposes of this section the cost of acquisition means—

(*a*) in the case of land and buildings acquired under the Land Acquisition Act, 1894, as amended by the Calcutta Improvement Act, 1911, the value of the land and buildings as determined by the Land Acquisition Collector or by the Tribunal under the Calcutta Improvement Act, 1911, or by any other higher appellate authority; I of 1894. Ben. Act V. of 1911

(*b*) in the case of land and buildings acquired by private treaty, the purchase price of such land or buildings;

(*c*) in the case of land and buildings taken for an improvement scheme under section 54 or section 55 of the Calcutta Improvement Act, 1911, such amount as may be determined under either of those sections; and

(*d*) in any other case, including the erection of any new structures subsequent to the acquisition, such valuation as may be determined by the Executive Officer.

(Part IV.—Chapter X.—The consolidated rate.—Clauses 133—135.)

No remission for vacancy in the case of land or building belonging to the Board.

133. Notwithstanding anything contained in sections 154 to 159, and subject to the provisions of section 132, when any land or building belonging to the Board is valued under section 132, no remission or refund of the consolidated rate assessed in respect of such land or building shall be allowed on the ground that it is unoccupied, but both the owner's and the occupier's share of the consolidated rate shall be payable in full as long as such land or building belongs to the Board and is assessed under section 132.

Revaluation of land or building vested in the Board after execution of an improvement scheme.

134. [*Cf.* 1899 s. 341.]

(*2*) If the expense of removing or altering any such structure or fixture is paid by the occupier of the building, in any case in which the same was not erected by himself, he shall be entitled to deduct any reasonable expense incurred for the purposes of such removal or alteration from the rent payable by him to the owner of the building.

(Part V.—Chapter XX.—Streets and public places.—Clauses 302—303.)

Provided that failure or omission to serve such notice on any owner shall not invalidate proceedings under this section.

(3) The Corporation shall consider all objections received within the said period, and shall hear any objector who comes forward within such period as they may fix in this behalf, and may then make an order prescribing a building-line or a street alignment, or both a building-line and a street alignment for such public street.

A register or book with plans attached shall be kept by the Corporation showing all public streets in respect of which a building-line or street alignment has been prescribed, and such register shall contain such particulars as to the Executive Officer may appear to be necessary and shall be open to inspection by any person upon payment of such fee as may from time to time be prescribed by the Corporation.

[*cf.* 1899, s. 355.]

(*2*) In determining such compensation under section 513, the court shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction or improvement of any other public street, square or garden, at or about the same time that the public street, square or garden, on account of which the compensation is paid, is closed.

Projected public streets.

309. (*1*) The Corporation may from time to time prepare schemes and plans of projected public streets, showing the direction of such streets, the street alignment and building-line on each side of them, their intended width, and such other details as may appear desirable. [*cf.* 1899, s. 356]

(*2*) The width of such projected streets, inclusive of space for foot-paths, shall not be less than forty feet or, in a *bustee*, twenty feet:

Provided that—

(*ia*) the Corporation may, for special reasons, reduce the width of any projected street, but not so as to be less than thirty feet or in a *bustee* sixteen feet; and

(*b*) the buildings (if any) standing upon such land.

(*2*) The Corporation, with the sanction of the Local Government, and after giving due notice of their intention and an opportunity to any objector, who appears within such period as they may fix, to be heard in this connection, may acquire, in addition to any land and buildings acquired under sub-section (*1*), any land outside any proposed street alignment, with the buildings (if any) standing thereupon, which the Corporation may, for any of the purposes mentioned in sub-section (*1*), including the recoupment of the cost or any portion of the cost of any such improvement or project, consider it expedient to acquire.

(*2*) The Corporation shall admit every such application if it reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land: I of 1894

Provided that unless the application is made by all the persons who have an interest in the land greater than a lease for years having seven years to run, the application shall not be deemed to be admitted unless the person applying undertakes to pay in one instalment the full fee payable under sub-section (*3*) and thereafter pays such fee.

Explanation.—A mortgagee shall not be deemed to be a person having an interest in the land greater than a lease for years having seven years to run.

(*3*) If the Corporation decide to admit any such application, they shall forthwith inform the Collector, and the Collector shall thereupon stay proceedings for the acquisition of the land, for such period as the Corporation may request, and the Corporation shall proceed to fix a fee in consideration of which the acquisition of the land may be abandoned.

(Part IV.—Chapter XX.—Streets and public places.—Clause 312.)

(*4*) In fixing the fee to be paid in consideration of the abandonment of the acquisition of the land, the Corporation shall, so far as to them may appear to be practicable, fix a sum which in their opinion represents two-thirds of the increment in the value of the land, which will in their opinion accrue to that land as a result of the improvements effected in the locality by the scheme for the purposes of which the acquisition has been sanctioned.

(*5*) Such fee shall be payable by the applicant on or before a date to be fixed by the Corporation in this behalf; and such date shall not be less than four years from the publication of the notification under section 6 of the Land Acquisition Act, 1894, nor shall such date be a date before that on which the scheme is declared by the Corporation to be completed in so far as it affects such land.

(*6*) Before the date so fixed, the person from whom the Corporation have arranged to accept the said fee, may, if the Corporation are satisfied that the security offered by him is sufficient, execute an agreement with the Corporation either—

(*i*) to leave the said fee outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at a rate not exceeding seven *per cent. per annum*, the said interest to run from the date fixed under sub-section (*5*), or

(*ii*) to pay the said fee by such number of equal yearly or half-yearly instalments of principal or of principal and interest, as may be approved by the Corporation, interest in both cases being calculated at a rate not exceeding seven *per cent. per annum* on the amount outstanding.

(*7*) When the said fee has been paid on or before the date fixed under sub-section (*5*), or when an agreement has been executed in pursuance of sub-section (*6*) in respect of any land, the proceedings for the acquisition of the land shall be deemed to be abandoned.

(*8*) If the said fee be not paid on or before the date fixed under sub-section (*5*), the Collector shall then proceed to acquire the land.

(*9*) If any sum payable under an agreement executed in pursuance of sub-section (*6*) be not paid on the date on which it is due, or on such later date as the Corporation may in their discretion fix in this behalf, so much of the fee fixed by the Corporation under section (*3*) as is still unpaid, shall be payable on the date, in addition to the said sum.

(Part V.—Chapter XX.—Streets and public places.—Clauses 313—315.)

(*10*) At any time after an agreement has been executed in pursuance of clause (*i*) of sub-section (*6*) any person may pay off the balance outstanding of the charge created thereby, with interest due, if any, at a rate not exceeding seven *per cent. per annum*, up to the date of such payment.

Recovery of money payable in pursuance of section 312.

313. When an agreement has been executed by any person in pursuance of section 312, sub-section (*6*), in respect of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the Corporation (together with interest up to the date of realization, at a rate not exceeding seven *per cent. per annum*), under the provisions of this Act; [*Cf.* 1899, s. 357, and Ben Act V of 1911, s. 79.]

and, if not so recovered, the Corporation may, after giving public notice of their intention to do so, and not less than one month after the publication of such notice, sell the interest of the said person or successor in such land by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

Agreement or payment under section 312 not to bar acquisition under a fresh declaration.

314. If any land in respect of which an agreement has been executed, or a payment has been accepted, in pursuance of section 312, sub-section (*6*), be subsequently required for any of the purposes of this Act, the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration published under section 6 of the Land Acquisition Act, 1894. [*Cf.* 1899, s. 357, and Ben Act V of 1911, s. 80.] I of 1894.

Special provisions as to private streets.

Making of new private streets.

315. (*1*) Any person intending to make or lay out a new private street shall send to the Corporation a written notice, with plans and sections showing the following particulars of the proposed street, namely :— [*Cf.* 1899, s. 358.]

(*a*) the level, width and alignment thereof, and

(*b*) [*Omitted.*]

(*c*) the arrangements to be made for levelling, paving, metalling, flagging, channelling, sewering, draining and lighting the street.

(*2*) The provisions of this Act as to the width of public streets and the height of buildings abutting thereon, and as to projected public streets, shall respectively apply in the case of streets referred to in sub-section (*1*); and all the particulars referred to in that sub-section shall be subject to approval by the Corporation:

Provided that the Corporation may allow a private street to be made or laid out of a width less than forty feet but not less than twenty feet, and, if the street is less than two hundred feet in length, the maximum width of such street may ordinarily be taken to be thirty feet instead of forty feet.

[*Second proviso omitted.*]

(Part V.—Chapter XX.—Streets and public places.—Clauses 316, 317.)

(*3*) Within ninety days after the receipt of any notice under sub-section (*1*), the Corporation shall either sanction the making of the street, or disallow it, or ask for further information with respect to such street.

(*4*) Such sanction may be refused—

(*i*) if the proposed street would conflict with any arrangements which have been made, or which are in the opinion of the Corporation likely to be made within a reasonable period, for carrying out any general scheme of street improvement, or

(*ii*) if the proposed street does not conform to the provisions of this Act referred to in sub-section (*2*), or

(*iii*) if the proposed street is not designed so as to connect at one end with a street which is already open.

(*5*) If further information is asked for under sub-section (*3*), no steps shall be taken to make or lay out the street until orders have been passed upon receipt of such information, and such orders shall be passed within ninety days of the receipt of such further information.

Prohibition of breach of section 315

316. No person shall make or lay out any street referred to in section 315, sub-section (*1*),— [*Cf.* 1899, s. 359.]

(*a*) until he has obtained the sanction of the Corporation under that section, or

(*b*) in contravention of any orders made thereunder.

Alteration or demolition of street made in breach of section 315.

317. (*1*) If any person makes or lays out any street referred to in section 315, sub-section (*1*), without having obtained the sanction of the Corporation under that section, or in contravention of any orders made thereunder, they may, whether or not the offender be prosecuted under this Act, by written notice,— [*Cf.* 1899, s. 360.]

(*a*) require the offender to show sufficient cause, by a written statement signed by him and sent to the Corporation on or before such day as may be specified in the notice, why such street should not be altered to their satisfaction or, if such alteration be impracticable, why such street should not be demolished, or

(*b*) require the offender to appear before them, either personally or by a duly authorized agent, on such day and at such time and place as may be specified in the notice, and show cause as aforesaid.

(*2*) If any person on whom such notice is served fails to show sufficient cause, to the satisfaction of the Corporation, why such street should not be so altered or demolished, they may cause the street to be so altered or demolished, and the expenses thereof shall be paid by such person.

(Part V.—Chapter XX.—Streets and public places.—Clauses 318, 319.)

Levelling, etc., of private streets.

318. (*1*) If any private street or any part thereof be not levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Corporation, they may, by written notice to the owner of such private street or the respective owners of the land fronting, adjoining or abutting upon such street or part, as the case may be, from time to time require them to level, pave, metal, flag, channel, sewer, drain and light such street or part. [*Cf.* 1899, s 361.]

(*2*) If such notice be not complied with and the Corporation, under section 500, sub-section (*2*), execute the works mentioned or referred to therein, the expenses thereby incurred shall be paid by the owner of such private street or the owners in default, in such proportion as may be settled—

(*a*) by the Corporation, or,

(*b*) in case of dispute, by the Court under section 513.

Power to Corporation to take over private streets.

319. If any private street which conforms to the provisions of this Act referred to in section 315, sub-section (*2*), be levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Corporation, and if a majority of— [*Cf* 1899, s 362.]

(*a*) the owners of land or buildings in such street, or

(*b*) the owners of the street, or

(*c*) the owners who have paid the expenses referred to in section 318, sub-section (*2*),

signify in writing their consent thereto, the Corporation shall declare the same, by written notice put up in any part of such street, to be a public street, and thereupon the same shall become a public street and shall vest in the Corporation:

Provided that, where a private street has been in existence for not less than thirty years and is used by the people of the locality as a thoroughfare, the Corporation may declare such street to be a public street even though it does not strictly comply with the provisions of this chapter, if—

(*a*) the owners of lands and buildings in such street, or

329B. The Corporation shall not refuse sanction to the erection of a boundary wall exceeding ten feet in height or to any addition to any boundary wall so as to make it exceed ten feet in height on the ground that such boundary wall or such addition would cause interference with an existing easement in favour of, or prevent the acquisition of an easement by, the owner of adjacent premises.

332. None of the powers conferred by any of the following sections of this chapter shall be exercisable in respect of— [*Cf.* 1899, s. 399.]

(*a*) any *bustee* the total area of which, as comprised within the limits defined under section 331, is less than two *bighas*, or

332A. (*1*) Notwithstanding anything contained in section 332, the Corporation may, for sanitary reasons, require the owner of any *bustee* of which the total area as comprised within the limits defined under section 331 is more than ten *cottahs* but less than two *bighas*,—

(*a*) to open up and construct such passages, not exceeding twelve feet in width, between the huts, and to provide such surface drains and latrines for the use of the tenants of the *bustee*, as the Corporation may think necessary, and

(*b*) to remove the whole or any portion of a hut, provided that the owner of the hut shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, as the Corporation may determine.

(*2*) When the Corporation propose to issue a requisition in respect of any *bustee* under sub-section (*1*), they shall prepare a standard plan showing the proposed improvements, and may then, by written notice, call on the owner of the *bustee* to show cause why the *bustee* should not be improved within a date to be fixed in conformity with the said plan.

to prepare and submit a plan of the *bustee*, to the scale of twenty-five feet to the inch, showing—

(*a*) the manner in which the *bustee* should be laid out, with the huts standing in regular lines and with a free passage, in front of and behind each line, of such width as may be necessary for proper ventilation and for scavenging,

(*d*) the streets and passages which are to be maintained for the benefit of the tenants,

(*e*) [*Omitted.*]

(*f*) the tanks, wells and low lands which are to be filled up and the tanks which are to be conserved, and

(*g*) any other proposed improvements:

Provided that when there are two or more owners of a *bustee* the Corporation may require them to prepare and submit a joint plan of the *bustee*.

(*2*) The streets referred to in clause (*d*) of sub-section (*1*) shall be not less than sixteen feet wide and ordinarily not more than two hundred feet apart, and the passages referred to in that clause shall be not less than twelve feet wide.

(*3*) If there is any masonry building within the limits of the *bustee*, the said plan shall be so prepared as clearly to distinguish such building and the land pertaining to it.

(*4*) The said plan—

(*i*) shall be considered by the Corporation and modified in such manner as may be required, and

(*ii*) shall, when approved by them, be deemed to be the standard plan of the *bustee*.

(*a*) do not agree among themselves in the preparation of a plan as required by such notice, or

(*b*) for any reason prefer to have a plan prepared for them by the Corporation, or

(*c*) fail to comply within sixty days with such notice,

the Corporation shall cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the Corporation or a person holding the diploma of Public Health or such other qualification as may be prescribed by the Corporation in this behalf, and the other an

(Part V.—Chapter XVII.—Bustees.—Clauses 335—338.)

engineer, and the Corporation on receipt of their report shall cause a plan to be prepared to the scale and showing the particulars prescribed in the said section.

(*2*) When a plan has been prepared under sub-section (*1*), the Corporation shall fix a day for the hearing of objections (if any) made by or on behalf of the owners of the *bustee* and the owners of huts or masonry buildings therein,

and, after hearing such objections, may, in their discretion, approve such plan either with or without modifications.

(*3*) Every plan of a *bustee* approved under sub-section (*2*) shall be deemed to be the standard plan of the *bustee*.

(*4*) When the Corporation cause a plan to be prepared under sub-section (*1*), they may charge the said owners therefor at a rate not exceeding five rupees *per bigha*.

Suspension of building pending preparation of standard plan.

335. When the owner of a *bustee* has been required under section 333 to prepare a plan, no new building which is a hut shall be erected and no hut shall be added to within the *bustee* until a plan has been prepared and approved under that section or under section 334. [*Cf.* 1899, s. 402.]

Prohibition of building contrary to standard plan.

336. When a standard plan has been approved for any *bustee* under section 333 or section 334, no new building which is a hut shall be erected and no hut shall be added to in such *bustee* unless the hut, or the portion to be added, as the case may be, occupies a site, or portion of a site, marked in the standard plan as the site for a hut. [*Cf.* 1899, s. 403.]

(*1*) When a standard plan has been approved for any *bustee* under section 333 or section 334, the Corporation may at any time, by written notice, require the owner of any hut in such *bustee*, which is not in conformity with the standard plan, to remove the whole or any portion of such hut. [*Cf.* 1899, s. 404.]

(*2*) When a hut or portion of a hut has been removed in compliance with a requisition made under sub-section (*1*), the owner thereof shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, less the value of the materials, if the owner elects to take these, as the Corporation may determine.

Power to Corporation to require carrying out of other improvements in conformity with standard plan.

338. (*1*) The Corporation may at any time, by written notice, require the owner of any *bustee* for which a standard plan has been prepared under section 333 or section 334— [*Cf* 1899 s. 405.]

(*a*) to construct the drains, privies, streets and passages, provide the means of lighting, water-supply and common bathing arrangements, and carry out the other improvements shown in such plan, so far as may be practicable having regard to the existing arrangement of the huts, and

(*b*) if any tank, well or low land is shown in such plan as to be conserved or filled up, to conserve or fill up such tank, well or low land.

339. (*1*) If it appears to the Corporation that any *bustee*,— [*Cf.* 1899 s. 406.]

(*a*) by reason of the manner in which the huts are crowded together, or

(*b*) for any other reason,

is in such an unhealthy condition that the procedure provided by the foregoing sections of this chapter would be too dilatory to meet the emergency,

they may, after giving notice to the owners of the *bustee*, cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the Corporation or a person holding the diploma of Public Health or having such other qualifications as they may be prescribed by the Corporation in this behalf, and the other an engineer. In appointing such persons the Corporation shall consider any proposals made by the owner of the *bustee* in this connection

(*2*) The said persons shall forthwith—

(*a*) make, sign and submit a written report on the sanitary condition of the *bustee*, and

(*b*) annex to the report a plan approved by them as a proper standard plan of such *bustee*, and

(*c*) certify—

(*i*) which of the improvements required to bring the *bustee* into conformity with such plan should be taken in hand forthwith in consequence of the unhealthy condition of the *bustee*, and

(*ii*) which (if any) of such improvements should be deferred for action under the foregoing sections of this chapter.

(*3*) The improvements referred to in sub-clauses (*i*) and (*ii*) of sub-section (*2*) shall be specified in two separate Schedules which shall be annexed to the report and called Schedule A and Schedule B, respectively.

(*4*) The said Schedules shall clearly indicate—

(*a*) the huts which should wholly or in part be removed,

(*b*) the streets, passages and drains which should be constructed,

(*c*) the means of lighting, water-supply, common bathing arrangements and common privy accommodation to be provided for the use of the tenants,

(*d*) the tanks, wells and low lands which should be filled up,

(*e*) any other improvements which the two persons appointed under sub-section (*1*) may consider necessary in order to remove or abate the unhealthy condition of the *bustee*, and

(*f*) any masonry building within the *bustee*, and any land pertaining to such building which it may be necessary to purchase or acquire for the purpose of making such streets or passages, or effecting any such improvement. [*Cf.* 1899, Sch. XVII, rule 16A (*a*).]

(*5*) A report (together with the Schedules annexed thereto) made and signed under this section by any two persons appointed under sub-section (*1*) shall be sufficient evidence of the result of such inspection.

Approval by Corporation of standard plan and schedules annexed to such report.

340. (*1*) The Corporation shall consider every report (together with the plan and Schedules A and B annexed thereto) made under section 339, and, after hearing the objections (if any) of the owner of the *bustee* in respect of which the report has been made, and of any owner of any hut which is required to be demolished or altered and of the owner of any masonry building which is to be dealt with under sub-section (*4*) of section 339, may approve such plan and schedules after making such modifications (if any) therein as they may think fit. [*Cf.* 1899, s. 407.]

(*2*) The plan so approved shall be deemed to be the standard plan of such *bustee*.

Power to Corporation to require owners or occupiers to carry out improvements specified in Schedule A.

341. When Schedule A. annexed to a report made under section 339, has been approved under section 340, the Corporation may cause a written notice to be served upon— [*Cf.* 1899, s. 408.]

(*a*) the owners or occupiers of the huts referred to in such Schedule A, or

(*b*) the owners of the *bustee* in which such huts are situated, or

(*c*) both such owners and occupiers, if necessary,

requiring them to carry out all or any of the improvements specified in that schedule or any portion of such improvements.

Payment of expenses incurred in carrying out improvements.

342. When any improvements required by a notice under section 341 are carried out by the Corporation under section 500, all expenses incurred thereby, including such reasonable compensation as the Corporation may think fit to pay to the owners or occupiers of huts removed, [*Cf.* 1899, s. 409.]

shall be paid by the owner of the *bustee* to the Corporation and shall constitute a charge upon such *bustee* :

Provided that, notwithstanding anything contained in section 506, if it appears to the Corporation that any such owner is unable, by reason of poverty, to pay such expenses or any portion thereof, in the case of expenses relating to work which should, in

the opinion of the Corporation, have been done by the owners or occupiers of huts within the *bustee*, they may order the same or any portion thereof to be paid out of the Municipal Fund, and in the case of expenses which should be paid by the owner of the *bustee*, they may order the same or any portion thereof to be advanced out of the Municipal Fund, but thereafter to constitute a charge upon such *bustee*.

343. (*1*) If, in carrying out any improvement as provided in section 341, the Corporation cause any hut or portion of a hut to be pulled down, they shall— [*Cf.* 1899, s. 410.]

(*a*) cause the materials of such hut or portion of a hut to be given to the owner of the hut if such owner elects to take them; or

(*b*) if the owner does not elect to take the materials, or if the owner be unknown or the title to the hut be disputed, cause such materials to be sold, and hold in deposit the proceeds of the sale, together with any sum awarded as compensation under section 342.

(*2*) Any amount held in deposit under clause (*b*) of sub-section (*1*) shall be so held by the Corporation until any person obtains an order from a competent Court for the payment to him of such amount.

(*3*) A Court of Small Causes shall be deemed to be a competent Court for the purposes of this section.

Power to Corporation to purchase or acquire masonry buildings or land in *bustee*.

344. The Corporation may, at any time after the receipt of a report made under section 339, purchase or acquire— [*Cf.* 1899, s. 411.]

(*a*) any masonry building within such *bustee*, or

(*b*) any land appertaining to such building, or

(*c*) any such building, together with the land appertaining thereto or any portion thereof,

which is mentioned in that behalf in Schedule A or Schedule B annexed to such report.

Application of sections 336 to 338 to *bustee* for which standard plan has been approved under section 340.

345. When a standard plan of a *bustee*, and any Schedule B, annexed to the report made under section 339 with respect to that *bustee*, have been approved under section 340— [*Cf.* 1899, s. 412.]

(*a*) the provisions of section 336 shall apply to such *bustee*, and

(*b*) the provisions of sections 337 and 338 shall apply to such *bustee* in respect of the improvements indicated in that Schedule as provided in section 339, sub-section (*4*).

Alternative power to Corporation to make standard plan, to purchase or acquire *bustee*, and to carry out improvements themselves or through purchaser or lessee.

346. (*1*) Notwithstanding anything contained in sections 340 to 345, the Corporation may, after receipt of a report made under section 339 with respect to any *bustee*, and after giving an opportunity of being heard to the owner thereof, pass a resolution to the effect that the *bustee* is an unhealthy area and that, in their opinion, the purchase or acquisition of the *bustee*, or of any portion thereof, is necessary for [*Cf.* 1899, s. 413.]

(*Part V.—Chapter XXII.—Bustees.—Clause 347.*)

the purpose of making the improvements referred to in the said report.

(*2*) When any such resolution has been passed, the Corporation shall make a plan for the improvement of the said *bustee* or portion thereof, together with such estimates as may be necessary for a due understanding of the same, and may then purchase or acquire the said *bustee* or portion thereof, and such plan shall be deemed to be the standard plan of the *bustee*.

(*3*) [*Omitted.*]

(*4*) When any *bustee* or portion of a *bustee* has been so purchased or acquired, the Corporation shall as soon as is reasonably practicable, either—

(*a*) sell or let the same or part thereof to any person for the purpose and under the condition that he will, as respects the land so sold or leased to him, carry out the improvements shown in such standard plan, or

(*b*) themselves bring the said *bustee* or portion thereof or any part of the same which has not been sold or leased under clause (*a*), into conformity with such standard plan, or

(*c*) proceed under the provisions of section 461 to take measures for the erection of sanitary dwellings for the working classes or for the poorer classes, or for both, on such land.

(*5*) Whenever the Corporation decide to sell or let under sub-section (*4*) any *bustee* or portion thereof so purchased or acquired from any person, they shall offer to the said person or his heirs, executors or administrators a prior right to purchase or take on lease such *bustee* when disposing of the same under sub-section (*4*), if such person applies in this behalf, at such rate and on such terms and conditions as may be fixed by the Corporation, if the Corporation consider that such a rate can be given without detriment to the carrying out of the purposes of this Act. If more than one person applies to the Corporation that a *bustee* or portion thereof be sold or let to him, the Corporation shall determine which of such persons has the prior right to take such *bustee* under this section.

(*6*) Whenever action is taken under clause (*a*) of sub-section (*4*), the provisions of sub-section (*2*) or sub-section (*3*) of section 464, as the case may be, shall be applicable.

Proportions of area of *bustee* to be shown in standard plan as streets, passages and open lands.

347. (*1*) No standard plan approved for a *bustee* under this chapter shall, without the consent of the owner thereof, show more than— [*Cf.* 1899, s. 41.]

(*a*) one-fourth of the whole area of such *bustee* as streete orpassages, or

(Part V.—Chapter XXII.—Bustees.—Clauses 348, 349.)

(*b*) one-third of such area as open lands not to be built upon, whether such open lands be common ground, streets, passages or spaces behind a line of huts.

(*2*) In calculating the said proportions of one-fourth and one-third of any such area, no tank situated therein that has not been filled up shall be taken into account.

Regulation of plots by standard plan, and compensation for adjustment of plots.

348. (*1*) When the land included in a *bustee* is owned by more owners than one, each owning one or more separate plots of such land, the standard plan approved under this chapter for such *bustee* shall, as far as practicable, provide— [*Cf.* 1899, s. 415.]

(*a*) for one or more huts being completely contained in each such plot, and

(*b*) for such proportion of each such plot being taken for streets, passages and open land as is specified in section 347.

(*2*) If a greater proportion of any one such plot than the proportion specified in section 347 is so taken, such standard plan shall indicate—

(*i*) the compensation which shall be payable to the owner of such plot, and

(*ii*) the persons who are liable to pay such compensation by reason of their benefiting by such greater proportion having been taken.

(*3*) If no person can equitably be called upon to pay such compensation, the same shall be paid by the Corporation.

(*4*) Any compensation payable under this section to the owner of any land in a *bustee* shall not be paid until such land has been brought into complete conformity with the standard plan.

Streets and passages shown in standard plan, if not public streets, to remain private.

349. (*1*) Every street or passage in a *bustee* which is shown in the standard plan approved under this chapter for that *bustee* and which is not already a public street, shall, unless the Corporation and the owners of the land on which such street or passage is situated otherwise consent as provided in section 319, be deemed to be a private street; and the portion thereof which falls on the land of each owner shall belong to such owner: [*Cf.* 1899, s. 416.]

Provided that any portion of any such street or passage which is situated on land purchased or acquired by the Corporation under section 344 shall remain the property of the Corporation.

(*2*) Every such private street shall, at all times, be kept open for scavenging purposes and for all other purposes of this Act in such manner as the Corporation may require, and shall also be kept open for the use of all the tenants of the *bustee*:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, no use of any such street shall, by reason of any lapse of time, be held to confer a right of way on the public so as to bring the street within the definition of a "public street", in clause (*53*) of section 3. IX of 1908.

(Part V.—Chapter XXII.—Bustees.—Clauses 350—352.)

Bathing arrangements and privy accommodation in *bustee*, as shown in standard plan, to be kept open for use of tenants.

350. The bathing arrangements and privy accommodation in a *bustee*, which are shown in the standard plan approved under this chapter for such *bustee* as being common to the use of all or some of the tenants of the *bustee*, shall at all times be kept available for the use of such tenants:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, if at any time the land on which any such bathing arrangements or privy accommodation are provided ceases to form part of such *bustee*, no such use shall, by reason of any lapse of time, be held to confer any right on any person so as prejudicially to affect the rights of the owner of such land. IX of 1908.

Owner of land in *bustee* to maintain certain conveniences on his land.

351. (*1*) The owner of any land in a *bustee*, for which a standard plan has been approved under this chapter, shall maintain in proper order and repair, to the satisfaction of the Corporation, such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works on such land as may be shown in the plan.

(*2*) The Corporation may, at any time, cause a written notice to be served upon such owner requiring him so to maintain such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works:

Provided that any convenience made by the owner of a hut for his own use shall, subject to such notice as aforesaid, be maintained by him and not by the owner of the *bustee*.

(*3*) If the Corporation are satisfied that any street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work or any portion thereof, has been damaged by any tenant or tenants of the *bustee*, the Corporation may, if they think it desirable to do so, call upon such tenant or any one or more of such tenants by a written notice to repair such street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work or portion thereof.

Rights of land-owner and hut-owner, respectively, over streets, land and drains shown in standard plan.

(*c*) the common bathing arrangements, common privies and means of lighting the *bustee*,

Power to owner to take land out of the category of *bustee* in certain cases.

354. (*1*) The owner of any land included in a *bustee* and bearing a separate number in the assessment-book may, at any time, whether a standard plan for the *bustee* has been prepared under this chapter or not, send a written notice to the Corporation that he intends to remove all the huts standing on such land: [*Cf.* 1899, s 419.]

Provided that the receipt of any such notice by the Corporation shall not be a bar to the approval by the Corporation, under this chapter, of a standard plan of such *bustee*.

(*2*) From the date of such notice no application shall be entertained for erecting on such land any new building which is a hut or adding to any hut standing thereon.

(*3*) Such owner shall, within six months after the date of such notice, or within such further time as the Corporation may from time to time allow, remove all huts standing on such land; and, if he does not do so, the notice shall be deemed to be cancelled.

(*4*) When all such huts have been so removed, such land shall, according to its situation, either—

(*i*) be altogether excluded from the limits of the *bustee*, or

(*ii*) be shown, in a standard plan approved for the *bustee* under this chapter, as not being a part of such *bustee*:

Provided that, if in the standard plan any street or passage is shown on such land, the provisions of sections 338, 341, 345, 349, 351 and 352 shall, with all necessary modifications, be deemed to apply to such street or passage unless the Corporation otherwise direct.

(*5*) If, after all the huts standing on any land have been removed under sub-section (*3*), any application is received for erecting any hut on such land, the Corporation may, by written notice, require the owner of the land to carry out such improvements included in the standard plan as they may think fit.

(*6*) When all the huts standing on any land within a *bustee* have been removed under sub-section (*3*), the Corporation may either—

(*a*) cancel the standard plan (if any) already approved, under this chapter, for such *bustee*, or

(*b*) modify such plan, after hearing the objections (if any) of any owner of land included in such *bustee*.

(*7*) Where any land, formerly included in a *bustee*, ceases to be so included, and where any street or passage was shown on such land in the standard plan and where on such land ceasing to be so included the Corporation do not consider it to be practicable or do not consider it to be expedient to change the alignment of such street they shall, in applying the proviso to sub-section (*4*) to such street, compensate the owner of such land for any area that is included in such street which is in excess of one seventh of the entire area of the land which ceases to be included in the *bustee*.

Bustee streets.

Power to Corporation to prescribe alignments for *bustee* streets.

[*Cf* Sch. XVII, rule 37A.]

355. (*1*) In any *bustee*, in respect of which a standard plan has not been prepared, or in any area in which it appears to the Corporation that huts are likely to be erected, the Corporation may, after hearing the objections, if any, of any owner of land in such *bustee*, prescribe alignments, not more than sixteen feet in width, for such private streets as they may think fit.

(*2*) When the land within such *bustee* or area is owned by more owners than one, each owning one or more separate plots of such land, such alignments shall, as far as practicable, be so prescribed as not to occupy, within any such plot, more than one-fifth of the area thereof and shall not ordinarily be less than two hundred and fifty feet apart.

(*3*) If, in any such plot, more than one-fifth of the area thereof is occupied by such alignments, the Corporation shall pay reasonable compensation to the owner of the plot:

Provided that no such compensation shall be paid in respect of any such plot as long as any hut or other structure other than a masonry building is left standing within any such alignment in the plot.

(*4*) No hut or portion of a hut shall be erected within any alignment prescribed under sub-section (*1*).

(*5*) The provisions of section 349 shall, with all necessary modifications, be deemed to apply to every street the alignment for which has been prescribed under this section.

Power to Corporation to require removal of existing huts within street or hut alignment in *bustee*.

356. (*1*) In any *bustee*, at any time after the expiration of five years from the time when any alignment has been prescribed—

(*a*) for a street under section 355, or

(*b*) for huts under rule 68 of Schedule XVI,

the Corporation may, by written notice, require the owner of the land or the owners or occupiers of

existing huts to remove such huts or portions thereof as fall—

(*i*) within any such prescribed street alignment, or

(*ii*) within six feet on either side of any such prescribed hut alignment,

as the case may be.

(*2*) When a hut has been removed under the provisions of sub-section (*1*), the Corporation shall pay to the owner thereof such compensation as they may consider to be reasonable, but such compensation shall in no case exceed the value of the hut less the value of the materials thereof.

Power to Corporation to require space to be kept between masonry building in *bustee* and centre line of *bustee* street

357. Any person who erects a masonry building— [*Cf.* 1859 Sch. XVII rule 16A]

(*b*) in any *bustee* or area in respect of which alignments for streets have been prescribed under section 355,

Cleansing of bustees.

Power to Corporation to employ special establishment and impose special rate for cleansing of *bustee*.

358. (*1*) Where in the opinion of the Corporation the accumulation of rubbish or offensive matter is excessive, they may sanction the employment of a special establishment for the cleansing of any *bustee*, and may impose on the owner of the *bustee* a rate to defray the cost of such establishment: [*Cf.* 1899, 420]

Provided that, without the consent of the owner, no such rate shall be imposed in respect of any remodelled *bustee*.

Power to Corporation in other cases to secure cleansing of *bustee*.

359. If it appears to the Corporation that any *bustee* for which no establishment is maintained under section 358 is in a filthy condition, they may, by written notice, require the persons deemed to be occupiers under section 352, to cleanse the *bustee* to their satisfaction. [*Cf.* 1899, 421.]

(*i*) be demolished by the owner thereof or altered by him in accordance with the order of the Magistrate to the satisfaction of the Corporation, as the case may require, or

(*ii*) be demolished or altered by the Corporation at the expense of the said owner;

Provided that the Magistrate—

(*a*) shall not make any order under this section without giving the owner and occupier of the building to be so demolished or altered full opportunity of adducing evidence and of being heard in his defence, and

the Corporation may apply to a Magistrate, and such Magistrate may make an order directing that the projection, building, portion of the building, block of buildings, verandah, fixture, additions, roof, wall, privy or urinal, as the case may be, shall—

(*a*) be demolished by the owner thereof or altered by him to the satisfaction of the Corporation, or

(*b*) be demolished or altered by the Corporation at the expense of such owner:

Provided that, before making such application, the Corporation shall give the owner or occupier an opportunity of being heard on his behalf:

[*Cf.* 1909, s. 451.]

(*2*) If any notice issued under sub-section (*1*) is not duly complied with, the Corporation may, with the assistance of the police if necessary, take such steps as they may deem needful in order to stop the continuance of the unlawful work.

(Part V.—Chapter XXIII.—Demolition, alteration and stopping of unlawful work.—Clause 362.)

(*3*) If it appears to the Corporation that it is necessary, in order to prevent the continuation of the unlawful work, to depute any police or municipal officer to watch the premises, they may require the person to whom the said notice was addressed to bear the cost of providing the same.

Procedure in case of buildings deemed unfit for human habitation.

375. (*1*) If, for any reason, any building or portion of a building intended for, or used as, a dwelling-place appears to the Corporation to be unfit for human habitation, they may require the owner or occupier of such building to make such alterations as they think necessary in the building in order to make it fit for human habitation, if they consider that this can be done; but whether they think it can be made fit for human habitation or not, they may, in either case, after giving the owner or occupier an apportunity of being heard, apply to a Magistrate to prohibit the further use of such building or portion thereof for such purpose · [*Cf.* 1899, s. 444.

and the Magistrate shall serve a notice on such owner or occupier so as to give him an opportunity of being heard in the Court, and, after such inquiry as he thinks fit to make, may, by written order, prohibit the further use thereof, or may pass such other order as he may deem just and proper.

(*2*) When any such prohibition has been made, the Corporation may—

(*i*) inspect such building by day or by night, and

(*ii*) take such order as may be necessary to preclude the further use of the same, or of the portion specified in the prohibition, as a human habitation.

(*3*) When any such prohibition has been made, no owner or occupier of such building shall use, or suffer the same, or the portion specified in the prohibition, to be used for human habitation until—

(*4*) The Corporation shall maintain at the Municipal office a list of buildings in respect of which the Magistrate has passed an order under sub-section (*1*), and such list shall be open to inspection by the public free of charge.

and shall give notice of the time (being some time not less than one month after the service of the notice) and place at which such question will be considered to the owner and to the occupier (if any) of the building,

and the said owner and occupier shall be entitled to be heard when the question is so taken into consideration.

(*2*) If, upon such consideration, the Corporation are of opinion that the building has not been rendered fit for human habitation, and that the necessary steps are not being taken with all due diligence to render it so fit,

they shall cause a written notice to be served on the said owner and occupier and also to be put on some conspicuous part of such building, requiring such owner and occupier to demolish the building or any portion thereof, as the case may be, or to execute such work as in the opinion of the Corporation may be necessary to render the building fit for human habitation.

(*3*) If such owner or occupier undertakes to execute with due diligence the work necessary to render the building fit for human habitation, and the Corporation consider that it can be so rendered fit for human habitation,

the Corporation may postpone the operation of the said notice for such time as they think sufficient for the purpose of giving the said owner or occupier an opportunity of executing the necessary work.

After giving the owner an opportunity of being heard in regard to such requisition, the Corporation may direct him within such time as they may fix to take such measures as they think fit to abate such over-crowding. If the owner fails to take such measures, the Corporation may apply to the Magistrate to abate such over-crowding. [*Cf.* 1899, s. 416.]

The Magistrate, after such inquiry as he thinks fit to make, may, by written order, require the owner of the building or room, within such time as the Magistrate may prescribe in the said order, to abate such overcrowding by reducing the number of lodgers, tenants or other inmates of the building or room, or may pass such other order as he may deem just and proper.

Every such order shall be binding and operative on the owner as well as on the occupier, and every occupier shall, on the written requisition of the Corporation informing him of the order, be bound to vacate the same within such time as may be specified in such requisition.

[*See sections 320, 329, 360, 361 (10), 478, 484 and 485.*]

Part I.—Building-sites.

Conditions as to use of building-sites

1. No piece of land shall be used as a site for the erection of a building,— [*Cf.* 1899, Sch. XVII, r. 1.]

(*1*) if the building is to abut on a street, unless the site is of such a shape that the face of the building can be made parallel to the line of the street, or as nearly parallel to the said line as the Corporation may consider practicable; and,

(*2*) if the site is within thirty feet of a tank, unless the owner takes, or satisfies the Corporation that he will take, such order as will prevent any risk of the drainage of the building passing into the tank; and,

(*3*) if the site is a filled-up tank, or has been filled up with, or used for depositing, rubbish, offensive matter or sewage, unless the Corporation have caused the site to be examined and granted a certificate to the effect that it is, from sanitary and engineering points of view, fit to be built upon; and,

(*4*) if the building to be erected is a public building, a dwelling-house or a hut intended for human habitation, unless the site is certified by the Corporation to be dry and well-drained, or unless the Corporation are satisfied that it is capable of being well-drained and that the owner will take the necessary steps to drain it.

Certificate as to correctness of plans of a previously existing building and fees therefor.

2. (*1*) Any person who intends to erect any building upon a site on which a building has been previously erected, whether before or after the commencement of this Act, may, before commencing to erect his intended building, cause to be prepared plans showing the extent of the previously existing building in its several parts (or, in the event of such building having been taken down before the commencement of this Act, or having been accidentally destroyed, the best plans available under all the circumstances of the case), and may cause such plans to be submitted to the Corporation who shall (if reasonably satisfied with the evidence of their accuracy) certify the same; and such certificate shall for the purposes of these rules be taken to be conclusive evidence of the correctness of the plans. [*Cf.* 1899, Sch. XVII, r. 1A.]

(*2*) The Corporation, when granting a certificate under this rule, may charge such fees, not exceeding ten rupees for any one building, as they may think fit.

Part II.—Buildings generally.

Height

3. (*1*) If a building is situated at the side of a street, no portion of the building, except open or balustraded parapets not more than four feet high, shall intersect any of a series of imaginary lines [*Cf.* 1899, Sch. XVII, r. 2.]

(Schedule XVI.—Rules as to the use of building-sites and the execution of building work.—Rule 3.)

drawn across the street at an angle of forty-five degrees with the horizontal, such lines being drawn from the side of the street which is the more remote from the building in question, from a height of two feet above the centre of the street:

Provided as follows—

(*i*) where the said street is joined at an angle by another street facing the building, or where the street in which the building is situated terminates in front of the building, the height of that portion of the building which is opposite the street facing it measured from two feet above the centre of the street, shall in the former case, not exceed the height which would be permissible if the building abutted on or were situated on the side of a street equal in width to the width of the street on which it abuts or on the side of which it is situated *plus* half the width of the street facing it, and in the latter case, the height of the building shall not exceed the height which would be permissible if the building abutted on or were situated on the side of a street one-and-a-half times the width of the street terminating in front of it;

(*ii*) nothing herein contained shall affect the erection of a four-storeyed building abutting upon, or situated at the side of a street of not less than forty-five feet in width, if such building, including the parapet wall and the plinth, does not exceed fifty-six feet in height;

(*iii*) nothing herein contained shall affect the erection of a building abutting upon, or situated at the side of, a street of not less than sixty feet in width, if such building does not exceed eighty feet in height; and

(*iv*) no building exceeding eighty feet in height shall be erected without the special permission of the Corporation, who in granting such permission, may impose such conditions as they may think proper for the safety of the public and the safety and convenience of persons occuping the building;

Explanation.—If a building be placed at the edge of the street, its height, measured from two feet above the centre of the street, and excluding parapets as aforesaid, shall not exceed the average width of the street facing the site; but, if the building or one or more of its storeys be set back, the height of the building may be increased, subject to the condition that no portion of the building, after the height is increased, intersects any of the aforesaid lines.

(*2*) In the case of a new building erected on any portion of the site of the whole or part of a building

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rule 3.)

in existence at the commencement of this Act, the angle at which the lines referred to in sub-rule (*1*) are to be drawn shall be fifty-six-and-a-half degrees instead of forty-five degrees:

Provided as follows—

(*i*) this sub-rule shall not apply in the case of any building abutting upon, or situated at the side of, a street less than thirty feet in width, and

(*ii*) except with the special permission of the Corporation, nothing contained in this sub-rule shall authorize the erection of a new building so as to make any portion of it higher than any building which at the commencement of this Act was standing on the same portion of the site.

(*3*) Notwithstanding anything contained in sub-rule (*1*) or sub-rule (*2*), the Corporation may, by order published in the *Calcutta Gazette*, declare that, in any street or portion of a street, not less than sixteen feet in width, which is specified in the order, the erection of two-storeyed buildings not exceeding twenty-eight feet in height excluding two feet for the plinth and excluding open or balustraded parapets not more than four feet high, will be permitted without complying with the requirements of those sub-rules.

(*4*) If a building is situated on a corner plot so as to abut upon more than one street, the narrower of such streets shall, for the purpose of regulating the height of the building, be deemed to be of the same width as the wider street to a distance of forty feet from such wider street.

(*5*) Notwithstanding anything contained in sub-rules (*1*), (*2*) or (*4*),—

(*a*) a building of not more than one storey and not exceeding twelve feet in height (excluding two feet for the plinth) above the centre of the street, and

(*b*) if, in any street which is less than sixteen feet in width, the owner of any building-site abutting on the street makes a free gift to the Corporation of all land comprised within such site, which falls within eight feet of the centre line of such street, then a two-storeyed building not more than twenty-eight feet high,

may be erected without complying with the requirements of the said sub-rules.

(*6*) For the purposes of clause (*b*) of sub-rule (*5*) of this rule and of clause (*b*) of sub-rule (*4*) of rule 30—

(*a*) the Corporation may prescribe a centre line for any street which is less than sixteen feet in width, and

(*b*) when such centre line has been prescribed, the side of the street shall, for the purposes of sub-rule (*1*), be deemed to be an imaginary line drawn eight feet from such centre line.

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 4—8.)

Level of floor.

4. The floor or lowest floor of every new building erected from the ground-level shall be constructed at such level as will admit of— [*Cf.* 1899, Sch. XVII, r. 8.]

(*a*) the construction of a drain sufficient for the effectual drainage of the building and placed at such level as will admit of the drainage being led into some municipal sewer at the time existing or projected, and

(*b*) the provision of the requisite communication with some sewer into which the drainage may lawfully be discharged at a point in the upper half of such sewer or with some other means of drainage into which the drainage may lawfully be discharged.

Provision of fire escapes and stair cases in certain buildings.

5. (*1*) All public buildings and all buildings of the warehouse class, and where the Corporation deem it necessary, all buildings of four or more storeys, shall be provided with adequate means of escape in case of fire, to the satisfaction of the Corporation, and shall also be provided with such number of stair cases as the Corporation may require.

(*2*) The Corporation may, by written notice, require the owner of a new building of five or more storeys erected after the commencement of this Act to provide a lift or some other similar mechanical contrivance for carrying persons from one floor to another.

Certain buildings not to be erected within six feet of a service-privy.

6. No new public building or new building which is, or is likely to be used as a dwelling-place or a kitchen or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business shall be erected within six feet of any service-privy or service-urinal. [*Cf.* Sch. XVI, r. 1 (*2*).]

Prohibition of use of inflammable materials for roofs or external walls.

7. (*1*) External roofs or walls of buildings shall not, after the commencement of this Act, be made of grass, leaves, mats, canvas or other inflammable materials. [*Cf.* 1899 s. 368.]

(*2*) The Corporation may, by written notice, require the owner of any building situated within a distance of thirty feet from any other building, and having at the commencement of this Act an external roof or wall made of any such inflammable material, to remove or alter such roof or wall.

(*3*) Sub-rules (*1*) and (*2*) shall not apply to bamboo shingle or wood or to any garden hut, orchid house, fernery or other similar structure within a compound, unless in any particular case the Corporation consider any such structure to be dangerous.

Part III.—Masonry buildings generally.

Foundation.

8. (*1*) Except with the sanction of the Corporation, the foundation of a masonry building shall rest on solid ground. [*Cf.* 1899 Sch. XVII, r 7.]

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 9—14.)

(2) Except with the sanction of the Corporation, the spread of the foundation shall be such that the pressure on the soil, taking into account the load on the floors and terrace-roof (if any) referred to in rules 15 and 17, shall not be greater than one ton on the square foot.

(3) The levels of the foundation shall be such as the Corporation may consider satisfactory.

Plinth.

9. The plinth of a masonry building, except in the case of motor garages and coach-houses shall be at least two feet above the level of the centre of the nearest street: [*Cf.* 1899, Sch. XVII, r. 8.]

Provided that the plinth of stables and cow-sheds, may be one foot above such level.

Footings for walls.

10. Every wall of a masonry building shall be constructed so as to rest upon proper footings having regular offsets and on each side of the wall a horizontal spread (equal on each such side) of not less than one-half the height of the footings, provided that when an adjoining wall interferes the footings may, subject to the provisions of rule 8, sub-rule (2), be omitted, where that wall adjoins. [*Cf.* 1899, Sch. XVII, r. 9.]

13. (1) Every wall of a masonry building shall have a damp-proof course at the level of the ground floor. [*Cf.* 1899, Sch. XVII, r 12.]

(2) Such damp-proof course may consist of sheet-lead, asphalt, slates laid in cement, vitrified bricks or any other durable material impervious to moisture.

Walls in building of more than one storey.

14. If a masonry building exceeds one storey in height,— [*Cf.* 1899, Sch XVII, r. 13.]

(*a*) every wall shall be solidly put together with—

(*i*) good cement, or

(*ii*) good lime, or

(*iii*) mortar compounded with good cement and sand or other suitable material, or

(*iv*) mortar compounded with good lime and sand or other suitable material;

(*b*) the proportions of the materials forming such mortar shall be such as are approved by the Corporation;

(*c*) no part of any wall, other than a cornice or moulding, shall overhang any part of a wall underneath it; and

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 15—21.)

(*d*) every wall shall be of such thickness as the Corporation may consider necessary to ensure safety, regard being had to the height of the building, the materials of which it is constructed, and the purpose for which it is intended to use it.

Floors

15. The floors of every masonry building shall be constructed to bear safely the maximum load to be carried, the allowance for live load not being less than fifty-six pounds on the square foot. [*Cf.* 1899, Sch. XVII, r. 14.]

21. The Corporation may,— [*Cf.* 1899, s. 382.]

(*a*) at any time during the erection of any new building (other than a hut), or

(*b*) within one month after the receipt of the notice or the certificate sent under rule 20 with respect to any such building, or

Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 22—24.)

(*c*) if no such notice or certificate has been received, at any time after the building has been erected,

inspect such building, without giving previous notice of their intention to do so.

Power to Corporation to take action after making inspection.

22. (*1*) If, on making any inspection under rule 21, the Corporation find that the building inspected is being or has been erected— [*Cf.* 1899 s. 388.]

(*a*) otherwise than in accordance with the plans thereof which they have approved, or

(*b*) in such a way as to contravene any of the provisions of this Act or any rules or by-laws made thereunder,

they may, by written notice, require the owner of the building either—

(*i*) to make such alterations as may be specified in the notice with the object of bringing the work into conformity with the said plans or provisions, or

(*ii*) to appear before them and show cause why such alterations should not be made.

(*2*) If such owner does not appear and show cause under clause (*ii*) of sub-rule (*1*), he shall be bound to make the alterations specified in such notice.

(*3*) If such owner appears and shows cause under clause (*ii*) of sub-rule (*1*), the Corporation shall, after hearing him, either—

(*a*) cancel the notice issued under sub-rule (*1*), or

(*b*) confirm the same, subject to such modifications (if any) as they may think fit.

IV.—Dwelling-houses and other domestic buildings.

Proportion of site for dwelling-house which may be built upon.

23. The total area covered by all the buildings on any site used for a dwelling-house shall not exceed two-thirds, or, in localities where the erection of only detached buildings is allowed, one-third, of the total area of the site, and the area not so covered shall form part of the site: [*Cf.* 1899, Sch. XVII, r. 17.]

Provided that the Corporation may at any time permit an excess area not exceeding five *per cent.* of the total area of the site to be covered in the case of a detached building, where they are satisfied, for special reasons to be recorded in writing, that the conveyance or amenity of the building will be substantially increased, if such excess area is permitted to be covered.

Dwelling-houses and out-offices, where two-thirds of site are left vacant.

24. (*1*) If two-thirds of any building-site are left vacant— [*Cf.* 1899, Sch. XVII, r. 18.]

(*a*) the dwelling-house may be placed in any part of the site, but not (subject to the provisions of section 304 or section 310, as the case may be) so as to extend beyond any building-line prescribed under section 303 or section 309; and

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 25—27.)

(*b*) servants' houses, stables and other out-offices within the area of the site shall not be of more than two storeys or exceed twenty-four feet in height or twenty feet in depth, and shall not be placed on more than two sides of the dwelling-house or within twenty-four feet of the dwelling-house.

(*2*) If two-thirds of a building-site are left vacant under sub-rule (*1*) no building or part of a building shall be erected so as to encroach upon the area so left vacant.

Size and ventilation of inhabited rooms

25. Every room in a domestic building which is intended to be used as an inhabited room— [*Cf.* 1899, Sch. XVII, r. 20.]

(*a*) shall be in every part not less than ten feet in height, measured from the floor to the under-side of the beam on which the roof or ceiling rests;

(*b*) shall have a clear superficial area of not less than eighty square feet;

(*c*) shall have, for purposes of ventilation,

(*i*) windows opening directly into the external air, or into an open verandah, and having an opening of not less than one-fifteenth of the floor-area of the room, and

(*ii*) an aggregate opening of not less than one-seventh of the floor-area of the room, to be provided by windows, or windows and doors, opening directly into the external air or into an open verandah; and

(*d*) shall, if such room has a cubical area of three thousand cubic feet or less, be provided, for every six hundred cubic feet capacity or fraction thereof, with one or more ventilating openings aggregating not less than one-and-a-half square feet in area, near the ceiling and opening directly into the external air or into an open verandah:

Provided that the Corporation may, in their discretion, relax the provisions of clause (*a*) and clause (*d*).

Floor of inhabited room over stable, cattle-shed or cow-house.

26. Every room in a domestic building which is intended to be used as an inhabited room, and which is constructed over a stable, cattle-shed or cow-house, shall be separated from the stable, cattle-shed or cow-house by a floor of concrete or other impermeable material. [*Cf.* 1899, Sch. XVII r. 20A.]

Lighting and ventilation of staircases.

27. In every domestic building constructed or adapted to be occupied in flats or tenements, the principal common staircase shall be adequately lighted and ventilated upon every storey. [*Cf.* 1899, Sch. XVII, r. 20B.]

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 28-30.)

Ground floor

28. The ground floor of every domestic building shall be covered throughout, at the height of the plinth, with some impermeable material approved by the Corporation, unless such floor be supported on beams and has a free air-space beneath it. [*Cf.* 1899, Sch. XVII, r. 20C.]

Court-yard of dwelling-house.

29. (*1*) The minimum superficial area of every court-yard of a dwelling-house shall be one-fourth of the aggregate floor-area of the rooms and verandahs on the ground floor abutting on the court-yard : [*Cf.* 1899, Sch. XVII, r. 21.]

Provided that, in determining the said aggregate floor-area,—

(*i*) only one-half of the floor-area of such rooms and verandahs as abut on another court-yard or on the open space prescribed under rule 30, or rule 32, and

(*ii*) no portion of the floor-area of such rooms and verandahs as abut on a street not less than twelve feet in width,

shall be taken into account.

(*2*) Any room which is separated only by an open verandah from the court-yard shall, for the purpose of this rule, be deemed to abut on such court-yard.

(*3*) The minimum width of every such court-yard shall be eight feet.

(*4*) No portion of any face of a dwelling-house abutting on such court-yard shall intersect any of a series of imaginary lines drawn across the court-yard from the opposite face of the house, at the level of the plinth, at an angle of sixty-eight degrees with the horizontal :

Provided that nothing contained in this sub-rule shall prevent the construction of four-storeyed buildings on two sides of a court-yard where the length of the court-yard opposite such buildings is not less than twenty feet and the width of such court-yard is not less than fifteen feet.

(*5*) For the purposes of sub-rule (*4*), " the opposite face of the house " shall be deemed to be a vertical plane drawn through the most projecting portion of such face.

(*6*) Notwithstanding anything contained in sub-rule (*4*), a dwelling-house abutting on a court-yard of which the greater dimension does not exceed twice the less dimension, shall be held to comply with this rule if, by reason of its abutting on a court-yard of the same area but square in shape, the building would comply with this rule. [*Cf.* 57 & 58 Vict. c. 218, s. 45.]

Open space in rear of building, regulating the rear height.

30. (*1*) There shall be, at the back of every domestic building, an open space extending along the entire width of the building and forming part of the site thereof. [*Cf.* 1899, Sch. XVII, r. 22.]

(*2*) The said space shall be of such width that any of a series of imaginary lines drawn across such

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rule 31.)

space at an angle of sixty-three-and-a-half degrees with the horizontal, from points on a level with the plinth of the building and situated on that side of the said space which is furthest from the building, shall not intersect any portion (other than open or balustrated parapets not more than four feet in height) of the building :

Provided as follows—

(*i*) the minimum width of such space shall be ten feet ;

(*ii*) in the case of three-storeyed buildings, the angle referred to in this rule shall be increased from sixty-three-and-a-half degrees to sixty-eight degrees ; and

(*iii*) in the case of any building in which there are both an outer and an inner court-yard, a minimum distance of six feet shall be permitted.

(*3*) If it is proposed to erect one or more buildings on the site of an existing building or if two or more buildings are proposed to be erected on any one site (whether or not such buildings are connected by means of verandahs or gangways or in any similar manner), the open space referred to in sub-rule (*1*) shall be provided at the back of each such building.

(*4*) This rule shall not apply in the case of—

(*a*) a building the back of which abuts on a public square or street or a place dedicated to public use and not likely to be built upon not less than sixteen feet in width ;

(*b*) a building the back of which abuts on a public street less than sixteen feet in width, if the owner makes a free gift to the Corporation of all land comprised within the site of the building, which falls within eight feet of the centre line of such street as prescribed by the Corporation under rule 3, sub-rule (*6*) ; and

(*c*) a building to which rule 24 applies :

Provided that, in cases (*a*) and (*b*), the height of the building shall, in accordance with the provisions of rule 3, be regulated by the width of the public square or street on which it abuts.

(*5*) For the purposes of this rule, the back of a building shall be deemed to be that face of the building which is furthest from any street at the side of which the building is situated :

Provided that, where a building is situated at the side of more than one street, the back of the building shall, unless the Corporation otherwise direct, be deemed to be that face of the building which is furthest from the widest of such streets.

Relaxation of rule 30 in certain cases.

31. If any person desires to erect a domestic building upon a site which is irregular or of such a nature that it is impracticable to provide an open space in the rear of the building of the dimensions prescribed by [*Cf.* 1899, Sch. XVII r. 28.]

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rule 32.)

rule 30, the Corporation may relax the provisions of that rule:—

Provided that—

(*a*) such open space shall be left as the Corporation may consider practicable, having regard to all the circumstances of the case; and

(*b*) not more than two-thirds of the total area of the site shall be occupied by buildings.

Open space at sides of building.

32. (*1*) Except in the case of buildings to which rule 24 applies, if either side of a domestic building is not attached to the adjacent building, and if such side does not abut on a public square or street which is not less than six feet in width, or on a private street or partition passage which, in the opinion of the Corporation, is likely always to be kept open to the sky and which is not less than eight feet in width, there shall be between the buildings an open space extending along the entire length of such side and forming part of the side of the said domestic building: [*Cf.* 1899, Sch. XVII. r. 24.]

Provided that attachment of any building to the adjacent building shall not be allowed (except with the permission of the Corporation) in areas declared for the purpose if either of the buildings is a dwelling-house.

(*2*) The minimum distance across such space from every part of the said domestic building to the boundary line of the land or building immediately opposite such part shall be—

(*a*) six feet, if there is a building next to such boundary line or within two feet of it, or

(*b*) four feet, if there is an open space of two feet or more on the other side of such boundary line:

Provided that where there is a public street by the side of the site which is less than six feet wide, the owner may, by giving to the Corporation free of charge such land as will make the street six feet wide, be exempted from leaving further side space under this rule.

(*3*) Notwithstanding anything contained in this rule, where a site adjacent to the site of a proposed building is not occupied by a masonry building situated within ten feet of the boundary line between the two sites and within twenty-four feet from the frontage of the street on which the two sites abut, the proposed building may, with the sanction of the Corporation, be erected along the said boundary line up to a depth of twenty-four feet from such street frontage, unless, in the opinion of the Corporation, there is any objection to any building which may be subsequently erected on the adjacent site being attached to the building so erected.

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 34—37.)

Court-yards and outward open spaces to be raised and kept open.

33. (*1*) Every court-yard of a building, and every open space prescribed by rule 30 or rule 32, shall be raised at least one foot above the level of the centre of the nearest street, so as to admit of easy drainage into the street. [*Cf.* 1899, Sch. XVII, r. 25.]

(*2*) Every such court-yard and open space shall form part of the site of the building, shall be open to the sky throughout its entire area, and shall be kept accessible for the purpose of cleansing; and no structure shall be erected within or above, or so as to project over, the same:

Provided that—

(*a*) a one-seated or two-seated connected-privy or a privy with a bath-room attached thereto or two connected-privies not exceeding forty square feet in floor-area in the aggregate, exclusive of walls, may be erected in the open space left under rule 30, sub-rule (*2*); and

(*b*) such privy or privies with attached bath-room may have as many storeys over it as there are storeys in the house to which it belongs, each of such storeys being connected with the main building by a gangway, or in the case of two separate privies two gangways or bridges, not more than three feet in width for each privy and not exceeding six feet in width in the aggregate.

(*3*) The provisions of sub-rule (*2*) shall apply only to the minimum area prescribed under this schedule for any court-yard or open space referred to in the said sub-rule.

Paving and draining of court-yards and open spaces.

34. All court-yards in a domestic building, and all other open spaces therein not exceeding six feet in width, shall be paved with some impermeable substance and drained to the satisfaction of the Corporation. [*Cf.* 1899, Sch. XVII, r. 25A.]

Space to be added to street not to be taken into account under rules 23, 24, 30 and 32.

35. Except with the permission of the Corporation, for the purpose of calculating the open space required to be left under rules 23, 24, 30 and 32, no space which falls within the alignment of a street or is included within the alignment of a projected public street shall be taken into account.

Open space prescribed for one site not to be taken for another site.

36. No building shall at any time be erected on any open space prescribed under this schedule for a building and forming part of the site thereof, nor shall such open space be taken into account in determining the area of any open space required, under this schedule, for any other building.

Position of privies in a domestic building.

37. No room other than a bath-room, privy or urinal shall be placed over a privy in a domestic building, and no privy shall be placed in a domestic building under any room other than a bath-room, privy or urinal. [1899, Sch. XVII, r. 26.]

(Schedule XVI.—Rules as to the use of building-sites and the execution of building-work.—Rules 38—44.)

STATEMENT OF OBJECTS AND REASONS.

It is desirable that the division of duty between the District Magistrate and the Chairman of the District Board about the control and general supervision of the Union Boards should be removed, and the authority over these units of Local Self-Government should be transferred, as far as possible, to the Chairman of the District Board, as the head of rural Self-Government. The object of the Bill is to effect this transference of authority from the District Magistrate to the Chairman of the District Board; and to introduce some changes in the principle of the position of union rates, to make the assessment more equitable, and to increase the income of the union boards. Under the present state of the country it is necessary that the decisions of the union courts and benches should be made appealable; it is also the object of the Bill to secure this end.

New section 16A

11. After section 16 of the said Act, the following shall be inserted, namely:—

"16A. (*1*) Notwithstanding anything contained in clause (*f*) of section 2, or in section 25, a sub-tenant who holds any premises used for private residential purposes from a tenant or another sub-tenant, may apply to the Controller for the standardization of the rent of that portion of the premises in his occupation, whether such premises were or shall be let after the first day of November, 1918.

Limit to rent to be charged by tenant or sub-tenant.

(*2*) The Controller in such a case may fix the standard rent in proportion to the total rent lawfully payable for the whole premises, as he deems just.

(*3*) In apportioning the rent of any portion of any such premises, the Controller shall take into consideration, particularly, the area of the premises, ventilation and disposition of the rooms, the use of a separate entrance, and other similar conveniences.

(*4*) Notwithstanding anything contained in clause (*f*) of section 2, or in section 25, where any premises used for private residential purposes, or any portion thereof, have been let to a sub-lessee at a rent which includes payment in respect of furniture, and the sub-lessee is being charged at a rate which is more than 35 per cent. in excess of the total rent payable to the superior landlord for the premises or portion of the premises in his occupation, the sub-lessee may apply to the Controller for the standardization of the rent.

(*5*) The Controller in fixing the standard rent of such premises or portion thereof shall first deduct any charges for the hire of fans, electric current, hire of crockery or linen that may have been fixed by the parties by agreement, or, if such items have been made available to the sub-tenant but no specific sum has been stated as the charge for them, or, if it is contended by the sub-tenant that the charges for any such items are too high, shall fix

such sum as he may deem to be equitable as the charges for the same and deduct it from the total charges.

(*6*) After such deduction he shall then assume in every case in the first instance that one-fifth of the total charge for the premises or portion thereof (up to a maximum of rupees two hundred) represents the charges for the hire of the furniture, and the remainder the rent of the premises or portion thereof, and shall proceed to fix the standard rent:

Provided that in cases where the whole premises let to a tenant are sub-let by him to a sub-tenant, the Controller shall, notwithstanding anything contained in clause (*f*) of section 2, fix the standard rent as the rent [calculated if necessary according to the provisions of the sub-sections (*5*) and (*6*)] which is payable by the tenant to his landlord with the addition of 10 per cent. of that rent; and, in cases where a portion only of the premises let to the tenant are sub-let by him to the sub-tenant, he shall fix the standard rent at such proportion of the rent (so calculated) which is payable by the tenant to his landlord, as the portion of the premises sub-let [fixed in accordance with the provisions of sub-section (*3*)] bears to the premises let to the tenant, with the addition of 10 per cent. of such proportionate rent:

Provided also that the same procedure shall be adopted in the case of a lease by a sub-tenant to a sub-tenant under him, the sub-tenant lessor being in that case regarded as the tenant and the sub-tenant lessee as the sub-tenant for the purposes of the first proviso:

Provided also that in any case where the Controller is of opinion that the furniture in the premises or portion thereof is not suitable, or insufficient, or unserviceable, he may require the lessor to furnish the premises or portion thereof suitably and sufficiently or to replace the unserviceable furniture with serviceable furniture, and if the lessor fails to carry out such instructions, within a time to be prescribed in this behalf by the Controller, the Controller shall proceed to fix the rent as if the premises or portion thereof had been let without furniture, or shall fix the charge for the hire of the existing furniture at such sum as shall appear to him reasonable and equitable.

(*7*) When the Controller has fixed the standard rent under sub-section (*5*), and sub-section (*6*) the rent payable for the hire of the furniture shall be altered in accordance with the rent so fixed.

(*8*) The rent of any such premises once fixed under the third proviso to sub-section (*6*) shall not be liable to revision except in the case of a fresh lessor or lessee as the case may be.

Illustration—B, a tenant, takes a lease of premises from A at a rent of Rs. 400 a month. B furnishes the premises and sub-lets them furnished to C at a rental of Rs. 650 including furniture, fans, linen, glass and crockery. C applies to the Controller to fix the standard rent. The Controller fixes Rs. 40 per mensem as the fair charge for the hire of the fans, linen, glass and crockery. The hire of the furniture will then be estimated by the Controller at Rs. 610÷5=Rs. 122 per mensem. The Controller will then fix the standard rent at Rs. 400+10 per cent of Rs. 400=Rs. 440. The rent of the furniture will then be reduced by him to $\frac{122\times440}{488}$=Rs. 110. The total rent of the furnished flat payable by C to B will thus be Rs. 440+Rs. 110+Rs 40=Rs. 590."

Amendment of section 24.

12. In section 24 of the said Act, for the words "the regular trial of suits" the following shall be substituted, namely :—

"the hearing of appeals."

STATEMENT OF OBJECTS AND REASONS.

It is well known to Government that there is a wide-spread desire on the part of the general public of Calcutta that the benefits of the Calcutta Rent Act, 1920, should be extended for a further period.

There is no gainsaying the fact that the provisions of the Act have given considerable relief to the poorer section of the inhabitants of this great city, and from what we see all-round us the Act has had no material effect in restricting the building of fresh houses for residential purposes. At the same time, there are signs that if the Act were to come to an end in the near future a large number of a certain type of landlord will swoop down on their tenants with exorbitant demands. The landlord who builds in a great city must be likened to a public utility company and his charges must be kept within reasonable bounds. A rent Act, until the landlords have learnt their lesson, is as essential on the Statute Book as any of the provisions on the Statute Book which have been found essential for the maintenance of law and order.

I have also suggested certain amendments to make the Act more effective.

The more important ones are as follows:—

Clause 4.—The purposes of the Act have been defeated owing to the fact that certain lucky landlords had their houses rented to a casual tenant for a short space of time in November 1918, or after the first day of November 1915. A Raja or a rich nobleman may have come down for a month and paid an exorbitant rent. My amendment to section 2 (*f*) (*i*) is to meet these cases and I have provided that the rent, to be taken into account must have been paid for at least six successive months.

Clause 5.—The first portion of this amendment is for the benefit of the landlord. It is only right that he should be able to recover his rent from the date of his application to the Controller, so long as he has given reasonable notice to the tenant. It is, however, desirable to give the Controller power to withhold an increase of rent where the landlord neglects to put the premises into a fit condition, and I have provided for this contingency.

Clause 6.—This is to meet the case of the landlord who endeavours to evade the provisions of the Act by moving for the ejectment of the tenant on the flimsy grounds of a desire to re-build. All he does sometimes after he has got his tenant out, is to erect a small partition or put up a small room. I have based my amendment on the definition of "new building" contained in the Calcutta Municipal Bill.

There is also a general complaint by the public that much harassment is caused to tenants by the institution of unnecessary suits for ejectment. To safeguard this, I have provided that no suit of ejectment should be filed without a certificate from the Controller.

Clause 7.—I consider some such provision very necessary in the interest of the tenant. At present, if the tenant is ejected, all he has, is a right of re-entry after six months, if the landlord does not utilize the premises for his own use, the landlord purposely keeps it vacant and gets a considerably enhanced rent. Sometimes a tenant is unnecessarily harassed in this manner and put to great expenditure, and I think the Act should provide that in such cases the tenant should be paid suitable compensation, *i.e.*, at least one year's rental.

Clause 9.—This amendment is very necessary. The High Court have ruled "once in arrears always in arrears". It is sufficient I think that the tenant should be required to have paid up all arrears for rent before he is entitled to the benefits of the Act and there is no necessity for the time limit.

Clause 11.—Proposed new section 16A.—I consider this amendment a very necessary one. Much of the evil of exorbitant rent is traceable to the tenant who sub-lets. Tenants are continuing the evil which the

Rent Act has made difficult for the landlord. We have the position that the landlord rents a whole house to a tenant. The tenant proceeds to let it out in suites and rakes in three and four times the rent which he pays the landlord. This must be put a stop to. It not only makes the landlord discontented but defeats the very purpose for which the Rent Act was passed. I have also provided against the evasion of the Act by letting furnished premises and have followed to some extent the English precedent.

Clause 12.—Another direction in which the tenants need relief is the procedure in regard to the hearing of cases for revising the decisions of the Controller. This, it is suggested in the Bill, should be similar to the procedure prescribed for hearing appeals in the Code of Civil Procedure.

Formula for calculating heating surface.

The heating surface for these purposes may be defined generally as the total surface of all plates and tubes exposed to heat on one side and in contact with water on the other, measured on the water side. For Lancashire and Cornish boilers the total heating surface shall include the wetted surface of the furnaces between the end plates and of cross tubes, where fitted, and the part of the external shell below the side flue covers. In estimating the areas, furnaces may be considered as plain cylinders, the area of their wetted surface is to be taken as their mean external circumference × the length of the boiler between end plates. For the shell the width of that part of the circumference below the flue covers is to be taken as =2D, and this width × the length between end plates is to be taken as the area of shell heating surface. The part of the surface of the back end plate exposed to heat is to be neglected.

The formula for the total heating surface of a Lancashire boiler having plain furnaces without cross-tubes is therefore H. S. in square feet=2L (1·14d+D). L is the length of the boiler between end plates, D is the mean external diameter of the largest belt of shell, d is the diameter of furnace flue all sizes in feet.

For steam and water drums of water tube boilers the heating surface of the drum may be taken as half the external mean circumference into the clear length of drum between the outer brick walls or centres of cross boxes as the case may be. The surface of the tubes may be taken as the external surface of the inclined tubes between tube plate and headers. The heating surface of the headers is to be neglected.

For Marine type boilers the heating surface shall include the wetted surface of the furnaces between the tube plates (considered in the same way as for Lancashire boilers), the wetted surface of the combustion chambers (less the area of the tube holes) and the wetted surface of the tubes between tube plates. The parts of the front tube plate exposed to heat are to be neglected.

For Locomotive type boilers the heating surface shall include the wetted surface of the fire-box above the foundation ring (less the area of the tubes and the fire-hole and ring) and the wetted surface of the tubes between tube plates. The smoke box tube plate is to be neglected.

For vertical boilers of ordinary type the heating surface shall include the wetted surface of the fire-box above the foundation ring (less the area of fire-hole and ring and tube holes, if any) and the wetted surface of any cross or other tubes and uptake below the lowest water level shown in the gauge-glass. For any other heating surface not provided for in the foregoing instructions the same general procedure shall be observed. No deduction should be made for stays, etc., in calculating the heating surface.

4. *Delete* rule XXII of the said rules.

5. In column 2 of Division II of Form No. 1 for the word "horse-power" *substitute* the words "Heating Surface".

6. In Division IV of Form No. 1 for the existing scale of fees *substitute* the following, namely :—

	Rs.
Boilers up to 100 square feet heating surface	20
„ from 101 square feet H. S. to 300 square feet H. S. ...	25
„ „ 301 „ „ „ 500 „ „ „ ...	30
„ „ 501 „ „ „ 700 „ „ „ ...	35
„ „ 701 „ „ „ 900 „ „ „ ...	40
„ „ 901 „ „ „ 1,100 „ „ „ ...	45
„ above 1,100 „ „ „	50

Formula for calculating heating surface.

(As per rule XXI.)

7. In column 5 of Form No. 2 for the word "horse-power" *substitute* the words "Heating Surface."

G. N. ROY,
Secretary to the Government of Bengal (offg.).

No. F.-1234.

JUDICIAL.

Delhi, the 10th January 1923.

RESOLUTION.

In a Resolution, dated the 13th June 1922, the Government of Bengal appointed a Committee to examine the possibility of retrenchment in the public expenditure of that province. The High Court at Calcutta was, however, not included within the scope of this Committee's enquiries in view of the special position of the Court and the advisability that any investigation of the working of the Court should be conducted by persons

having experience in judicial administration and procedure. While the expenditure connected with this Court is met from the provincial revenues of Bengal, the control and general superintendence over the Court, unlike other High Courts, vest directly in the Governor General in Council. In the present circumstances there is, however, no doubt that the possibilities of introducing economies in the expenditure of the Court should also be explored and after consulting the Government of Bengal and the Hon'ble the Chief Justice, the Governor General in Council has decided to appoint a special Committee for this purpose.

The Hon'ble Sir Alexander Muddiman, Kt., C.S.I., C.I.E., President of the Council of State, has consented to serve as President, and the Members will be :—

The Hon'ble Justice Sir T. W. Richardson, Kt., I.C.S. (Bar.-at-Law), Judge, High Court, Calcutta ;

T. E. Moir, Esq., C.S.I., C.I.E., I.C.S., Member of the Legislative Assembly ; and

Babu Surendra Nath Roy, Member of the Legislative Council, Bengal.

Mr. R. Douglas, I.C.S., Under-Secretary to the Government of Bengal, will act as Secretary to the Committee.

The terms of reference to the Committee will be the consideration of—

(1) economies in the strength of the establishment of the Court both superior and inferior, and

(2) such changes and modifications of the working of the Court as will tend to economy.

2. His Excellency the Governor General in Council desires that the Committee should meet in Calcutta on such date as may be appointed by the President and hopes that it will be possible for the Committee to submit their recommendations to the Government of India on an early date. The Governor General in Council has no doubt that the Hon'ble the Chief Justice and Judges will afford the Committee every assistance in dealing with this matter, the importance of which in the present circumstances cannot be questioned.

ORDER.—Ordered that the Resolution be published in the Supplement to the *Gazette of India* and that a copy be forwarded to the Government of Bengal, the Registrar of the High Court of Calcutta and the President and Members of the Committee.

H. TONKINSON,
Joint Secretary to the Government of India.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 261L., dated Calcutta, the 20th January, 1923.—With reference to the foot-notes to the Report of the Select Committee on the Calcutta Municipal Bill, 1921 (A Bill to amend and consolidate the law relating to the Municipal Affairs of the Town and Suburbs of Calcutta) published in the *Calcutta Gazette*, Extraordinary, dated the 19th January, 1923, and in continuation of this office Notification No. 173-L., dated the 15th January, 1923, it is notified that Maulvi A. K. Fazl-ul Haq, M.L.C., Babu Surendra Nath Mallik, M.L.C. and Mr. G. Morgan, M.L.C., have appended the following notes of Dissent to the report :—

THE CALCUTTA MUNICIPAL BILL, 1921.

Note of Dissent by Maulvi A. K. Fazl-ul-Huq, M.L.C.

I am opposed to the inclusion of the suburban municipalities within the jurisdiction of the Calcutta Corporation, both because such an inclusion is opposed to the weight of public opinion and also because it will be harmful to Muhammadan interests. In most of these suburban municipalities, at present, Muhammadan influence is predominant. I am afraid all this influence will be lost if these municipalities are merged in the Calcutta Corporation. The safeguard of communal representation that has been provided in the Act will not be sufficient to compensate the Muhammadan community for the loss of influence and power which will follow the absorption of the suburban municipalities in the higher body.

As regards Muhammadan representation, I am of opinion that the number of seats to be ear-marked for Muhammadans should be at least 25 per cent of the total number.

With these remarks, I sign the report.

Note of Dissent by Babu Surendra Nath Mallik, M.L.C., and Mr. G. Morgan, M.L.C.

The Select Committee, while recommending the amalgamation of Maniktala, the Port Commissioners' new dock area and a small portion of the Tollygunge Municipality with Calcutta have negatived by a very narrow majority the proposal to include Cossipore-Chitpore. We are strongly of opinion that this area should also be included.

2. Cossipore-Chitpore is virtually an integral part of Calcutta and the present boundary between it and the city is purely artificial. The portion between the river and Barrackpore Trunk Road is practically a trading and commercial centre of Calcutta, and is geographically only an elongation of the city. The bulk of the people of Cossipore-Chitpore are in close and daily contact with the city and practically form a part of the city population. There is an acute shortage of housing accommodation in Calcutta where the land values are extraordinarily high. It is urgently necessary to find room for expansion both for residential and commercial purposes. The population of Calcutta is massed in the north where the density is 160 per acre (*i.e.* about the same as in the slum areas of London) and there is a natural tendency for the population to move towards Cossipore-Chitpore and Maniktala instead of to Bhowanipur or Ballygunge. We may note in this connection that a large area of nearly three square miles on the south of the city, from Tollygunge to Behala, has been acquired by the Port Commissioners for a marshalling yard and has been lost to the city. Not only is the natural flow of population towards the north, but that is the only direction in which there is room for expansion. The case for the amalgamation of Cossipore-Chitpore and Maniktala is based on the unquestionable necessity of finding room for the expansion of Calcutta, and it is inconceivable how the Cossipore-Chitpore municipal area can be left out of the scheme. People are spreading to Cossipore-Chitpore and are developing land with inadequate means of access, and the evils of the worst parts of Calcutta will before long be reproduced here, unless effective measures are taken to check them. The portion of Cossipore-Chitpore south of Dum Dum Road and Shell Factory Road is a large industrial centre which requires a high standard of municipal administration and efficient inspection and control. If Cossipore-Chitpore is included in Calcutta, the Corporation will be able to control building operations and to regulate future development and to exercise their entensive powers in the interests of sanitation and public health. Moreover, the Corporation pumping station and reservoir, from which the whole city is supplied with filtered water, are situated at Talla, which forms a part of the Cossipore-Chitpore municipal area. The Corporation are considerably expanding the water-works and we agree that for this reason, if for no other, this area should be under their control.

3. Another argument for incorporating Cossipore-Chitpore in Calcutta is the extent of its dependence on the city for some of its essential municipal amenities. The whole of its filtered water supply is obtained from the Corporation on payment, and it also takes a supply of unfiltered water from Calcutta. There is no adequate supply of unfiltered water for fire extinguishing purposes, and although, owing to the large number of jute warehouses situated there, the fire-risks are particularly heavy and the provision of an adequate supply of water is urgently necessary and has been repeatedly pressed by the Chief Officer of the Fire Brigade, no satisfactory arrangements have yet been made. Gas lighting in Cossipore-Chitpore is possible only because of the arrangements made in Calcutta, and it is only as an extension of the city system that any development of tramways in Cossipore-Chitpore can be hoped for. The present city of Calcutta and the municipalities of Cossipore-Chitpore and Maniktala form really one organic whole, and it is only by approaching from the standpoint of this organic unity the difficult problems of sanitation, drainage, water-supply, housing accommodation and communications, all of which will require expert knowledge and control, which only a central authority can provide, that the present wants of the large aggregation of population in these areas can be satisfied and their future interests safeguarded.

4. The Committee appointed by Government to consider the question of amalgamation turned down the proposal, mainly on the ground that the financial position of the municipality is one of considerable strength, that a

drainage scheme is under preparation, and with its rapidly growing income it is not improbable that the municipality will be able to carry out this scheme within the next few years, and that in view of the present financial position of the Corporation and the burden which will be thrown on them by the amalgamation of Manicktala, it is doubtful whether they will find it possible to carry out any scheme of improvement in Cossipore-Chitpore within the next few years. We desire to point out that it is a far cry between the preparation of a scheme of drainage and its actual execution, and the mere fact of the Cossipore-Chitpore Municipality having a drainage scheme under preparation affords very little ground for satisfaction or hope. A very rough estimate prepared by the Corporation engineers places the estimate for draining two-thirds of Cossipore-Chitpore at Rs. 36 lakhs, including half the cost of a combined outfall for both Maniktala and Cossipore-Chitpore. The arrangements in connection with the water-supply are estimated to cost about Rs. 15 lakhs for the two municipalities; it may be taken at half this figure for Cossipore-Chitpore. These two schemes alone will entail a capital outlay of half a crore, which will in turn will involve an annual recurring expenditure of 4½ lakhs in interest and sinking fund charges. The total income of Cossipore-Chitpore in 1921-22, exclusive of the opening balance of about Rs. 1¾ lakhs and certain special receipts, was Rs. 5,42,000, and even making every allowance for future growth of income, we are convinced that the municipality will not be in a position to undertake this capital outlay. As to the position of the Corporation, whatever difficulty there may be is only temporary, owing to their having on hand a large scheme for improving the water-supply; but we understand that this scheme will cost considerably less than the original estimates, by reason of the Corporation having let certain contracts at very favourable rates, and the saving effected will provide the outlay required for Cossipore-Chitpore. Further, the revenues of the Corporation are rapidly expanding, and they have an ample margin of borrowing power with which they can easily finance the loans required for improving Cossipore-Chitpore.

5. Another argument which is urged against amalgamation is that, with all the drawbacks in Cossipore-Chitpore, the death rate there is lower than is Calcutta. In our opinion the comparison is altogether fallacious, as owing to the special facilities available in Calcutta, people from all parts of Bengal come to the city for treatment and help to swell the vital statistics. A detailed analysis of the vital statistics of Calcutta to refute the above argument would be out of place here, and we would therefore only point out that in a big industrial and railway centre like Calcutta there are special factors which affect the mortality rates and which are quite unconnected with the general sanitary condition of the town. Further, a large part of the population of Cossipore-Chitpore consists of mill hands and labourers, who generally leave the place and go to their villages up-country when they get sick or become old and unfit for work. It would therefore be altogether wrong to deduce from the lower death rate of Cossipore-Chitpore that it is healthier than Calcutta, a conclusion which is contrary to actual facts and to almost universal testimony.

6. We are convinced that it would be a short-sighted policy to leave out Cossipore-Chitpore which, as in the case of the Added Area 34 years ago, is bound to be included, in its own interest, in Calcutta at no distant date. The only result of its exclusion now will be that when it comes to be taken over a considerably larger amount of expenditure will have to be incurred by the Corporation to undo the mischief that will be done in the interval. The only way to avoid this unnecessary waste of money, and to keep the cost of improvements within reasonable limits is to amalgamate it now with the Corporation.

We recommend therefore that Cossipore-Chitpore should also be included in Calcutta, subject, as in the case of Maniktala, to a statutory limit of expenditure on improvements. The area may be divided into three wards and be allotted 5 seats (*i.e.*, 3 general and 2 Muhammadan seats) as recommended by the Corporation, the total number of Councillors and Aldermen constituting the Corporation being correspondingly increased.

No. 157P.H.—The 29th January 1923.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Government of Bengal (Ministry of Local Self-Government) make the following rules subject to which the Commissioners of the Krishnagar

Nadia.

Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only :—

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 100, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions :

Provided that no connection shall be allowed to holdings other than masonry buildings without the sanction of the Commissioners at a meeting :—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 100 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below each holding must have a separate connection to the municipal main supply-pipe, and extensions from the communication-pipe of one holding to another holding shall not be permitted :

Provided that with the consent of the Commissioners in meeting connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage, and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding :

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) No work shall be carried out under sub-rule (*1*) except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts of fittings :—

(*b*) a galvanized iron communication-pipe from the ferrule to the meter ;

(*c*) a stop-cock and its surface box ;

(*d*) a meter ;

(*e*) service-pipes from the stop-cock to the taps ; and

(*f*) taps.

8. (*1*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(*3*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns he must present such fitting for the approval of the Chairman,

and any fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 40 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows :

Annual valuation of holdings.	Sizes of ferrule.	Diameter of communication-pipe	Number of taps.

(*2*) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked and the key of this box shall remain under the control of the Chairman.

(*3*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*1*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*2*) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

15. (*1*) Every owner or occupier of any holding, in respect of which a connection has been made, under these rules, shall be entitled to a supply of—

INDIAN ARMS RULES COMMITTEE.

REPORT.

Introductory.—A resolution was moved in the Assembly on the 8th of February 1922 by Baba Ujagar Singh Bedi, to the effect that a Committee with a non-official majority should be appointed by the Governor General in Council to examine the new Arms Rules, 1920, and to submit a report before the next session making specific recommendations with a view further to amend them. The Resolution was carried and was accepted by the Governor General in Council subject to adherence to the principles, (1) that there should be no racial discriminations in the rules, and (2) that the Government must retain the power to impose restrictions to prevent arms and particularly firearms from falling into the possession of lawless or dangerous persons. In accordance with the instructions contained in Resolution No. F.-57-1-Police, dated the 1st June 1922, we have examined the Arms Rules, 1920, and submit our recommendations to the Government of India for such action as they think desirable.

2. Our conclusions have been reached after an exhaustive examination of the views of local Governments, the recommendations of the Committee appointed in 1919 to advise as to the principles on which the rules should be framed, and a larger number of memoranda submitted to us by various members of the public many of which were sent in response to a general invitation issued by the Government of India to those interested in the subject under discussion to communicate their views to Government for the information of the Committee. We have examined orally 13 official and 16 non-official witnesses including representatives of the army and the trade, whose evidence was taken in public of which much has already appeared in the columns of the press. We commenced our sessions in the month of July and spent ten days in recording evidence. We were unable to conclude our work then and for unavoidable reasons were compelled to postpone our deliberations until the September Session of the Legislature. For this reason there has been some delay in the submission of our report.

3. **Exemptions.**—We propose to deal first with the question of the retention, extension, or contraction of the list of exemptions. Their total abolition has been advocated generally as a counsel of perfection, and the majority of the Committee would prefer this course if it were practicable. Local Governments, however, are of opinion that at this stage the entire abolition of exemptions would create grave dissatisfaction amongst the classes hitherto exempted and would be unwise and inexpedient. With this conclusion the majority of the Committee are in agreement. A large number of non-official Indians both in their oral evidence and in their written memoranda maintain that the Schedule of Exemptions should be enlarged. After careful consideration of the views put before us and after examining in detail the entries in Schedule I we are of opinion

that the existing list of exemptions contained in that Schedule is imperfect in some respects and we make the following recommendations regarding it :—

Under *entry 1* (*a*) we would include Ministers and Members of the Imperial Legislature during their terms of office and Privy Councillors. The Committee by a majority do not recommend a similar concession to Members of the Provincial Legislatures.

In regard to *entries 6* (*d*), *6* (*f*), (*i*) *and 6* (*g*) we doubt whether the terms Great Sardars or Zamindars are sufficiently precise and we do not know what interpretation is placed upon them by the local Governments concerned, namely the Punjab, the United Provinces and the Central Provinces. We therefore recommend that enquiries should be made from these local Governments whether they maintain lists of these categories, whom they include, and whether they are sufficiently elastic. It has been represented to us that in some cases gentlemen who are in fact big Zamindars are excluded because they are not on the provincial Durbar List. If this is so, we think that it is an undesirable restriction. We are further of opinion that due regard should also be paid to lineage and family position and the lists revised accordingly. If such lists of exemptions under this entry are not maintained we recommend that they should be prepared after the terms in question have been more precisely defined. We append a note by our colleague, Baba Ujagar Singh Bedi, making certain suggestions in this connection which we think may suitably be placed before the local Governments concerned for consideration.

Entry No. 7.—We were impressed with the evidence of Khan Bahadur Muhammad Saifullah Khan, Khan of Isa Khel, who explained that the proviso in column 3 rendered this privilege to a large extent ineffective, and we accordingly recommend the removal of the proviso. We are also of opinion that the same privilege should be extended to the districts of Campbellpur, Rawalpindi and any other district adjoining the North-West Frontier Province which are exposed to raids and dacoities unless the local Government take exception to this course.

Entries 11, 11 (*a*) *and 11* (*b*).—We consider that it is unnecessary to retain these exemptions in the actual Schedule of exemptions. These items were included with a view to protecting what may be termed the vested rights of the classes named on the 1st of January 1920, and we are of opinion that these rights should continue to be protected. We therefore recommend that all the present exemptees in the entries 11, 11 (*a*) and 11 (*b*) should be granted a life license conferring on them the same privileges in respect of arms exempted from license and fee which they now possess. The majority of the Committee do not recommend that this privilege should be extended to title holders who received titles after the 1st of January 1920.

Entry 13.—We recommend that an addition should be made to provide for the gift of swords or other arms by the Commander-in-Chief or on his behalf. A similar addition should also be made in Schedule II, entry 3 (*vii*). Our colleague, Baba Ujagar Singh Bedi, has pointed out that some confusion exists in regard to entry 11 (*d*) and entry 13. He considers that it should be made clear that entry 13 relates only to those who were presented with swords and arms after 1920. This follows as a matter of course if our recommendations are accepted, as entries 11, 11 (*a*) and 11 (*b*) will be omitted, and entry 13 will be renumbered. We are content to leave this point of drafting to the special officer who, we propose, should be appointed for the purpose of redrafting the rules.

4. We considered the proposal that all stipendiary and honorary magistrates should be included in the list of exemptions ; but we are of opinion that a firearm cannot be regarded as a necessary part of the equipment of a magistrate as such and are unable to recommend this. The case of the police is sufficiently met by the fact that a revolver is already a part of the equipment of police officers above the rank of head constable. While in our view it is reasonable that all Government servants who in the opinion of the local Government require arms for the adequate discharge of their duty should be exempt from the payment of fees, we cannot recommend that all Government servants should be included in Schedule I among the exempted classes.

5. In the case of all exemptees we consider it of the highest importance that they should register all the arms they have in their possession ; and we recommend that registration should be compulsory. In regard to the limit imposed by certain local Governments on the number of arms which may be possessed we have no evidence that such restrictions are irksome and indeed from the rules we have seen we are convinced that the scale allowed is generous. We therefore recommend no interference with the restrictions at present imposed by local Governments on the number and kind of arms which can be possessed by exempted persons. It follows that we do not recommend a fixed scale which shall be uniform throughout India. Conditions vary in different provinces and under the rules framed by the various local Governments exemptees can carry as many weapons as they reasonably require for purpose of protection or other legitimate purposes.

6. A proposal has been put before us that the power of cancelling individual exemptions should be given to local Governments. We consider that the existing rules by which this power is vested in the Governor General in Council should remain.

7. Our colleagues Mr. Bajpai, Mr. Reddi and Mr. Faiyaz Khan favour the adoption of a system by which licenses should be issued without restriction to all applicants on payment of the prescribed fee save in the case of undesirable persons specified in a list

kept for the purpose. This proposal, however, does not commend itself to the majority of the Committee, who regard it as entirely outside the scope of practical politics. It is not only exposed to the objections we have urged to the total abolition of exemptions, but is open to the serious criticism that a suitable or proper classification of undesirable persons would be impossible.

8. **Entitled Class.**—We next come to the entitled class. The evidence on the question whether licenses are often withheld from those who belong to this class is divided, but we would recommend removal of restrictions in two directions. In our view eligibility to be included in the entitled class should be considerably extended, and the existing procedure in the matter of enquiry is susceptible of material relaxation. As to the eligibility we recommend that the payment of Rs. 500 land revenue, Rs. 100 in roads and public works cesses, any payment of income-tax and, in the case of a Government servant, receipt of a pay of Rs. 100 a month and over should be sufficient qualification. In the case of the Punjab, Madras and the Central Provinces we suggest that enquiry should be made whether the limit of land revenue should not be Rs. 250 instead of Rs. 500. Further the heads of Joint Hindu families should be included in this class, and the adult brothers and sons of entitled persons living jointly with them should be similarly regarded as belonging to it. As to the relaxation of the procedure of enquiry we think that lists of entitled persons should be maintained and that any member of the entitled class applying for a license should be granted one immediately without enquiry unless the District Magistrate has some definite reason to think that the applicant is an unfit person, in which case he may, for reasons to be recorded in writing, refuse the grant of a license or cause enquiry to be made: in cases of refusal we would recognize a right of revision by the Commissioner or some officer of equal status nominated in this behalf by the local Government. In the existing rules no mention is made of the entitled class, the principles regarding it being contained in a Resolution of the Government of India No. 2125-C.-Police, dated the 21st March 1919. We are of opinion that it would be more satisfactory to the general public if the provisions regarding the entitled class with the modifications we suggest were embodied in the rules, and we strongly recommend that this should be done.

9. **Licenses.**—We have given careful consideration to the various questions which arise in connection with the grant of licenses, especially licenses for the possession of arms. Complaints have been made to us regarding the administration, in practice, of the Rules, especially as regards the delays in dealing with applications the irksome nature of the enquiries sometimes instituted, the difficulty of securing renewal of licenses already granted, and in the difference in the restrictions imposed by the various local Governments. Indeed we are constrained to place it on record that in our opinion the vigorous criticism which has been directed against the Arms Rules in some quarters is due not so much to inherent defects in the rules themselves as to the method in which they have been put into practice. We have therefore given our particular attention to methods of improving the executive machinery.

10. **Enquiry.**—We have referred above to the unnecessary inconvenience caused in some respects to would-be license holders by reason of the delay in issuing licenses We recognise that this delay is frequently caused by the necessity for making enquiries about the fitness of a person to possess a weapon, and while we do not recommend that enquiry can be dispensed with in every case, we believe that the present practice by which enquiries are almost entirely carried out by the police is open to objection by the public and should as far as possible be abandoned. We suggest that in any case in which a previous enquiry is necessary, particularly in cases of entitled persons, the District Magistrate should make it, if possible, by any agency, official or non-official, he may choose other than the police, and whenever possible, through a Magistrate. In any case in which it is found necessary to have an enquiry made through the agency of a police officer we are strongly of opinion that a license should not be refused merely on the strength of the report of such an officer alone but that the District Magistrate should order a magisterial enquiry also before coming to a final decision.

11. **Limitation of number of Licenses.**—In some provinces we have found that the custom obtains of limiting the number of licenses issued. We have even found that the practice of individual District Magistrates in the same province varies. Any arbitrary limitation of the number of licenses issued in a district or province may clearly lead to the refusal of a license to a fit and proper person and we can see no justification for the adoption, save in exceptional circumstances, of this practice. In our view the normal practice should be that no limit should be placed on the number of licenses which may be issued in any district or province. We recognise, however, that circumstances may arise in which a rapid increase in the number of arms in a particular area may be fraught with danger and we think it advisable that local Governments should have discretionary power, without being compelled to resort to the extreme measure of disarming, to limit the number of arms in any area or district if there is reason to apprehend serious danger from the free grant of licenses and if such restriction is necessary for the maintenance of the public tranquillity.

12. **Revision and Prosecution.**—We would recognise a right of revision in the case of refusal to grant a license, but we would not disturb the existing rule which requires the sanction of the District Magistrate to a prosecution.

13. **Duration of License.**—The period covered by the license varies in different provinces, but we recommend that it should now be the Calendar year. The scale of fees is discussed in paragraph 21 below. Persons should be allowed as at present to take licenses for three years on payment of a composition fee. We gather this rule is not widely known at present, and we think it would be desirable that the necessary steps should be taken to ensure its publicity.

14. **Temporary Licenses.**—In some quarters the criticism has been made that persons desirous of purchasing a weapon are put to inconvenience because they cannot produce the weapon when applying for the license necessary for its possession, and it was therefore recommended that a temporary license should be given to cover such purchase pending the grant of a license for possession. We do not agree with this, and in our view a permanent license should be issued at the time the applicant applies for a license and the number and description of the weapons purchased should be filled in by the firms from whom the purchase is made and communicated by them to the District Magistrate concerned. In this matter a uniform practice should be adopted throughout India.

15. **Licenses for persons arriving by Sea.**—Another instance in which the present system has been shown to operate to the inconvenience of the license holders or would-be license holders is that of persons arriving at Bombay, Madras or Calcutta, etc., by sea, who are not in possession of licenses and are therefore compelled to deposit their weapons with their agents or in the Customs House until a regular license can be obtained. We therefore recommend that customs and police officers should be permitted to issue a temporary license for fourteen days on payment of the full fee, a receipt being given to the licensee. On receipt of the proper license from the authority empowered to issue the same no further fee should be payable.

16. **Loss of weapons.**—We attach some importance to the stricter enforcement of condition 7 of the conditions under which a license for the possession of arms and ammunition is granted. It has been suggested to us that the procedure in the case of failure to report the loss of firearms should be tightened up. But we are of opinion that the contingency is provided for by the conditions of the license, and all that is required is its more rigid enforcement. We recommend, however, that the license should also specify the penalty laid down in the Act for breaches of this or any of the conditions under which the license is granted.

17. **Crop Protection Licenses.**—The question of a freer issue of crop protection licenses was raised by a number of witnesses. The evidence given by official witnesses goes to prove that crop protection licenses are issued freely, but in some cases conditions are imposed such as annual production of evidence of the purpose for which the license is required, before renewal is granted. We recommend the freer issue of such licenses and particularly on applications by or recommendations of landlords who are well acquainted with the local conditions and the extent to which damage is done to crops by wild animals.

18. **Form of license.**—We have been impressed with the fact that licenses are frequently granted on flimsy paper which quickly perishes, and we recommend the universal adoption of the Calcutta form. There the license is printed on stout paper, and is enclosed in covers such as are used in the case of passports. To the license a leaflet of instructions, in the vernacular of the province or in English at the option of the licensee, should be annexed. These instructions should indicate the procedure laid down for the renewal of the license and the restrictions to which the licensee is subject. In this matter we plead for uniformity throughout India. It has been suggested that the all-India, the provincial, and the district license forms should bear distinctive marks, and a different colour for each has been proposed. We do not regard this suggestion as of vital importance, but pass it on to the Government of India for consideration.

19. **Single License.**—A single license form should be used for all the weapons licensed and not a separate license for each arm. We have found diversity of practice in the different provinces in this respect and we recommend that there should be uniformity.

20. **Renewal of Licenses.**—As regards the renewal of licenses we are of opinion that the existing procedure is susceptible of improvement. We see no reason why when a license has once been issued, it should be necessary for a District Magistrate to sanction renewal. The licensee may have changed his district or he may live in an inaccessible locality. The inconvenience then caused is considerable and easily avoidable. We therefore recommend that licenses should be renewed by any Magistrate or an Subdivisional Magistrate in the district in which the licensee is residing or in any other district in which he is known. In the case of a renewal of a license in a district other than that in which the license was originally issued we recommend that the original license should be renewed and the authority which issued the original license supplied with information of renewal. The production of firearms should not in our opinion be a precedent condition to the renewal of a license.

21. **Fees.**—In regard to the scale of fees we find that there are indications that the present fees are regarded as too high (except for a provincial license in the North-West Frontier Province) especially in the case of breech-loading guns. We recommend the

following scale in all provinces (except for provincial or district licenses in the North-West Frontier Province and possibly frontier districts of the Punjab) :—

Initial fee.—Revolver, Rs. 10; Rifle, Rs. 5; Breech-Loading Gun and ·22 bore Rifle, Rs. 3; Muzzle Loading Gun or Air Gun requiring a license, annas 12; the enhancement of the fee from annas 8 to annas 12 being intended to meet the cost of the improved and more expensive form of license. *The fees on renewal* should be reduced and we recommend that they should be respectively Rs. 5, 2-8, 1-8 and annas 8; but if renewal applications are not made within a month after the expiry of the period covered by the license we recommend that it should be open to the District Magistrate in lieu of prosecution to levy the initial fee in full. No reduction of fee on account of composition is required.

Payment of fees should be by non-judicial stamp and applicants should be allowed to send their applications for licenses or renewal of licenses by post.

Exemption from Fees.—As stated earlier in our report all Government servants, who are, in the opinion of their local Government, required to possess arms for the adequate discharge of their duty and all members of the Auxiliary and Territorial Forces should be permitted to possess two arms without payment of fees. Exemptees should as at present pay no fees and those who will, if our recommendations are accepted, receive a life license should similarly pay no fees for the arms which they are entitled to possess. We consider that the question of the extended issue of firearms free of fee in the North-West Frontier Province and Frontier districts should be carefully examined by the local authorities and we strongly recommend that, subject to such enquiries, action on these lines should be taken. We sympathise with the view of the arms dealers that the existence of a separate fee for a license for import into India and transport to destination is a distinct hardship, and in our opinion there should be a single fee only.

22. **Restriction on limit of possession of Ammunition.**—Under the rules no limits are placed on the amount of ammunition which may be possessed; but local Governments have themselves imposed limitations. From the evidence before us we consider that these restrictions are in some cases unnecessary and calculated to inconvenience the *bona fide* sportsman. A uniform procedure in this respect is desirable throughout India, and we accordingly recommend that no limit of ammunition should be fixed in the case of shot guns or ·22 bore or target rifles. In the case of revolvers we recommend a limit of 100 rounds and in the case of rifles a limit of 200 rounds per rifle. Any person who can prove that he needs more than 100 rounds for a revolver or 200 rounds for a rifle should be given a license for a large number. At the time of the purchase of revolver and rifle ammunition the license should, in our judgment, be produced. We are also of opinion that measures should be taken to facilitate the export of arms and ammunition to persons residing in feudatory states.

23. **All-India Licenses and more expeditious procedure.**—We have discussed in some detail questions affecting the issue of licenses because we feel that the public have legitimate grievances, and we believe that improvements can be effected for their benefit without in any way impairing the efficiency of the Arms Act administration. We desire now to make two proposals which we think may have material effect in allaying whatever dissatisfaction may remain. In the first place, we recommend that the issue of all-India licenses should be as unrestricted as possible and should be generally encouraged, and that certainly every member of the entitled class to whom a license is not refused should get an all-India license if he desires it. Further, we see no sufficient reason why Assam and Burma should be excluded from the all-India license and would recommend their inclusion. In this connection we also recommend with reference to entry No. 1 in Schedule II that enquiry should be made from the Punjab, Burma, North-West Frontier Province and Delhi whether the retention of these provinces in column 1 is really required and whether the power given in column 3 is not sufficient to meet all reasonable requirements. Secondly we strongly advocate greater expedition in dealing with applications for licenses and renewals. We have dwelt already on the possible inconvenience caused to the public. With the object of remedying the existing state of affairs it has been proposed that in each district a special department or a local advisory board should be established to deal exclusively with matters connected with the administration of the Arms Act. We are not in favour of the establishment of such a department or board, as the result would probably be even greater delay than at present, but we recommend that local Governments should be asked to issue instructions to district officers that they should appoint additional staff when necessary to deal expeditiously with applications for licenses and renewals, when applications are received in such numbers that the District Magistrate is not able to deal with them promptly with his ordinary staff.

24. **Points of detail.**—We now come to a number of miscellaneous points of detail and we propose merely to give a brief record of our conclusions.
